To the Milwaukee County Board of Supervisors,

On behalf of the Charles Allis and Villa Terrace Art Museums Inc., the Executive Committee of the Board objects to the abrupt nature and timeline established by the Milwaukee County Board of Supervisors. The unrealistic demand for a proposal without seeing the research of this report is not feasible. Any actions occurring from it, without evaluation on behalf of the nonprofit, throw the organization into disarray, including support for the community, renters, endowments, and locally dependent programs.
