Audit Services Division

Milwaukee County

Jennifer L. Folliard, Director of Audits
Molly Pahl, Deputy Director of Audits

March 21, 2025

To the Honorable Chairwoman
of the Board of Supervisors
of the County of Milwaukee

We have completed an annual report concerning operation of the Audit Fraud Hotline and other related investigation activities undertaken by the Office of the Comptroller's Audit Services Division during 2024. Per Milwaukee County General Ordinance 34.095(h), the Audit Services Division is required to report annually to the County Executive and the County Board of Supervisors on the preceding year's activities related to fraud, waste and abuse.

The attached report includes a statistical summary of these activities, updates on prior investigations and brief descriptions of other fraud-related activities undertaken this year.

The nature of alleged improprieties presented to the Audit Services Division for investigation is often complex and continues to involve inter-agency cooperation with numerous governmental entities. As the Audit Services Division begins its 32nd year of operating the Hotline, the experience gained from working cooperatively with County departments and offices, the District Attorney's Office, the Office of the Sheriff, and other law enforcement agencies has improved the effectiveness of our efforts to combat waste, fraud and abuse in Milwaukee County government. We believe the attached report demonstrates the value of those efforts.

Please refer this report to the Committee on Audit.

Jennifer L. Folliard
Director of Audits

Background

The Milwaukee County Board of Supervisors approved the establishment of a hotline within the Audit department on September 23, 1993. The hotline was created for concerned citizens and other interested individuals to report allegations of fraud, waste or abuse in County government. Callers are not required to identify themselves and may remain anonymous.

According to the Association of Certified Fraud Examiners,¹ tips are the most common fraud detection method. Tips account for 43% of initial fraud detection, which is nearly three times greater than the next detection method (internal audit; 14%). Tips from employees account for 52% of reported fraud. Organizations, like Milwaukee County, that operate hotlines are more likely to catch fraud by a tip, detect frauds quicker and experience smaller fraud than an organization without a hotline. In addition to the telephone hotline, fraud complaints can be made using a dedicated email address and a website-based online reporting form². Industry trends show that telephone-based tips have declined and the use of email or an online form to make a report have increased.

The Audit Services Division (ASD) is authorized by Wisconsin state statute § 59.225(j)³ and Milwaukee County ordinance § 34.095 to investigate allegations of fraud, waste and abuse.

In April 2015, following the approval of both the County Executive and the County Board of Supervisors, ordinance § 34.095 took effect. Under the ordinance, county employees, officials, contractors, vendors, and program clients are required to cooperate in an investigation, ASD has increased access to records and premises, retaliation against people who cooperate with an investigation is prohibited and allegations or known instances of fraud, waste, and abuse are to be reported to ASD.

Tips and tip information are assigned general internal codes for data tracking purposes and to help create scope as to the frequency and predominate types of alleged fraud occurring in Milwaukee County. For example, a report that employee #1 allegedly stole County property and employee #2 falsified his time would both be coded as "Employee Misconduct." In 2022, ASD reviewed and revised the codes to better define the scope and behaviors subject to each code.

In 2022, ASD created the action code "Resolved" which is defined as "the received complaint required some investigative activity which did not warrant opening a case and no further action was needed or required." In prior years, many of these types of complaints were ultimately coded as "Decline." Using the "Decline" code in those situations artificially inflated the number of complaints which were declined as well as undercut the investigative activity performed by ASD personnel in response to the provided information.

² <https://county.milwaukee.gov/EN/Comptroller/Fraud-Waste-Abuse>

³ The comptroller shall perform all audit functions related to county government. The comptroller shall also have the duties and all the powers and responsibilities conferred upon the clerk as auditor under s. [59.47 \(1\)](#), and shall perform any additional duties and shall have any additional powers as are imposed and conferred upon him or her from time to time by resolution adopted by the board. Audit functions under this paragraph shall be performed in accordance with governmental auditing standards issued by the comptroller general of the United States and generally accepted auditing standards.

