There needs to be more investigation done as to what third party auditors work with law enforcement and which ones don't. I'm sure there are other options for auditors that don't. The reason why people perished in the jail

was due to lack of accountability from the law enforcement entities in the jail, and it would surely be an injustice if a similar body did an investigation.

I am against this agreement with Creative Corrections LLC as cheapest isn't best. I feel that many of the board supervisors were not given the complete list of applicants with adequate time to further review. I We need to make sure whoever does this audit has experience and a background of mental health as it's essential to care for these individuals appropriately.. The community's demands have been very clear "We do not want law enforcement reviewing law enforcement! If this is the case than then the audit is pointless.." Also whoever the auditor will be we wants to have community input and provide comments of what things we wants to see reviewed!
