in Milw County, don't pay County taxes, and won't be harmed by the (very likely) reduction in future state aid to Milw County that will occur due to the unrealistic County receivables. At the same time, I do not think this is going to meaningfully benefit residents of our community who need it most. There is not even any assurance of local hiring preferences for living wage jobs. ~~The~~ The land transfer for \$1 is also an unfair giveaway. And if you do research (such as by Dave Zirin) the benefits of sports stadiums are routinely overstated. That's true here.

① I do not understand why a valuable part of Milwaukee like MSOE paid millions for Park East land but the Bucks owners shouldn't pay. Are ~~there~~<sup>their</sup> plans not viable unless the land is a gift? Is there any reason for the \$1 price beyond increasing profit?

## PUBLIC COMMENT CARD

② Milwaukee is growing organically, I see a lot of new development: N. Water ST, NML bldg, Third Ward, 833 E. Michigan. I do not believe Milwaukee can support all the new proposed development simply because the Bucks owners say it's a good idea. They seem to be pulling numbers out of the air. Sports economists agree that sports arenas do not generate new economic activity. So fans will just be spending money at new places instead of at current establishments. Meanwhile, we will not be able to fund the convention center expansion, which would bring new money into Milwaukee. And there is no plan for maintenance of our cultural amenities. If the state legislature does not allow any new taxes, where will money for our other needs come from?

③ I would like to see some analysis of the certified county debt. How much is from "scofflaws" who can and will pay, and how much debt is from people who are too poor to pay without sacrificing basic family needs?

④ I want to be proud to live in a city that tackles segregation and poor low income student achievement. I don't feel proud to be just another city that pays a lot to watch men throw balls around.

Billions who will benefit  
from profits. No land sale  
for development (public) @ \$1.  
for over \$8 million property.  
Most Milwaukee citizens  
can't afford Bucks tickets now.  
Therefore Bucks fans should  
be on the "hook" for this  
development w/ increased  
ticket prices. Milw taxpayers  
still "on hook" for Brewer's  
Stadium building despite  
being built over 10 yrs ago.  
If anything by way of public  
funding - that should now be  
channeled to Arena.

true. This is a generational opportunity move Mil. forward and take a step toward becoming a world-class city. Do not say 'no' to a billion-dollar investment. No new taxes - there is no downside. I'm 28. I want this. Other young professionals want this - or else we'll probably leave and find the thriving, modern cities elsewhere.
