DESCRIPTION OF FISCAL EFFECT

In the space below, you must provide the following information. Attach additional pages if necessary.

- A. Briefly describe the nature of the action that is being requested or proposed, and the new or changed conditions that would occur if the request or proposal were adopted.

Please see associated report.

- B. State the direct costs, savings or anticipated revenues associated with the requested or proposed action in the current budget year and how those were calculated.¹ If annualized or subsequent year fiscal impacts are substantially different from current year impacts, then those shall be stated as well. In addition, cite any one-time costs associated with the action, the source of any new or additional revenues (e.g. State, Federal, user fee or private donation), the use of contingent funds, and/or the use of budgeted appropriations due to surpluses or change in purpose required to fund the requested action.

No impact to current budget year.

- C. Discuss the budgetary impacts associated with the proposed action in the current year. A statement that sufficient funds are budgeted should be justified with information regarding the amount of budgeted appropriations in the relevant account and whether that amount is sufficient to offset the cost of the requested action. If relevant, discussion of budgetary impacts in subsequent years also shall be discussed. Subsequent year fiscal impacts shall be noted for the entire period in which the requested or proposed action would be implemented when it is reasonable to do so (i.e. a five-year lease agreement shall specify the costs/savings for each of the five years in question). Otherwise, impacts associated with the existing and subsequent budget years should be cited.

There is no tax levy impact associated with the approval of this request. The premiums of \$2,716,269 will be charged to Agency 117 in the Object Lines 8046-8079 budgeted for the property and casualty program. The total budget amount of Objects 8046-8079 is \$4,373,941, leaving a balance of \$1,657,672 to fund the self-insured retentions and deductibles associated with these lines of coverage. The Fiduciary premiums in the amount of \$246,243 are sufficiently budgeted in the Employee Retirement Services Division of the Department of Human Resources.

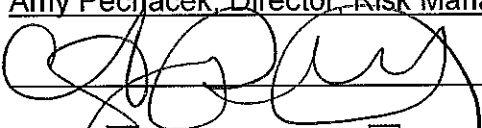

- D. Describe any assumptions or interpretations that were utilized to provide the information on this form.

Adoption of this resolution will not require an expenditure of funds as they are appropriated in the 2018 Budget for Risk Management and the ERS budget in the Department of Human Resources.

The total cost of the renewal will be \$2,962,512 for the property and casualty insurance program covering January 1, 2018 through December 31, 2018.

¹If it is assumed that there is no fiscal impact associated with the requested action, then an explanatory statement that justifies that conclusion shall be provided. If precise impacts cannot be calculated, then an estimate or range should be provided.
