1-10-2014 FINANCE, PERSONNEL AND AUDIT COMMITTEE APPROPRIATION TRANSFERS
A CAPITAL - RECEIPT OF REVENUE

File No. 14-1/14-86
(Journal, December 19, 2013)

Action Required

Finance, Personnel and Audit Committee
County Board (2/3 Vote)

WHEREAS, department requests for transfers within their own accounts have been received by the Department of Administrative Services, Fiscal Affairs, and the Director finds that the best interests of Milwaukee County will be served by allowance of such transfers;

THEREFORE, BE IT RESOLVED, that the Director, Department of Administrative Services, is hereby authorized to make the following transfers in the 2014 appropriations of the respective listed departments:

	<u>From</u>	<u>To</u>
1) <u>WO150012 Courthouse Fire Project #</u>		
8589 – Other Capital Outlay		\$3,000,000
4959 – Recoveries	\$3,000,000	

Existing Project, + Included in 5-Year Plan, * New Project

A **2014** appropriation transfer of \$3,000,000 is requested by the Director of the Department of Administrative Services to recognize anticipated revenue from insurance recovery proceeds and establish expenditure authority in Capital Project WO150, Courthouse Fire Project by a corresponding amount. The transfer will reflect estimated first quarter expenditures for the project, which primarily include items related to temporary power provision, and electrical and mechanical component replacements.

An October 2013 appropriation transfer approved by the County Board and County Executive created project WO150 Courthouse Fire Project. The initial transfer created \$5,999,500 of expenditure authority and revenue from insurance proceeds to reflect the project's status.

Another appropriate transfer is being request in January 2014 for WO150 Courthouse Fire Project, for consideration by the County Board and County Executive, to recognize additional insurance proceeds, increase expenditure authority and request \$4,000,000 from the Appropriations for Contingency account for additional expenses incurred through December 31, 2013.

This fund transfer has no tax levy impact.

TRANSFER SIGNED BY THE COUNTY EXECUTIVE JANUARY 10, 2014.

9779 Central Service Allocation	\$16,466	
<u>1945 – Appropriation for Contingency</u>		
8901 – Appropriation for Contingency	\$84,030	
<u>1150 – DAS Risk Management</u>		
3819 – Services Provided Risk Mgmt		\$4,607
3874 – Services Provided Workers’ Comp		\$15,819
3877 Services Provided Insurance Serv		\$14,776
3878 Services Provided Admin Work Comp		\$5,600
<u>5300 – Fleet Management</u>		
3804 – Services Provided Fleet Maint		\$5,802
<u>1921 – Human Resources Payroll System (HRIS)</u>		

DRAFT

3871	Services Provided HRIS	\$20,960
<u>1935 – Charges to Other County Departments</u>		
9879	Central Service Allocation	\$16,466

Request

The Director of the Office of Performance, Strategy and Budget requests a fund transfer in the amount of \$84,030 to reallocate expenditure authority from the Appropriation for Contingencies to the Department of Administrative Services-Risk Management Division (\$40,802), the Department of Transportation-Fleet Management Division (\$4,607), the Non-Departmental account for payroll software services (HRIS - \$20,960), and the Central Service Allocation (\$16,466). This fund transfer would reduce internal crosscharges in the Office of the County Board of Supervisors by \$84,030 and eliminate an expenditure abatement of the same amount.

The 2014 Adopted Budget included a provision (Amendment 1A035) that set a maximum amount of internal crosscharges for the Office of the County Board of Supervisors of \$416,265. Other than facilities space rental charges, it did not indicate which crosscharges would be reduced to reach this maximum total, and it did not reduce offsetting revenues in the charging departments. As a result, a placeholder expenditure reduction of \$84,030 was placed in an abatement account so that the total of allocated internal crosscharges plus the abatement equals the maximum total as indicated in the amendment

As was explained during debate over this amendment, all internal crosscharges in the Office of the County Board of Supervisors have offsetting revenue accounts in the departments or non-departmental accounts that enact the charges. If the costs within the County Board of Supervisors are unilaterally reduced but the offsetting revenue budgets are not reduced, a deficit will result in the charging entity (for example Fleet or HRIS). Conversely, if the charging entities bill at the budgeted level, the Office of the County Board of Supervisors would experience a deficit of \$84,030.

