Indicate below the dollar change from budget for any submission that is projected to result in increased/decreased expenditures or revenues in the current year.

	Expenditure or Revenue Category	Current Year	Subsequent Year
Operating Budget	Expenditure	0	0
	Revenue	0	0
	Net Cost	0	0
Capital Improvement Budget	Expenditure	0	0
	Revenue	0	0
	Net Cost	0	0

DESCRIPTION OF FISCAL EFFECT

In the space below, you must provide the following information. Attach additional pages if necessary.

- A. Briefly describe the nature of the action that is being requested or proposed, and the new or changed conditions that would occur if the request or proposal were adopted.
- B. State the direct costs, savings or anticipated revenues associated with the requested or proposed action in the current budget year and how those were calculated.¹ If annualized or subsequent year fiscal impacts are substantially different from current year impacts, then those shall be stated as well. In addition, cite any one-time costs associated with the action, the source of any new or additional revenues (e.g. State, Federal, user fee or private donation), the use of contingent funds, and/or the use of budgeted appropriations due to surpluses or change in purpose required to fund the requested action.
- C. Discuss the budgetary impacts associated with the proposed action in the current year. A statement that sufficient funds are budgeted should be justified with information regarding the amount of budgeted appropriations in the relevant account and whether that amount is sufficient to offset the cost of the requested action. If relevant, discussion of budgetary impacts in subsequent years also shall be discussed. Subsequent year fiscal impacts shall be noted for the entire period in which the requested or proposed action would be implemented when it is reasonable to do so (i.e. a five-year lease agreement shall specify the costs/savings for each of the five years in question). Otherwise, impacts associated with the existing and subsequent budget years should be cited.
- D. Describe any assumptions or interpretations that were utilized to provide the information on this form.

A. The Executive Steering Committee for the ERP Project is requesting an amendment with Plante Moran (PM) in order to continue the work effort associated with capital project WO602 – Enterprise Platform Modernization. PM will provide on-site project management and be accountable for deliverables during the implementation process including tracking and confirming action items are completed on time, reviewing all invoices and tracking project budget while ensuring the project adheres to timeline and avoids scope creep.

B. The total cost associated with this amendment is \$752,000. This would increase the current contract of \$495,740 with Plante Moran to \$1,247,740.

C. There is no tax levy impact associated with approval of this request. The project budgeted \$8,034,125 in the 2017 Capital Improvements Budget and includes an additional \$16,392,375 in the five year plan to complete implementation. The requested funds for the contract amendment are included in Capital project WO602 - Enterprise Platform Modernization.

D. No assumptions have been made.

¹ If it is assumed that there is no fiscal impact associated with the requested action, then an explanatory statement that justifies that conclusion shall be provided. If precise impacts cannot be calculated, then an estimate or range should be provided.