Summary of 2024 Investigative Activity

Complaints

ASD received 114 complaints (tips) in 2024. For comparison, in 2023, ASD received 97 tips and 127 tips in 2022. In 2021, ASD received 283 tips; most of those tips (165) were related to counterfeit checks; complaints for other matters totaled 118. In 2020, ASD received 113 complaints.

Figure 1 displays the number of complaints received annually from 2020 to 2024.

Figure 1

The 2024 figure, as well as prior years' figures, do not include contacts with ASD where personnel directed the complainant to a more appropriate agency before a complaint record was created. For example, when a person calls and speaks to ASD personnel about an alleged fraud involving a State Department of Health Services (DHS) program, ASD personnel will provide the person with the telephone number for the DHS Office of Inspector General (OIG) and not make a record of the contact.⁴

The 2024 complaints are categorized by source in **Table 1** and presented graphically in **Figure 2**. Complaints considered made by employees or officials in the course of their normal duties are coded "County Department." "Other" includes complaints made by mailed letter, contacts with individuals that do not fit other categories and ASD initiated. Complaints made using the dedicated fraud reporting email address and the online reporting form collectively surpassed the number of complaints by telephone in 2024.

⁴ ASD personnel will record allegations when the County is involved in the administration of a state program or serves as a pass-through agency for state funding.

Table 1
Allegations of Fraud, Waste or Abuse Contact Origin

Website	41
Fraud Hotline	36
County Department	19
Fraud Hotline Email	14
Other	4
Total	114

