

COMMISSION ON AGING  
Senior Centers Committee

---

Proposed Revised Goals

8/15/2025

- 1) Make a concerted effort to maintain the current and future senior center buildings in a way that ensures accessibility, improves the functionality and enhances the aesthetic quality of the space.
- 2) Review, improve, build on and continue to promote self-governing programs as the primary model for program delivery in the senior centers.
- 3) Identify and nurture diverse programmatic partners of the senior centers to realize the vision of the HUBS Report.
- 4) Working with professional messaging consultants, create a highly nuanced messaging strategy and materials for broad and diverse reach, focusing on advocacy and senior center constituents.
- 5) In order to create strategies that eventually rely less on public funding, generate long term fiscal sustainability through the creation of a collective, non-profit agency.
