DESCRIPTION OF FISCAL EFFECT

In the space below, you must provide the following information. Attach additional pages if necessary.

- A. Briefly describe the nature of the action that is being requested or proposed, and the new or changed conditions that would occur if the request or proposal were adopted.
 - B. State the direct costs, savings or anticipated revenues associated with the requested or proposed action in the current budget year and how those were calculated. ¹ If annualized or subsequent year fiscal impacts are substantially different from current year impacts, then those shall be stated as well. In addition, cite any one-time costs associated with the action, the source of any new or additional revenues (e.g. State, Federal, user fee or private donation), the use of contingent funds, and/or the use of budgeted appropriations due to surpluses or change in purpose required to fund the requested action.
 - C. Discuss the budgetary impacts associated with the proposed action in the current year. A statement that sufficient funds are budgeted should be justified with information regarding the amount of budgeted appropriations in the relevant account and whether that amount is sufficient to offset the cost of the requested action. If relevant, discussion of budgetary impacts in subsequent years also shall be discussed. Subsequent year fiscal impacts shall be noted for the entire period in which the requested or proposed action would be implemented when it is reasonable to do so (i.e. a five-year lease agreement shall specify the costs/savings for each of the five years in question). Otherwise, impacts associated with the existing and subsequent budget years should be cited.
 - D. Describe any assumptions or interpretations that were utilized to provide the information on this form.
-
- A. Milwaukee County Parks is seeking to enter into an agreement with MMSD to conduct flood management work within Wilson Park. This project will produce a comprehensive plan for Wilson Park to include the replacement of County assets that are impacted by the flood management improvements that are needed.
 - B. MMSD will pay for all costs associated with the production of the plan and the implementation of future improvements. Milwaukee County is not responsible for any costs associated with this project other than the use of existing staff time. Through the implementation of the plan, there is a high probability that existing park operating and capital needs would be addressed so that Milwaukee County would not be responsible for these expenses in the future.
 - C. There is no direct fiscal impact to upcoming budgets. It is anticipated that planning will last several years and material changes to the park would in turn not occur until planning is complete.
 - D. None

Prepared by: Jim Tarantino, Deputy Director, Milwaukee County Parks

¹ If it is assumed that there is no fiscal impact associated with the requested action, then an explanatory statement that justifies that conclusion shall be provided. If precise impacts cannot be calculated, then an estimate or range should be provided.
