## DESCRIPTION OF FISCAL EFFECT

In the space below, you must provide the following information. Attach additional pages if necessary.

- A. Briefly describe the nature of the action that is being requested or proposed, and the new or changed conditions that would occur if the request or proposal were adopted.
- B. State the direct costs, savings or anticipated revenues associated with the requested or proposed action in the current budget year and how those were calculated. <sup>1</sup> If annualized or subsequent year fiscal impacts are substantially different from current year impacts, then those shall be stated as well. In addition, cite any one-time costs associated with the action, the source of any new or additional revenues (e.g. State, Federal, user fee or private donation), the use of contingent funds, and/or the use of budgeted appropriations due to surpluses or change in purpose required to fund the requested action.
- C. Discuss the budgetary impacts associated with the proposed action in the current year. A statement that sufficient funds are budgeted should be justified with information regarding the amount of budgeted appropriations in the relevant account and whether that amount is sufficient to offset the cost of the requested action. If relevant, discussion of budgetary impacts in subsequent years also shall be discussed. Subsequent year fiscal impacts shall be noted for the entire period in which the requested or proposed action would be implemented when it is reasonable to do so (i.e. a five-year lease agreement shall specify the costs/savings for each of the five years in question). Otherwise, impacts associated with the existing and subsequent budget years should be cited.
- D. Describe any assumptions or interpretations that were utilized to provide the information on this form.

Since 2002, planning and implementation services for the Wil-O-Way Recreation Program has been contracted to Easter Seals Southeastern Wisconsin, a non-profit agency. The annual program dollar amount allocated for this contract is \$339,937 (\$266,937 for program costs and \$73,000 for summer camp transportation reimbursement). It is anticipated that \$60,000 will be received in revenue from the summer camp fees. The contract amendment will eliminate the anticipated annual revenue received of \$60,000 and will eliminate the annual reimbursement for summer camp transportation costs of \$73,000, thus taking the annual contract amount to \$266,937, or a net increase in the county's bottom line of \$13,000 annually. The contractor will be revising their program offerings and fees so as to provide as much programming as possible with the current contract dollars (that haven't increased since 2013). The current contract covers a period of three years (2017-2019).
