

Amendment 2

This Amendment to the April 9, 2015 Professional Services Contract for Provision of Telecommunications Consulting Services (the “**Agreement**”) is between THE MILWAUKEE COUNTY DEPARTMENT OF ADMINISTRATIVE SERVICES – INFORMATION MANAGEMENT SERVICES DIVISION (the “**County**”) and TECHNICAL DESIGN SERVICES, INC. (the “**Contractor**”) and is entered into on **December 29, 2016**.

The Contract is amended as follows:

1. **Section 1 – Scope of Services.** Section 1 is expanded to include the Project Work Steps, Staffing, and Timing items identified in Contractor’s Addendum for VoIP Telecommunications System Design & Selection dated **December 20, 2016** and attached as **Exhibit A**. The remainder of Section 1 shall remain in effect as written. This amended provision is in addition to any other amendments, addenda, change orders, and/or revisions executed by both parties and which are incorporated into the Agreement by reference. The following Work Steps are identified:
 - a. **Vendor Demonstration and Presentation Meetings.** Contractor shall attend vendor demonstration and presentation meetings and provide an agenda and evaluation tool for use during such meetings. The total estimated resource time expected for these services is 48 (forty-eight) hours.
 - b. **Finalist Vendor Discussions, General Implementation Planning, and Contract Negotiations.** Contractor shall conduct and attend meetings with the selected finalist vendor to discuss the implementation schedule and assist in the negotiation of a contract between the finalist vendor and the County. The total estimated resource time expected for these services is 126 (one hundred and twenty six) hours.
 - c. **System Implementation Planning.** At the County’s option, Contractor shall conduct implementation planning meetings with the selected finalist vendor. Contractor’s implementation planning meetings will focus on bringing context and the County’s design needs to the forefront of the implementation plan. If the County exercises this option, an additional amendment must be drafted to include estimated resource time and cost.
2. **Section 4 – Dates of Performance.** Contractor shall continue to provide services until completion of all tasks and/or deliverables identified by this Agreement, along with all amendments, addenda, change orders and/or revisions which have been executed by the parties and incorporated by reference, or until December 31, 2017, whichever occurs first.

3. **Section 5 – Compensation.** County and Contractor agree to increase the total dollar value of the Agreement from \$87,482.72 to \$131,237.72. The total dollar value of the increase shall not exceed \$44,945.00. The total dollar value of the amended Agreement shall not exceed \$131,237.72. Any increase to the estimated hours required to perform services and/or to the hourly rates indicated in Contractor's Addendum for VoIP Telecommunications System Design & Selection dated December 20, 2016 (Exhibit A) must be executed via separate written agreement, signed by both Parties. The purpose of the increase is the implementation of Phase I of the VoIP Telecommunications System Design and Selection Work Plan – Vendor Evaluation, Selection, Contract Negotiation, and General Implementation Planning.
4. All other provisions of the Agreement, as agreed to by the County and the Contractor, shall remain in effect as written.

[THE REMAINDER OF THIS PAGE INTENTIONALLY LEFT BLANK]

WHEREOF, the parties hereto have executed this agreement on the day, month, and year above written:

Contractor's Addendum for
VoIP Telecommunications System Design & Selection
December 20, 2016

December 20, 2016

Ms. Laurie Panella, CIO

Mr. Richard Trisco, IT Director

Milwaukee County – IMSD

633 West Wisconsin Avenue, Ste. 117

Milwaukee, WI 53233

Re: Countywide Telecommunications System Selection Project – Scope Extension

Dear Laurie and Rick,

Thank you so much for the opportunity to continue to work with Milwaukee County on the design, selection and implementation of a new VoIP Telecommunications System for County operations. Our project began in December of 2014 and over the past 24 months, we have worked closely with MCTS, GMIA and the County's staff to design and select a new system and vendor.

The project scope and services needed by the County has changed as we proceeded with the project and we have adapted to meet the County's needs as needed. It has been determined that additional funding from the County is needed to continue the project.