This fund transfer will:

1. Eliminate the \$84,030 placeholder abatement within the Office of the County Board of Supervisors
2. Reduce the crosscharges listed above in the Office of the County Board of Supervisors so that the total is equal to the maximum as indicated in the amendment.
3. Reduce revenue in the charging entities (i.e. Fleet, Risk Management, HRIS, and the Central Service Allocation)
4. Transfer tax levy from the Appropriation for Contingencies to the charging entities to offset the revenue reduction.

There is no tax levy impact from this transfer.

TRANSFER SIGNED BY THE COUNTY EXECUTIVE JANUARY 10, 2014.

DRAFT

	<u>From</u>	<u>To</u>
2) 1130 – Corporation Counsel		
5199 – Salaries – Wages Budget		\$53,347
5312 – Social Security Taxes		\$4,081
1945 – Appropriation for Contingency		
8901 – Appropriation for Contingency	\$57,428	

Request

The Office of the Corporation Counsel is requesting a **2014** fund transfer in the amount of \$57,428 from the Appropriation for Contingencies to allocate expenditure authority for salary and wages.

The 2014 Recommended Budget included the creation of a new Records Management section within the Department of Administrative Services. The County Board of Supervisors adopted Amendment 1A016, which instead placed this function within the Office of the Corporation Counsel. The amendment included the creation of 1.0 FTE Assistant Principal Corporation Counsel, with a salary and social security cost of \$74,055.

An additional amendment, 1B022 applied vacancy and turnover savings of \$82,317 to the budget for the Office of the Corporation Counsel, which included \$62,585 in salary and social security cost reductions. The Office of the Corporation Counsel has a relatively small personnel budget, with only 20 funded positions (including the new Assistant Principal Corporation Counsel noted above). At the time the budget was discussed and adopted, 19 of these positions were filled. As a result, under the 2014 Adopted Budget, the Office of the Corporation Counsel could not hire the position intended to provide records management duties until very late in 2014 without incurring a deficit.

This fund transfer restores 11 months' worth of funding for the newly created Assistant Principal Corporation Counsel so that the position can be filled as soon as possible to perform this vital function.

This fund transfer has no tax levy impact.

TRANSFER SIGNED BY THE COUNTY EXECUTIVE JANUARY 20, 2014.

DRAFT

1-10-2014 FINANCE, PERSONNEL AND AUDIT COMMITTEE APPROPRIATION TRANSFERS
C CAPITAL IMPROVEMENTS

File No. 14-1/14-86
(Journal, December 19, 2013)

Action Required

Finance, Personnel and Audit Committee
County Board (Majority Vote)

WHEREAS, your committee has received from the Department of Administrative Services, Fiscal Affairs, departmental requests for transfer to the 2013 capital improvement accounts and the Director finds that the best interests of Milwaukee County will be served by allowance of such transfers;

THEREFORE, BE IT RESOLVED, that the Director, Department of Administrative Services, is hereby authorized to make the following transfers in the 2014 capital improvement appropriations:

	<u>From</u>	<u>To</u>
1) <u>WO224012 Zoo Interchange Utilities Relocation #</u>		
8529 – Utility Relocation- (CAP)		\$13,340
4999 – Other Miscellaneous Revenue	\$13,340	

Existing Project, + Included in 5-Year Plan, * New Project

A 2014 appropriation transfer of \$13,340 is requested by the Director of the Department of Administrative Services (DAS) to increase expenditure authority and revenue for Project WO224012 Zoo Interchange Utilities Relocation.

As part of the State's Zoo Interchange Project, Watertown Plank Road is undergoing reconstruction. This reconstruction has required the relocation or otherwise improving County Utilities in order to eliminate the conflicts between the utilities and the Watertown Plank Road improvements.

In March 2013, the County Board approved resolution 13-177 that authorized the DAS to enter into a Memorandum of Understanding (MOU) with the Wisconsin Department of Transportation (WisDOT) to reimburse Milwaukee County for expenses associated with Project WO224 Zoo Interchange Utilities Relocation. The total appropriation provided through the CB Res 13-177 is \$2,003,500. A separate resolution (CB Res 13-279) provided an additional \$250,000 for the project.

