Will items not listed in today's report continue to be considered by the subgroup for recommendations at future meetings? If so, what is the timeline for these recommendations? I am particularly interested in the status of requests to use ARPA funding to move forward on restoration of the Mitchell Park Domes, an idea that was submitted through the public ARPA website and suggested by various Supervisors as well. Thank you!

I am curious as to the status of the online public dashboard of funding ideas that I understand is being produced. This will be a very valuable tool to help the public understand what was suggested for funding and the status of each item. I look forward to seeing this dashboard as soon as it is available and thank you for making this information public and the process transparent.
