

Mid-year 2025 Report to the Service Delivery Committee of the Commission on Aging

Life Navigators Support for Older Adult Caregivers of Person with
Intellectual or Developmental Disabilities, and Older Adults with
Intellectual or Developmental Disabilities

Please share a success from the first half of 2025.

Life Navigators has worked with Greg and his family for many years, providing support, assistance in getting connected to resources and working on a future's plan. With his mother no longer able to care for him, Greg was bouncing between family members and did not have stable housing. Greg finally moved into his own Supported Apartment this March and is so proud of his new space!

Please share a challenge from the first half of 2025.

The delay in access to Long Term Care services continues to be a significant concern in working with families to plan for the future of their loved one. The waitlist to even receive Options Counseling has only grown longer in 2025. In one case, a family we work with had been connected to Long Term Care (IRIS) but due to a clerical error (not of the family's doing), their daughter was disenrolled from critical support services. The family has had to scramble to provide services and pay out of pocket until LTC can be restored. Upon calling the ADRC to get their daughter re-enrolled, they were told it will be months just to get to the point of the functional screen, even longer until she gets reenrolled.

Please share one service improvement or planned change for the second half of 2025.

Life Navigators is expanding its commitment to serve families who request that the agency serve as standby guardian for their loved one. As part of their futures planning, families often have no one to serve in this capacity in the future when they may no longer be able to serve. To address this growing need, Life Navigators has increased staffing to build relationships with these families and stay connected to ensure continuity of care and provide the family with peace of mind.