In August 2013, discussions were held with WE Energies and Ronald McDonald House (RMH) concerning portions for the Milwaukee County water system. In particular, there were concerns about the eight inch branch line which ties to the Watertown Plank Road main. It was determined that a twelve inch branch line would be in a better position to provide adequate water service to the power plan and RMH. We Energies and Ronald McDonald House agreed to pay the County for the cost associated with the larger size.

This appropriation transfer will increase expenditure authority for the project by \$13,340 to pay for the additional costs associated with the larger branch line. Financing will be provided by a contribution of \$8,150 from We Energies and a contribution of \$5,190 from Ronald McDonald House.

DRAFT

The utility relocation project is substantially complete and punch list items will be finished in the first half of 2014. The reconstruction of Watertown Plank Road is anticipated to be complete by the end of 2014.

There is no tax levy impact from this transfer.

TRANSFER SIGNED BY THE COUNTY EXECUTIVE JANUARY 10, 2014.

	<u>From</u>	<u>To</u>
2) <u>WO11201 Fleet General Equipment</u>		
8554 – Vehicle Replacement		\$7,892
4907 – Bond Notes and Proceeds	\$7,892	
<u>WO11202 Airport Equipment</u>		
8554 – Vehicle Replacement		\$2,850,354
4901 – Passenger Facility Charges	\$2,850,354	
<u>WO11204 House of Correction Equipment</u>		
8554 – Vehicle Replacement		\$168,000
4907 – Bond Notes and Proceeds	\$168,000	
<u>WO11205 Parks Equipment</u>		
8554 – Vehicle Replacement		\$25,186
4907 – Bond Notes and Proceeds	\$25,186	

A 2014 appropriation transfer of \$3,051,432 is requested by the Director of the Department of Transportation (MCDOT) to provide expenditure authority and revenue for existing Fleet Equipment Acquisition projects in order to allow work to move forward during the carryover process.

This fund transfer will provide the projects expenditure authority in the first half of the year prior to the approval of the carryovers. This is being done so that fleet acquisitions can continue on existing projects without having to wait until May.

Subsequent to the final approval of the carryovers, this fund transfer will be reversed through an administrative appropriation transfer.

TRANSFER SIGNED BY THE COUNTY EXECUTIVE JANUARY 10, 2014.

Existing Project, + Included in 5-Year Plan, * New Project

A 2014 appropriation transfer of \$5,258.153 is requested by the Director of the Department of Transportation to provide expenditure authority and revenue for 2013 Highways Capital Improvement Projects to allow work to move forward during the carryover process.

This fund transfer will provide the projects expenditure authority in the first half of the year prior to the approval of the carryovers. This is being done so that work can continue on existing projects without having to wait until May. Subsequent, to the final approval of the carryovers, this fund transfer will be reversed through an administrative appropriation transfer. Below is a brief explanation for the transfer of funds by project:

Project WH00115 S. 76th St, Intersections of Edgerton and Layton Ave

The intersections of Edgerton and Layton on S. 76th St. are closely spaced with high vehicular volumes, numerous access points and high crash rates. Geometrics improvements will be made at both intersections including offsetting the left turn lanes. Traffic signals will be upgraded and traffic signal timings evaluated. Traffic signal progression will be improved between the two intersections.

The 2013 Adopted Capital Improvements Budget included an appropriation of \$112,000 for the design phase of the project in the Traffic Hazard Elimination Program. Financing was provided from \$100,800 in Federal revenue and \$11,200 in sales tax.

DRAFT

This appropriation transfer will temporarily provide \$46,000 of expenditure authority and revenue budget so that design work on the project can continue. The project is anticipated to be substantially complete by the end of 2014. Since this is a WisDOT project, the final close out could take up to two years after the engineering close out is completed.

Project WH00116 Countdown Signal Heads (49)

Current traffic signal heads do not give a clear indication of the amount of time left for pedestrians to safely cross the intersection. The Pedestrian Countdown Signal Heads, 49 Various Locations project will install compliant countdown pedestrian signal heads at 49 various locations maintained by Milwaukee County, improving safety by clearly communicating to pedestrians the amount of time remaining to cross the intersection.

