Notes:  
 -Plants to be installed prior to any digging.  
 -Remove all stumps, trash, and debris larger than 1" in diameter from planting beds.  
 -Prior to planting add 2" compost and 2" topsoil over all planting beds and fill in.  
 -Plantings to be installed in a grid pattern. Water in immediately after installation.  
 -Mark beds with 1/2" of standard landscape spacers, stems or cones of dibble.  
 -Discuss maintenance with owners. New plantings must receive 1" of water per week through the growing season.
