DESCRIPTION OF FISCAL EFFECT

In the space below, you must provide the following information. Attach additional pages if necessary.

- A. Briefly describe the nature of the action that is being requested or proposed, and the new or changed conditions that would occur if the request or proposal were adopted.
- B. State the direct costs, savings or anticipated revenues associated with the requested or proposed action in the current budget year and how those were calculated. ¹ If annualized or subsequent year fiscal impacts are substantially different from current year impacts, then those shall be stated as well. In addition, cite any one-time costs associated with the action, the source of any new or additional revenues (e.g. State, Federal, user fee or private donation), the use of contingent funds, and/or the use of budgeted appropriations due to surpluses or change in purpose required to fund the requested action.
- C. Discuss the budgetary impacts associated with the proposed action in the current year. A statement that sufficient funds are budgeted should be justified with information regarding the amount of budgeted appropriations in the relevant account and whether that amount is sufficient to offset the cost of the requested action. If relevant, discussion of budgetary impacts in subsequent years also shall be discussed. Subsequent year fiscal impacts shall be noted for the entire period in which the requested or proposed action would be implemented when it is reasonable to do so (i.e. a five-year lease agreement shall specify the costs/savings for each of the five years in question). Otherwise, impacts associated with the existing and subsequent budget years should be cited.
- D. Describe any assumptions or interpretations that were utilized to provide the information on this form.

A. The Director of the Department of Health and Human Services (DHHS) is requesting authorization to sign a 2022 Social Services and Community Programs contract with the State Department of Health Services (DHS). Approval will allow Milwaukee County to receive State revenue for county services to persons with disabilities and their families, older adults as well as those in need of community support and prevention services as mandated by State and/or Federal law.

B. The state's Social Services and Community Programs contract includes various separate revenues used to fund DHHS. Approval to sign the 2022 contract will allow Milwaukee County to receive funds.

C. The actual 2022 "Community Aids" contract for DHHS provides an allocation totaling \$17,193,695; this amount is \$78,715 more than the \$17,114,980 included in the DHHS 2022 Budget primarily due to increased funding for Alzheimer Caregiver Support and a variety of Title 3 funding increases offset by less Children's Long Term Support (CLTS) Program administration revenue due to a lagging assumption on the number of children being served in the program.

D. No further assumptions are made. The fiscal information was taken from the DHS 2022 contract notification.