The 2013 Adopted Capital Improvements Budget included an appropriation of \$435,000 for the design and construction phases for the Pedestrian Countdown Signal Heads, 49 Various Locations project in the Traffic Hazard Elimination Program. Financing was provided by \$391,500 in Federal revenue and \$43,500 in sales tax revenue.

This appropriation transfer will temporarily provide \$25,000 of expenditure authority and revenue budget so that design work on the project can continue.

Project WH00117 – Intersection of CTH Y and S. 60th St

Increased traffic volumes and left turns have contributed to a large number of crashes due to existing intersection geometrics, operations and traffic control. The Intersection of CTH Y and S. 60th St. project will offset the left turn lanes and install overhead traffic signals in all directions to improve visibility. Traffic signal progression will be improved for better traffic flow.

The 2013 Adopted Capital Improvements Budget included an appropriation of \$98,000 for the design phase for the Intersection of CTH Y and S. 60th St. project in the Traffic Hazard Elimination Program. Financing was provided from \$88,200 in Federal revenue and \$9,800 in sales tax.

This appropriation transfer will temporarily provide \$25,000 of expenditure authority and revenue budget so that design work on the project can continue.

This appropriation transfer will temporarily provide \$25,000 of expenditure authority and revenue budget so that design work on the project can continue.

WH00201 Interjurisdictional Traffic Communications System

The 2009 Adopted Capital Improvements Budget included an appropriation of \$500,000 (excluding capitalized interest) for the design and initial construction phases of the Interjurisdictional Congestion Mitigation Air Quality (CMAQ) project. The project will allow the County to connect its signaling system with its master traffic control computer. This alleviates the need for the County to construct its own communication lines throughout the county trunk highway system. The project will also allow the County to coordinate its intersections closely with state-owned intersections and signals to create coordination between interconnecting streets and highways. The coordination of the signals will reduce traffic congestion.

DRAFT

A May 2013 appropriation transfer increased expenditure authority for Project WH00201 by \$500,000 to perform the remaining construction work on the project. Financing was provided by \$360,000 of Federal revenue and \$140,000 of cash reallocated from Project WO870 County Special Assessments.

This appropriation transfer will temporarily provide \$112,000 of expenditure authority and revenue budget so that construction work on the project can continue. The construction is anticipated to be complete by the end of the first half of 2014.

WH01002 W. Mill Rd. (N. 43rd St. to N. Sydney Place)

The proposed 1.2 mile segment of W. Mill Rd. (CTH S) from N. 43rd St. to N. Teutonia Ave. will be reconstructed as a two-lane urban section with an auxiliary lane from N. 43rd St. to N. 40th St. From N. 40th St. to N. Teutonia Ave. the roadway will be a two-lane rural section with paved shoulders. The limits of the project were extended from N. Teutonia Ave. to N. Sydney Pl. in 2013. The design is still in progress.

This appropriation transfer will temporarily provide \$260,000 of expenditure authority and revenue budget so that design work on the project can continue.

WH01007 S. 13th St. Reconstruction (W. Rawson to W. College)

The 2009 Budget included \$6,000,000 for the reconstruction of South 13th Street (Rawson to College). Prior to 2009, over \$2 million had been budgeted for the design and right-of-way phases. The reconstruction included the widening of S. 13th (W. Rawson to W. College) from two lanes to four lanes.

Two July 2011 appropriation transfers were approved that reallocated approximately \$1.6 million of expenditure authority from the project in order to cover shortfalls in Project WH08003 Lake Park Bridge over Drainage Ravine (\$902,549) and Project WH08004 Kinnickinnic River Parkway Bridge (\$707,955). At the time of the 2011 transfer, construction was 50% complete and the Department of Transportation and Public Works anticipated that the project have a surplus of approximately \$2 million.

The work on the project was substantially completed in 2012.

This appropriation transfer will temporarily provide \$80,000 of expenditure authority and revenue budget so that final design expenses on the project can be paid to WisDOT and the project can be closed.

