Please read into record:

I fully support these funds be used to finance the Comprehensive Sound Study for the ROC/BPC development. Under the extension of uses for this funding, this study is a valid and very needed use. As this development has had noise complaints from numerous areas and neighborhoods over the past 10 years, it is time the County correct it's own wrong doing with addendum C which "approved" 79 decibels as acceptable for our homes until 12:00 midnight and beyond 7 days a week for over 180 days per year. THIS IS UNACCEPTABLE and must be corrected through a 3rd party STUDY!

Seeing as there was never a RFP for this development I do not believe the proper Due Diligence was done by the

County from the beginning and has continued to get worse. Please correct what we now know is a nuisance for our communities and homes due to what I believe was miss information and a bait and switch type of situation.
Thank you, Joy Draginis-Zingales