Figure 2

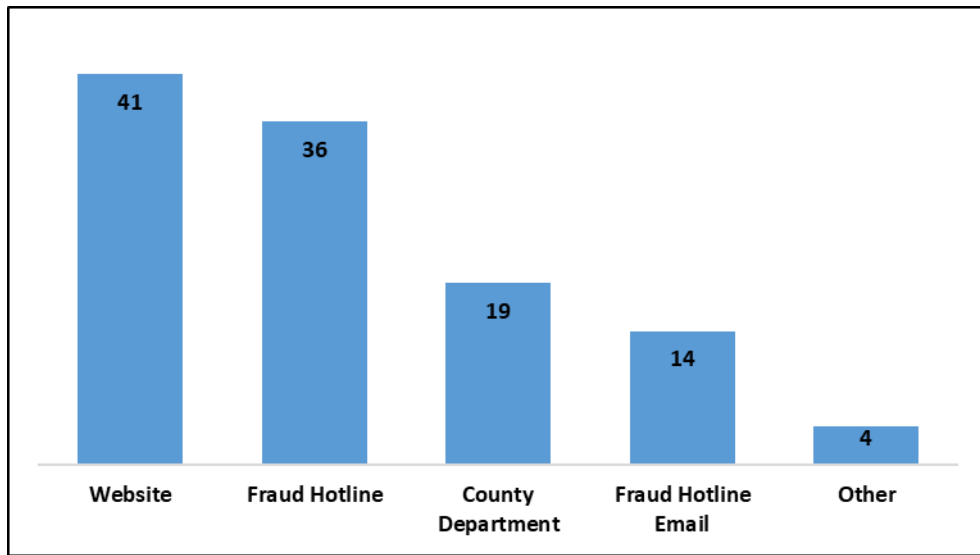

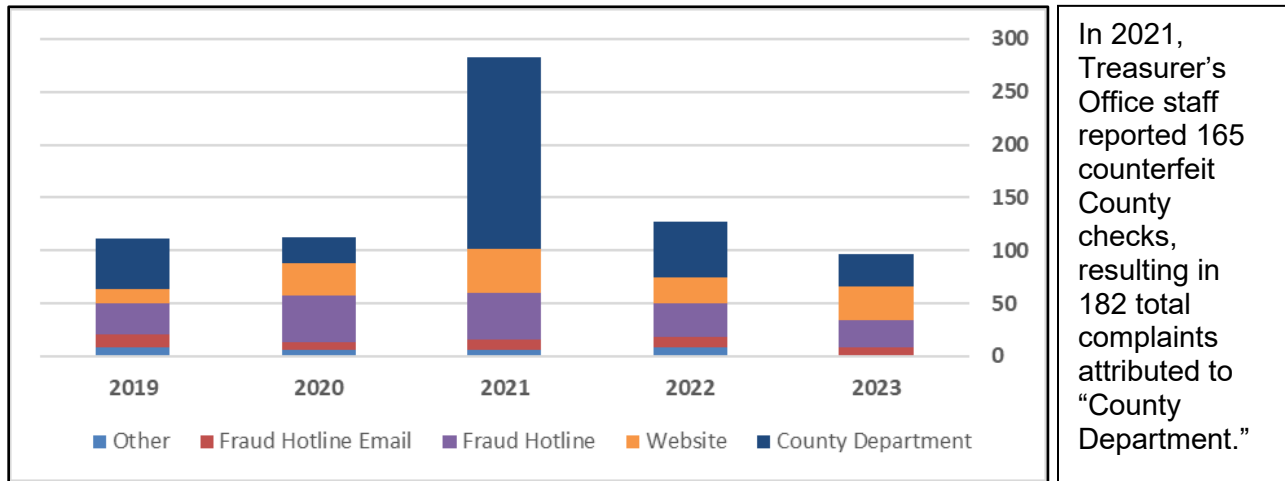

Figure 3 presents a comparison of complaint sources from 2020 through 2024. For year 2021, ASD received 182 complaints attributed to “County Department” because Treasurer’s Office staff reported 165 counterfeit County checks.

Reports from a County employee are consistently one of the more common ways ASD receives complaints. Per ASD’s operating ordinance, County employees are required to report to ASD all known or alleged instances of fraud, waste or abuse. In line with industry findings, complaints made using electronic media exceeded complaints made using the fraud hotline telephone number in recent years.

Figure 3

The received complaints were assigned a category code based upon the nature of the alleged misconduct. **Table 2** shows the complaints received in 2024 by category. For this report's purpose, "Personnel Misconduct" refers to allegations related to County employees and officials.

**Table 2
Allegation Categories**

Non-County	51
Personnel Misconduct	20
Other Fraud	13
Public Assistance Fraud	11
Counterfeit/Unauthorized Transaction	8
Vendor/Provider Fraud	7
Requests for Information	4
Total	114

Complaint Dispositions

ASD opened five cases in 2024. For the remaining 2024 complaints, ASD either 1) referred the information to a more appropriate agency or department for action, 2) performed investigative activity which brought the complaint resolution, 3) determined that no action was required or 4) other appropriate action as dictated by the received information.

Table 3 breaks down the year-end disposition of all recorded complaints in 2024 as whole numbers and a percentage⁵.

⁵ Due to rounding the percentages to whole values, the total percentage does not equal 100.

**Table 3
Disposition**

Referred	51	45%
Declined	24	21%
Resolved	23	20%
Pending	6	5%
Case Opened/Related to a Case	5	4%
Other/Provided Information	5	4%
Total	114	100%

A complaint may be declined because the matter does not involve County government, there is insufficient information to begin an investigation, investigating the matter would be a duplication of efforts, or ASD does not have the resources available to sufficiently address the allegation.

Table 4 identifies only the cases opened in 2024 by complaint category.

**Table 4
Cases Opened**

Personnel Misconduct	5
Total	5

Cases Closed

As of year-end 2024, two cases remained active investigations. These cases remain open due to complexity, need to work with other agencies or overall demand of resources.

Case Highlights

These cases are an example of the kinds of allegations which are reported to ASD. These cases also represent the value the County receives from devoting resources to combating fraud, waste and abuse.

Unless referenced by name, investigation subjects will be referred to by masculine pronouns.