WH01017 S. 76th St. (W. Puetz to W. Imperial)

The 2010 Adopted Capital Improvements Budget included an appropriation of \$5,179,000 for the construction phase of Project WH01017 S. 76th St. (W. Puetz Rd. to W. Imperial Dr.). Prior to 2010, approximately \$2,000,000 had been appropriated for design and right-of-way phases of the project.

This segment of South 76th Street (CTH U) (measuring approximately 1.5 miles in length) is a two-lane roadway, which carries 7,200 to 11,400 vehicles daily. The existing roadway is severely deteriorated resulting in pavement distress. It will be reconstructed to improve pavement conditions including widening from two-lanes to four-lanes in order to accommodate the increasing flow of vehicular traffic due to residential and commercial development. The intersections of West Imperial Drive, West Drexel Avenue and West Puetz Road do not meet federal traffic standards for signage and signaling. Signal warrants will be conducted for these roadway segments to determine what traffic signage and/or signalization is necessary to be compliant with federal traffic standards. In addition, there is a box culvert crossing the roadway north of West Drexel Road that has deteriorated and needs to be replaced.

DRAFT

The 2014 Adopted Capital Improvements Budget included an additional appropriation of \$631,000 and \$3,766,333 for the design phase and construction phases of the project respectively. The additional appropriations were added in order to finance additional design/construction requirements and inflation. WisDOT financing for the project expires in 2014 so the construction has to be bid and let in 2014 or the entire funding included in the State/Municipal Agreement would be forfeited.

This appropriation transfer will temporarily provide \$4,521,353 of expenditure authority and revenue budget so that design, construction, and right-of-way work on the project can continue.

WH02012 S. 68th St. (W. Ryan Rd. to HOC)

The 2013 Adopted Capital Improvements Budget included an appropriation of \$30,000 for the design phase of the S. 68th St. (CTH A) from W. Ryan Rd. to the HOC project. The proposed project will recondition the current road into an urban highway during the summer of 2014 and 2015.

The 2014 Adopted Capital Improvements Budget included an appropriation of \$75,000 for the design phase and \$887,600 for the construction phase of the project.

The design phase of the project is currently in progress. The MCDOT is working with the City of Franklin to remove the county highway designation for S. 68th St. by annexation under a jurisdictional transfer that was approved by the County Board and Franklin's Council and will be complete once S. 68th Street paving is complete.

This appropriation transfer will temporarily provide \$24,000 of expenditure authority and revenue budget so that design work on the project can continue.

WH02015 S. North Cape Rd. (Hi-View Dr. to W. Forest Home Ave.)

The 2013 Adopted Capital Improvements Budget included an appropriation of \$90,000 for the design phase of the rehabilitation of S. North Cape Rd. (Hi-View Dr. to W. Forest Home Ave.).

The 2014 Adopted Capital Improvements Budget included an appropriation of \$210,000 for the design phase and \$2,537,400 for the construction phase of the project.

The MCDOT is working with the City of Franklin to remove the county highway designation for S. North Cape Rd. by annexation under a jurisdictional transfer that was approved by the County Board and Franklin's Council and will be complete once S. North Cape Road paving is complete.

The design phase of the project is currently in progress. This appropriation transfer will temporarily provide \$50,000 of expenditure authority and revenue budget so that design work on the project can continue.

WH02201 N. 107th St. (Brown Deer Rd. to North County Line Rd.)

In 2009, \$701,000 was budgeted for planning for the North 107th Street roadway from Brown Deer to North County Line Road.

In 2010, the MCDOT indicated that Surface Transportation Program funding was not provided for three Highway capital projects. Therefore, the Department abandoned the projects until additional funding was available. The budgeted general obligations would be reallocated as the match for the North 107th St. project. A 2010 appropriation transfer of \$2,140,700 was approved to establish expenditure authority to

DRAFT

construct the roadway, with \$1,296,700 in reimbursement revenue and \$656,000 in general obligation bonds.

An additional \$2,359,300 was budgeted in 2013, with \$1,914,816 in reimbursement revenue and \$444,484 in general obligation bonds, to complete construction.

In December of 2012, the Department indicated that the reimbursement revenue for the project would be reduced by \$1,100,000. The 2012-2013 Carryover resolution increased general obligation bonding for the project by \$700,000 and reduced expenditure authority for the project by \$400,000 in order to offset the \$1,100,000 of unrealized revenue.

