## DESCRIPTION OF FISCAL EFFECT

In the space below, you must provide the following information. Attach additional pages if necessary.

- A. Briefly describe the nature of the action that is being requested or proposed, and the new or changed conditions that would occur if the request or proposal were adopted.
- B. State the direct costs, savings or anticipated revenues associated with the requested or proposed action in the current budget year and how those were calculated.<sup>1</sup> If annualized or subsequent year fiscal impacts are substantially different from current year impacts, then those shall be stated as well. In addition, cite any one-time costs associated with the action, the source of any new or additional revenues (e.g. State, Federal, user fee or private donation), the use of contingent funds, and/or the use of budgeted appropriations due to surpluses or change in purpose required to fund the requested action.
- C. Discuss the budgetary impacts associated with the proposed action in the current year. A statement that sufficient funds are budgeted should be justified with information regarding the amount of budgeted appropriations in the relevant account and whether that amount is sufficient to offset the cost of the requested action. If relevant, discussion of budgetary impacts in subsequent years also shall be discussed. Subsequent year fiscal impacts shall be noted for the entire period in which the requested or proposed action would be implemented when it is reasonable to do so (i.e. a five-year lease agreement shall specify the costs/savings for each of the five years in question). Otherwise, impacts associated with the existing and subsequent budget years should be cited.
- D. Describe any assumptions or interpretations that were utilized to provide the information on this form.

A. Authorization is requested by the Human Resources division to create the positions included in the 2011 Budget. These positions and their associated costs (and offsetting revenues or reductions in expense) were already included in the adopted 2011 Budget.

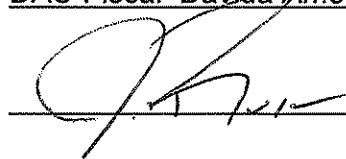

B. The direct costs of the 120 positions (salary and social security costs only) is \$4,128,045 offset by \$275,680 in revenue for a net total of \$3,852,365. It is assumed that all but three of the positions are filled by the beginning of the year. Funding for these positions are included in the 2011 budget so there is no fiscal impact to the budget as adopted. The 2012 net cost is \$4,025,555.

C. While the 2011 budget included 191 new positions, overall full time equivalent positions declined by 120.7. Total salary expenses are reduced by \$8,240,850 from 2010 levels.

D. Costs include salary and social security costs only. Associated fringe costs have not been estimated. The 2012 cost assumes cost of living and step increases.
