As a member of the Milwaukee Alliance Against Racist and Political Repression, the county has a real opportunity to create a level of transparency and control in regards to Grants and the MSCO.

The County recently put forth a considerable sum of money for an audit to find the issues with the Milwaukee County Jail. While the audit wasn't effective as it could have been, it certainly brought forth much needed information. We learned of many disturbing things such as how the CO's are trained, a lack of suicide prevention training, and much more. We have the information and tools to make the jail humane - the audit even provided action items for the MCSO work on.

The MCSO should be held accountable to these action items from the audit. The County can establish roles, procedures, responsibilities, and procedures regarding grant money and the MCSO. This can take the form of ensuring the grant money that the MCSO gets should only go towards the action items listed in the audit and making it public of how much grant money the MCSO receives every year.

We have an opportunity to make Milwaukee County a better place. Everything mentioned above would be a great first step to making that a reality.

The recent audit report of the Milwaukee County Jail noted throughout a significant need for improvements in transparency and accountability. Any funds being granted to MCSO, through the budget or grants, need to be accounted for and put to use making the many needed changes noted in the audit report.
