DESCRIPTION OF FISCAL EFFECT

In the space below, you must provide the following information. Attach additional pages if necessary.

- A. Briefly describe the nature of the action that is being requested or proposed, and the new or changed conditions that would occur if the request or proposal were adopted.
- B. State the direct costs, savings or anticipated revenues associated with the requested or proposed action in the current budget year and how those were calculated.¹ If annualized or subsequent year fiscal impacts are substantially different from current year impacts, then those shall be stated as well. In addition, cite any one-time costs associated with the action, the source of any new or additional revenues (e.g. State, Federal, user fee or private donation), the use of contingent funds, and/or the use of budgeted appropriations due to surpluses or change in purpose required to fund the requested action.
- C. Discuss the budgetary impacts associated with the proposed action in the current year. A statement that sufficient funds are budgeted should be justified with information regarding the amount of budgeted appropriations in the relevant account and whether that amount is sufficient to offset the cost of the requested action. If relevant, discussion of budgetary impacts in subsequent years also shall be discussed. Subsequent year fiscal impacts shall be noted for the entire period in which the requested or proposed action would be implemented when it is reasonable to do so (i.e. a five-year lease agreement shall specify the costs/savings for each of the five years in question). Otherwise, impacts associated with the existing and subsequent budget years should be cited.
- D. Describe any assumptions or interpretations that were utilized to provide the information on this form.

Approval of this resolution will indicate Milwaukee County's support for adoption of solar energy systems when cost effective and beneficial to County residents. The resolution also directs that General Mitchell International Airport take steps to retain an independent energy consultant to explore the feasibility of solar systems on airport buildings and/or property. This fiscal note does not attempt to estimate the cost of retaining such consultant, as the amount is likely to vary widely depending on the scope of the review. Airport expenditures are offset with airline/airport revenues for no net tax levy impact to the County.

This resolution also directs the Office of Sustainability to develop practices to help other applicable departments assess solar energy opportunities. This will require an expenditure of staff time, but does not require an expenditure of funds.