To address this issue, we have been asked to provide a review of the project, work accomplished and the estimated remaining effort and fees needed.

Project Background

In December of 2014, the County retained our services to assist with the design and competitive selection of a new VoIP telecommunications system for the County operations. Prior to this contract, our consultants have assisted the County with numerous telecommunications related projects and telecommunications assessments over the previous 20 years. Because of our unique knowledge of the County, history of the issues, solutions reviewed and overall direction, we were retained to assist with the development of a Formal Request For Proposal (RFP) and with the vendor selection process.

We have worked with MCTS, GMIA and IMSD and performed detailed departmental interviews, evaluated equipment inventories, gathered operational requirements, reviewed reports and operational statistics from the existing systems, participated with

Ms. Laurie Panella
Mr. Richard Trisco
Milwaukee County

Telecom System Replacement
Proposal Addendum

MCTS and GMIA to gather their operational needs, written a formal Request For Proposal, adapted the document to the County's needs, developed evaluation and scoring approaches, assisted with the pre-proposal vendor conference, conducted a formal question and answer process through County Procurement and have reviewed the vendor proposal documents.

Since December of 2014, the County has adapted and changed the project to address operational needs, timing requirements and budget issues and we adapted our work to meet those needs. During that time, the County experienced some significant staff and institutional changes that resulted in the project coordinator for the VoIP Telecommunications System Project to change 3 times over this period.

These changes have impacted the project schedule and our needed scope. Our original scope included 346 total hours of work to design the system, determine operational requirements, develop a detailed Request For Proposal (RFP) and conduct a competitive vendor selection. The schedule and work performed during the initial project changed to address a modified schedule, changed County project staffing and expanded work steps and options reviewed. The staffing changes required restarting various portions of the project, as well as additional time to update the new project staff with status, findings and direction.

As the project continued we proceeded with the additional services needed, including coordinated vendor demonstration sessions, complex-detailed financial analysis of the vendor proposals, updated scoring of the vendor proposals, best and final documentation development and response review.

In August of 2016, we developed an addendum to the original contract to modify the scope to address the additional services needed (described in the paragraph above). This addendum included an additional 256 hours of work to address the County's needs. The County decided to have us adapt this addendum to initially include steps 1,2 and 3 (128 hours) and hold Steps 4, 5 and 6 (128 hours) as optional.

As the project continued, the County Team pushed forward and due to schedules and deadlines, we were asked to proceed into the optional work at the direction of the County team, prior to formal contract finalization.

Ms. Laurie Panella
 Mr. Richard Trisco
Milwaukee County

Telecom System Replacement
 Proposal Addendum

Project Fees

We have developed the following work plan to illustrate the projected and actual hours for the project. Expenses will include Mileage and Parking. We do not anticipate any hotel or meal costs that will be needed for the remainder of the project. As a result, we believe the actual expenses will not exceed 10% of the project fee.

Steps	Milwaukee County, WI VoIP Telecommunications System Design and Selection Work Plan	Proposed Total Hours	Actual	Estimated Additional Hours
1	Vendor Proposal Review and Scoring (Completed)	48	74	0
2	Vendor Proposal Pricing Review and Scoring (Completed)	48	48	0
3	Conduct Review Meetings and Discussion with Procurement and County (Completed)	32	25	0
4	Conduct and actively Participate in the Vendor Demonstration and Presentation Meeting-Discussion (Completed)	48	48	0
5	Protest Support – Conduct/Participate in Finalist vendor Discussions, General Implementation and Contract Negotiations	32	6	120
6	Conduct-Participate in System Implementation Planning	48	0	TBD
Hours		256	201	120
Rates				\$175
				\$21,000

Our fees for step 6 are difficult to determine and depend on a number of variables that can be determined during the Contract Negotiations of Step 5. As a result, we agree with the County Staff that the County should revisit this step once the Contract is completed. As a result, County staff will determine the scope and return for funding approval.