Update to Case # 22006

In August 2022, ASD received a complaint of alleged emergency rent assistance fraud. In summary, an emergency rent assistance applicant allegedly submitted false information as part of an application for many months' back rent. The landlord also allegedly provided false information as part of the application. Based upon the received application, the County vendor approved and issued a payment to the landlord. The reported loss due to the alleged fraud was \$13,000.

In December 2022, the District Attorney's Office filed Milwaukee County case number 22CF4945 against the landlord, Michelle Edwards, and case number 22CF4946 against the

applicant, Cory Rogers. Both Edwards and Rogers' charges include felony theft by false representation. In June 2023, Edwards and Rogers entered into deferred prosecution agreements which included a guilty plea. In September and December 2023, the parties paid \$5,000 and \$4,000 in restitution.

In September 2024, the court determined that Edwards and Rogers had satisfied all conditions of the deferred prosecution agreement, including paying the full restitution of \$13,000 to Community Advocates⁶. The court vacated the parties' guilty pleas and the charges were dismissed with prejudice.

Complaint # 23068

In July 2023, ASD received an anonymous complaint which alleged inappropriate purchases with County funds by an elected County official. After reviewing the applicable and appropriate standards, ASD determined that a violation of the Milwaukee County Code of Ethics was possible. Knowing that the Milwaukee County Ethics Board does not act on anonymous complaints or investigation requests, ASD investigated the matter to act as the complainant, if needed. Following an investigation, ASD determined that the Milwaukee County Ethics Board was the appropriate authority for determining any violation of the Ethics Code and referred the matter.

Case # 24004

In August 2024, ASD opened an investigation predicated on an allegation that an elected County official misused his public position for an unlawful benefit. Following an investigation, ASD referred the matter to the Milwaukee County District Attorney's Office. The matter remains pending. All parties are presumed innocent until found guilty in a court of law.

Counterfeit/Unauthorized Transactions

In 2024, ASD recorded eight complaints related to fake County checks, genuine checks which were intercepted and deposited by unauthorized individuals or fraudulent electronic fund transfers; in 2023, ASD recorded 26 complaints.

Fraud Risk Assessment

In 2023, ASD piloted a fraud risk assessment in specific divisions within the Comptroller's Office. In 2024, ASD approached the Department of Administrative Services – Information Management Services Division (IMSD) about conducting a fraud risk assessment within the division. ASD did not think that IMSD was more prone to fraud or that fraud had occurred; IMSD, due to its operations and mission, presented an opportunity to expand the fraud risk assessment into a different business environment than the Comptroller's Office. ASD presented the concept to the IMSD management team in December 2024; sessions were planned to begin in early 2025.

⁶ The available court records only show evidence of the payments totaling \$9,000. ASD has no reason to doubt the court's determination.

Outreach

An informational paragraph about the fraud hotline titled “The Fraud Hotline is Always Open” appeared in the What’s Up in Milwaukee County November 18 email. The fraud hotline telephone number is included on the payroll calendars which are annually printed by the Community Reintegration Center and distributed countywide to employees. Magnets with the fraud hotline telephone number and a QR code link to the ASD website are available.

Other Activity

In addition to receiving and investigating allegations of fraud, waste and abuse, ASD personnel:

- Consult on performance audit fraud risk assessments in accordance with Generally Accepted Government Auditing Standards.
- Assist other local, state and federal agencies in performing their duties related to investigating fraud, waste and abuse.
- By request, provide information for use by County departments and leadership to make better informed responses to issues of real or perceived instances of fraud, waste and abuse.

Milwaukee County Hotline Savings/Recovery (1994—2024)

These are the accumulated savings and recoveries for the program since 1994. Industry standards recognize \$1 of indirect savings for every \$1 of direct savings.

- Total Direct = \$5,530,833
- Total Indirect = \$11,061,666

Audit Services Division Mission Statement

Through independent, objective and timely analysis of information, the Milwaukee County Audit Services Division assists both policy makers and program managers in providing high-quality services in a manner that is honest, efficient, effective and accountable to the citizens of Milwaukee County.
