Re: Milwaukee River Parkway

Dear Supervisor Lipscomb:

To confirm our recent telephone conversation, the City of Glendale continues to be interested in participating with Milwaukee County on the reconstruction and pavement of the Milwaukee River Parkway from West Bender Road north to West Good Hope Road.

Specifically, Glendale would be willing to financially participate in this project, inasmuch as we have several single family residential homes along the west side of the Parkway from West Edward Lane to north to West Good Hope Road. We estimate that this is approximately 20% of the total area project.

Accordingly, assuming a construction estimate of \$3,000,000, Glendale would be willing to participate with \$600,000 in 2015.

Please advise as to whether this project will be undertaken by the County next year.

Sincerely,

CITY OF GLENDALE

Richard E. Maslowski
City Administrator