This appropriation transfer will temporarily provide \$50,000 of expenditure authority and revenue budget so that construction work on the project can continue. It is anticipated that construction on the project will be substantially complete in the spring of 2014.

WH03006 Whitnall Park Bridge (#721) over the Root River/WH03013 Whitnall Park Bridge (#713) over the Root River

The 2010 Budget included an appropriation of \$150,000 for design work and \$800,000 for the replacement of Whitnall Park Bridge #721, which is located 0.1 mile south of West College Avenue and extends into the City of Franklin. It is a single-span, concrete flat slab bridge, with stone facade, timber and stone railing that was constructed in 1934. The existing bridge is in very poor condition and has a sufficiency rating of 43.5. The concrete slab is deteriorated, cracked and spalled, however, the bridge abutments are secured. Financing was budgeted 80% in Surface Transportation Program (STP) funds and the 20% local match was provided from Build America Bonds.

A January 2013 appropriation transfer reallocated \$250,000 of expenditure authority from Whitnall Park Bridge #721 to Whitnall Park Bridge #713, which is located 0.1 mile north of W. College Avenue and extends into Hales Corners. Both bridges have bridge sufficiency ratings that are below desirable levels that indicate replacement of these structures is necessary. Since the Whitnall Park Bridge #721 has been delayed and the two bridges are similar in type and located in close physical proximity to each other, it was considered advisable to complete the design and construction for replacement of these structures simultaneously in order to minimize public interruption during the construction period and capture any potential cost savings that may be available. Future budget appropriation requests are anticipated to replace the \$250,000 of construction funds utilized from Whitnall Park Bridge #721 and to fund the construction phase of Whitnall Park Bridge #713. Both projects have been approved by WisDOT for STP funding.

This appropriation transfer will temporarily provide \$25,000 of expenditure authority and revenue budget to each of the bridge projects so that design work on the project can continue. The construction work on the project has been delayed to 2015.

WH08003 Lake Park Bridge over Drainage Ravine

The 2009 Adopted Budget included \$1,000,000 for the construction phase of the rehabilitation of the Lake Park Bridge. The construction bids for the rehabilitation were higher than anticipated due to the complexity of the restoration process and techniques required. A July 2011 appropriation transfer provided \$902,549 of additional expenditure authority. Financing was provided from the reallocation of existing Surface Transportation Program (STP) funding and existing general obligation bonds from Project WH01007 South 13th Street. The project was substantially completed in 2012. This appropriation

DRAFT

transfer will temporarily provide \$5,000 of expenditure authority and revenue budget to pay final expenses on the project.

WH08701 Ryan Road Culvert East of S. 112th St.

The 2013 Adopted Capital Improvements Budget included an appropriation of \$40,000 for the design phase of the culvert replacement. The culvert is severely deteriorated and will be removed and replaced. The 2014 Adopted Capital Improvements Budget included an appropriation of \$298,300, including \$18,300 in net capitalized interest, for the construction phase. It is anticipated that design work on the project will be substantially complete in the spring of 2014.

This appropriation transfer will temporarily provide \$9,800 of expenditure authority and revenue budget so design work on the project can continue.

TRANSFER SIGNED BY THE COUNTY EXECUTIVE JANUARY 10, 2014.

An appropriation transfer of \$44,951,346 is requested by the Director of the Department of Administrative Services to increase expenditure authority and revenue for various capital projects.

Consistent with past practice, this fund transfer will provide capital projects expenditure authority in the first half of the year prior to the approval of the carryovers. This is being done so that work can continue on existing projects without having to wait until the carryover process occurs (which is anticipated to occur in Spring 2014). Subsequent to the final approval of the carryovers, this fund transfer will be reversed through an administrative appropriation transfer.

TRANSFER SIGNED BY THE COUNTY EXECUTIVE JANUARY 10, 2014.

2014 BUDGETED CONTINGENCY APPROPRIATION SUMMARY

2014 Budgeted Contingency Appropriation Budget \$7,658,674

Approved Transfers from Budget through January 20, 2014