Potential Future Funding Requests

The County's Telecom Team may return to the County Board to request additional funding to provide assistance related to implementation assistance. The County's Telecom Team and internal technical support is small, consisting of 3 or 4 staff who are working full-time positions to keep the existing system operational.

During the implementation of the new system, the vendor will need the County to provide information regarding extension, employee names, departmental breakdowns, general locations of telephones, trunking and line terminations, new lines and services, etc. This information will need to be gathered to begin the programming of the new system.

Ms. Laurie Panella
Mr. Richard Trisco
Milwaukee County

Telecom System Replacement
Proposal Addendum

Retaining consulting assistance for this work is common in the market place as this work, which only needs to be done once as part of the implementation. Retaining a consultant that has worked with the County Team throughout the process and has deep knowledge of the system, lines and County operational needs is the best approach for an efficient implementation.

As we proceed through the contract discussions, the scope of what would be needed for the implementation will become clearer and we will work with the County to develop a scope and schedule.

Description of the Project Work Steps

Following is a description of the work steps listed in the Fee Table above. At this point, Steps 1, 2, 3 and 4 are completed and we have just started step 5.

1. Vendor Proposal Review and Scoring

We assisted the County in the development of a formal Request For Proposal (RFP) and worked with Procurement to release. The vendor responses have been received. We also assisted the County in the development of a scoring approach to assist with the evaluation of the vendor proposals. These proposals will be reviewed by our team in conjunction with the other three (3) County proposal review teams and scored using the approach approved by County Procurement.

2. Vendor Proposal Pricing Review and Scoring

The vendors were required to provide a technical proposal and a separate financial proposal in response to the RFP. We worked with County Procurement and review the pricing information for each proposal and provide a rating and ranking of the vendor proposals as it relates to pricing.

3. Conduct Review Meetings and Discussions with Procurement and County Review Teams

We worked with County Procurement to coordinate any meetings with the County Proposal Review Teams, scoring discussions, technical discussions, implementation discussions and other planning meetings as needed. The number of these meetings is unknown, as a result, we have included an estimate in the project budget.

4. Participate in selected vendor Demonstration and Presentation Meetings

As part of the vendor proposal review, the County will be selecting finalist vendors to provide a presentation and demonstration of their proposed system. We attended the various meetings, provide an agenda and evaluation tool as needed.

5. Participate in finalist vendor discussions, general implementation planning and contract negotiations

Once a finalist vendor is selected, we will work with the County to conduct and attend meetings with the vendor to discuss the implementation schedule and negotiate the contract. The number of meetings has not been determined, as a result, we have included an estimate in the project budget.

6. Participate in System Implementation Planning

We will work with the County once the finalist vendor has been selected, to conduct implementation planning meetings with the vendor. This process will help to bring context and the County's design needs to the forefront of the plan.

Project Staffing

To provide the County with staffing consistency and operational congruence, our plan is to continue to have the original consulting staff continue to work with the County Departments, MCTS, GMIA and County IMSD team through the evaluation, selection and implementation planning.

Our staff participating will include Tom Weiman, Tim Taff and Marcia Struwing. These staff members have been actively involved in the project since the start and will continue as part of the team.

Project Timing

We are currently engaged in this active-complex project, so we will continue to participate as needed. We anticipate that this portion of the project will be underway through January/February 2017. It should be noted, that there are many factors beyond our control that can impact the timing of the project. We will keep you informed related to the timing of the engagement.

WAIVER REQUEST

Request for a goal of 0% requires signature of department head, a full scope of project and explanation.

Explanation: TDSi was selected with a participation goal of 0% in 2015 due to the vendor's unique qualifications to assist the County in this effort. In reviewing the NAICS list in 2015, no telecom consulting companies listed performed the type of work required. There will be a DBE/SBE opportunity when a finalist vendor is selected for implementation of the new VoIP system. TDSi is a certified SBE. This request is an amendment of the original 2015 agreement.
