Subject: Report from the Executive Director, Department of Health and Human Services, providing an informational update on the 2026 State/County contract spending controls

File Type: Informational

**REQUEST**

DHHS is providing an update on the spending controls included in the 2026 Social Services and Community Programs (State/County) contract with the State of Wisconsin Department of Health Services which was approved by the County Board under File 25-757 in December 2025.

**POLICY**

Section 46.031 of the Wisconsin Statutes requires counties to execute an annual contract with the State Department of Health Services (DHS) for “Social Services and Community Programs.” The contract, also referred to as Community Aids, provides state and federal funding for services provided by DHHS to persons with disabilities and their families, older adults as well as those in need of community support and prevention services as mandated by State and/or Federal law. Revenues related to BHS are approved separately by the Mental Health Board.

Wisconsin State Statutes:	46.031, 59.52(31)

**BACKGROUND**

At the time File 25-757 was submitted, the federal government was operating without an approved FFY2026 budget or Continuing Resolution (CR). While State DHS had not adjusted county contracts in response to this uncertainty, counties were required to adhere to spending controls pending final federal Notice of Awards (NOAs) of funding. These controls primarily impacted federal grants tied to mental health services and older adults (Older Americans Act).

DHS indicated that funding controls would be relaxed or removed if and when federal funds became available.

**Federal Update**

On February 3, 2026, Congress passed—and the President signed—Health and Human Services appropriations legislation that, among other provisions, funds the federal grants in the State/County contract through September 30, 2026. At about the same time, the State received its initial FY2026 Notice of Awards (NOAs) from the U.S. Department of Health and Human Services for the Community Mental Health Services Block Grant and the Substance Use Prevention, Treatment, and Recovery Services Block Grant.

As a result, DHS has eased some spending controls though lifting the remaining restrictions will depend on the release of additional federal NOAs. DHHS administration is closely monitoring 2026 social service spending. If these controls stay in place beyond early Q2 2026, some services may need to be paused or discontinued.

While DHHS expects the remaining federal NOAs to be released, we wish to inform policymakers of the risk to services should that not occur. Based on funding controls in the current allocation memo, AODA and Mental Health Block Grant funded programs are at highest risk and Older Americans Act programming is considered moderate risk.
