

2024 Report to the
Service Delivery Committee of the
Commission on Aging
Counseling and Support

Please share a success from the second half of 2024.

Tell us a story of a client who benefited from your service, or a programmatic development that was well received

Two support group facilitators shared the feedback received from members about the benefits of attending them and how supported they feel to continue the dementia journey with confidence and strength.

Please share a challenge from the second half of 2024.

- Tell us about a challenge and how you addressed it. It can be something that you were able to overcome, or not. Attendance to our Spanish education programs (skilled-based) continues to be a challenge. Working with DCS and UCC to host a Latino Caregiver event to offer respite & fun for caregivers. We are planning to have music, dancing and meditation. Plan on inviting Core el Centro to be part of planning committee.
- If you have a challenge that you think that the Commissioners could directly help you with, please share it here.

I welcome ideas from Commissioners on how to incentivize Latino caregivers to attend programs.

Report on 2024 Performance Objectives

	Goal/Actual
Objective 1 Attend 15 health fair/outreach events in Milwaukee County	15/21
Objective 2 Care Consultation Interactions	30/35
