Re: County Contribution to the Employees' Retirement System and OBRA 1990 Retirement System

Dear Mr. Crowley:

This letter is being provided in accordance with the provisions of Section 201.24(3.1) of the County Ordinance ("CO") that governs the Employees' Retirement System and County Board File No. 97-155 that was adopted by the County Board in February 1997. This letter should be referred to the Committee on Finance and Audit.

The actuary has completed the annual review of the Pension Fund as of December 31, 2021, and has determined that the actual County obligation for 2022 is \$72,663,255. It is anticipated that a County contribution of \$74,441,000 will be paid for 2022. A break-down of these amounts is as follows (assuming that no Bi-weekly County contributions are anticipated to be made as of this time):

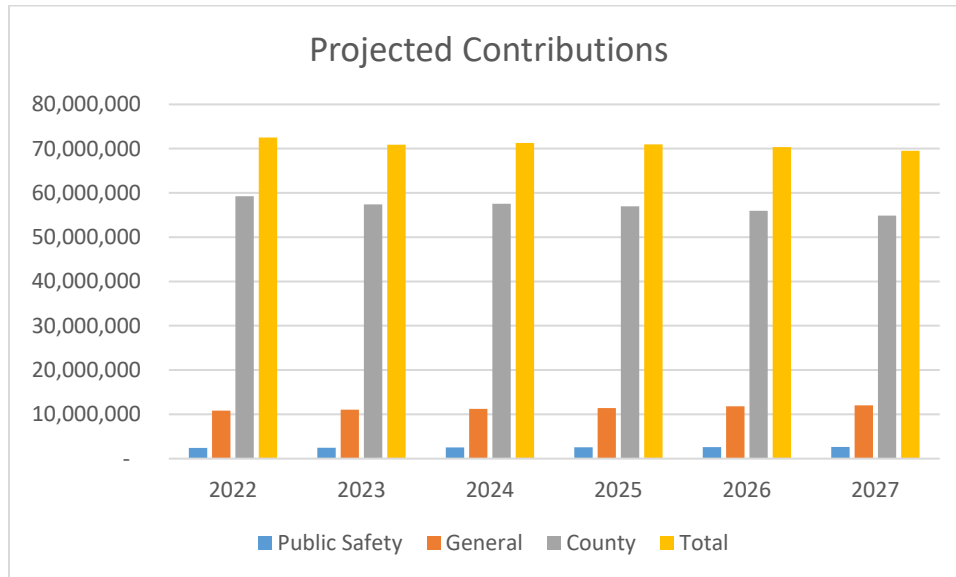

<u>Plan</u>	<u>Actual 2022 Obligation</u>	<u>Expected Contribution Credit</u>	<u>Type of Contribution Credit</u>	<u>Variance</u>
ERS		\$74,238,000	Lump Sum	
		0	Bi-weekly	
		0	Interest	
ERS Subtotal	\$72,493,578	\$74,238,000		(\$1,744,422)
OBRA	169,677	203,000	Lump Sum	(33,323)
Grand Total	\$72,663,255	\$74,441,000		(\$1,777,745)

The actuary has estimated that the 2023 County Budget should include a total of **\$72,314,000** for the County's 2022 gross Pension Fund obligation (including employee contributions). This amount includes:

\$ 72,128,000	Employees' Retirement Plan
<u>186,000</u>	OBRA Pension Plan
\$ 72,314,000	Grand Total

The plan provisions and actuarial assumptions used for the 2022 actual calculation are the same as those used for the 2021 actual calculations. For the 2022 budget calculation, a base for unexpected change in Unfunded Actuarial Accrued Liability during 2022 is added and amortized over 20 years. In addition, a contribution variance base is added and amortized over 5 years for the amount of the 2022 Actual Contribution determined that is not contributed during 2022. The rate of return on assets and valuation discount rate is 7.50%.

The following table shows the projected ERS contribution amounts through the 2027 Plan year. The contribution amounts shown are split among Public Safety Employees, General Employees, and the County.

A summary of the reconciliation of ERS contributions is shown on page 29 of the enclosed actuarial valuation report.

Attached is a summary of the funding plan for the ERS and OBRA plans, a summary of the actuarial assumptions used by the actuary for the ERS plan, and ten-year histories of the assets and liabilities for both the ERS and OBRA plans. Enclosed are the actuarial valuation reports for the Milwaukee County Employees' Retirement System as of January 1, 2022.

