Request:

- Milwaukee County Parks requests authorization to enter into Agricultural Lease Agreements with individual farmers for the benefit of Milwaukee County land.

Background

- Milwaukee County Parks manages 708 acres of agricultural land for the purpose of growing and harvesting agricultural row-crops, vegetable crops, and hay.
- The majority of these sites are located along the Oak Creek, Ryan Creek, and Root River and are prone to high water tables or seasonal flooding.
- Keeping these lands in production deters invasive plant species from overtaking the land.
