DESCRIPTION OF FISCAL EFFECT

In the space below, you must provide the following information. Attach additional pages if necessary.

- A. Briefly describe the nature of the action that is being requested or proposed, and the new or changed conditions that would occur if the request or proposal were adopted.
- B. State the direct costs, savings or anticipated revenues associated with the requested or proposed action in the current budget year and how those were calculated.¹ If annualized or subsequent year fiscal impacts are substantially different from current year impacts, then those shall be stated as well. In addition, cite any one-time costs associated with the action, the source of any new or additional revenues (e.g. State, Federal, user fee or private donation), the use of contingent funds, and/or the use of budgeted appropriations due to surpluses or change in purpose required to fund the requested action.
- C. Discuss the budgetary impacts associated with the proposed action in the current year. A statement that sufficient funds are budgeted should be justified with information regarding the amount of budgeted appropriations in the relevant account and whether that amount is sufficient to offset the cost of the requested action. If relevant, discussion of budgetary impacts in subsequent years also shall be discussed. Subsequent year fiscal impacts shall be noted for the entire period in which the requested or proposed action would be implemented when it is reasonable to do so (i.e. a five-year lease agreement shall specify the costs/savings for each of the five years in question). Otherwise, impacts associated with the existing and subsequent budget years should be cited.
- D. Describe any assumptions or interpretations that were utilized to provide the information on this form.

A. The Department of Administrative Services requests to carryover \$2,675,000 of 2013 expenditure authority in Project WO150 Courthouse Fire to 2014.

B. Carrying over \$2,675,000 of expenditure authority from 2013 to 2014 will result in a net cost of \$2,675,000 for 2013 and net savings of \$2,675,000 in 2014 once insurance proceeds have been received and deposited into the 2014 Appropriation for Contingencies account.

C. See B.

D. It is assumed that insurance proceeds will cover the estimated \$2,675,000 of 1st quarter 2014 project related expenses. It is also assumed that the receipt of these insurance proceeds will be returned to the 2014 Appropriation for Contingencies account upon receipt.