NOTE: The contribution amounts shown in this letter are gross amounts and do not account for any mandatory employee contributions. It is our understanding that County Staff will net out from this gross amount the amount of employee contributions that are collected to arrive at a net County contribution. The sum of County contributions and employee contributions should match the gross amount of contributions shown in this letter. The recommended employee contribution rates for 2023 are 6.1% for General Employees and 9.8% for Public Safety Employees. Last year's rates were 6.1% and 9.9%, respectively.

We urge the County to make every effort to budget for 2023 the amounts shown in this letter, and to consider any arrangements as it deems appropriate to transition to the increase in future contribution amounts.

Sincerely,

Mr. David Robles
Pension Board Chairman

Attachment and Enclosure

Employees' Retirement System of the County of Milwaukee
Funding Plan, Assumptions and Methods, History of Assets and Liabilities

I Funding Plan

- The funding policy in 2022 is to contribute each year the normal cost plus amortization payments plus expected administrative expenses.

2022 Obligation as Budgeted

	ERS	OBRA	Total
Normal cost	\$ 19,575,000	\$ 96,000	\$ 19,671,000
Amortization of unfunded/(overfunded)	54,663,000	(117,000)	54,546,000
Administrative Expenses	<u>0</u>	<u>224,000</u>	<u>224,000</u>
Total	\$ 74,238,000	\$ 203,000	\$ 74,441,000

Actual 2022 Obligation, Expected Contribution, and Variance

	ERS	OBRA	Total
Actual Obligation	\$ 72,493,578	\$ 169,677	\$ 72,663,255
Expected Contribution*	<u>74,238,000</u>	<u>203,000</u>	<u>74,441,000</u>
Expected Variance	\$ (1,744,422)	\$ (33,323)	\$ (1,777,745)

*Without interest to year-end

2023 Obligation as Budgeted

	ERS	OBRA	Total
Normal cost	\$ 19,870,000	\$ 97,000	\$ 19,967,000
Amortization of unfunded	52,258,000	(96,000)	52,162,000
Administrative Expenses	<u>0</u>	<u>185,000</u>	<u>185,000</u>
Total	\$ 72,128,000	\$ 186,000	\$ 72,314,000

- The normal cost is the charge for benefits earned in the current year.
- Expected administrative expenses are immediately reflected.
- The 2022 Obligation as Budgeted did not include any administrative expenses payable from ERS to the County nor from OBRA to ERS.
- The amortization period is 20 years for liabilities due to plan changes, actuarial assumption changes and actuarial experience. Future bases are amortized over 20 years from the date of inception. These amortization payments are calculated assuming that future payments increase by 1.75%.
- The amortization period for the variance (the difference between the actual obligation and the contribution paid) will be 5 years. These amortization payments will be calculated in level dollar amounts.

**Employees' Retirement System of the County of Milwaukee
Funding Plan, Assumptions and Methods, History of Assets and Liabilities**

II Current Actuarial Assumptions and Methods for the ERS and OBRA Plans

- Investment return – 7.50% per annum for ERS and OBRA
- Payroll growth – 3.5% per annum for ERS / 3.0% for OBRA
- Revenue growth – 1.75% per annum for ERS and OBRA

- Pay increases – Average Annual Individual Increase:

<u>General</u>	<u>Deputy Sheriffs</u>	<u>Elected</u>
3.9%	5.3%	3.1%

- Retirement age – Average Retirement Age:

<u>General</u>	<u>Deputy Sheriffs</u>	<u>Elected</u>
62	57	65

- Mortality rates

- a. Non-disabled pensioners: 102% of RP-2006 Healthy Annuitant male and 107% of RP-2006 Healthy Annuitant female projected generationally using scale MP-2016.
- b. Disabled pensioners: 97% of RP-2006 Disabled male and 95% of RP-2006 Disabled female projected generationally using scale MP-2016.
- c. Active members: RP-2006 Employee tables, sex distinct, projected generationally using scale MP-2016.

- Separation rates – Average Annual Turnover*:

<u>General</u>	<u>Deputy Sheriffs</u>	<u>Elected</u>
11.8%	7.5%	0.0%

** For employees not yet eligible to retire.*

- Type of disability

- a. Represented employees - 50% Ordinary; 50% Accidental
- b. Non-represented employees - 100% Ordinary; 0% Accidental

- Backdrop rates – 75% of eligible retirees are assumed to elect a backdrop. Of those electing, 75% are assumed to take the maximum period available to them and 25% take half the maximum period available. The maximum period available is estimated by excluding time periods before the employee was eligible for an unreduced service retirement benefit.

Unless otherwise noted, the assumptions above are for the ERS plan. Refer to the valuation reports for a detailed exhibit of the assumptions for both plans.
