As a Milwaukee restaurant owner, I support amending this to fund to include the creation of a kitchen at the Vel

Phillips youth justice facility to help train youth on food prep. The Milwaukee dining scene is desperate for skilled, trained cooks and chefs and this program would go along way to helping us as well as providing a path to a secure future for at risk youth. Thank you.

Please support an amendment to designate funding for a kitchen for the Vel Phillips center. Rehabilitation of the youth in our care requires us to provide them with strong skills that will give them opportunities in the community. The hospitality industry is well known for giving people a chance to reinvent themselves, often through nontraditional routes. The willingness of community chefs to donate their time and expertise to mentor the young people housed at Vel Phillips could be life-changing for many of them and they simply need adequate facilities to undertake that project. This would be an investment into changing those lives.

Amendment 1 - Has consideration of the youth length of stay (48hours-2 months) in the Vel Phillips Center been taken into consideration in this proposal? What is the intended outcome/goal of the establishment of the culinary program given the average length of stay of the youth at Vel Phillips? Perhaps this is not an important metric to take into consideration - if the intent is only to expose the youth to culinary preparation of nutritional value of food. The culinary program is a worthwhile program, in particular when the youth are in our care for a significant amount of time. Are we targeting the youth in the MCAP program or any youth in our care? We want maximum impact and value for our investment. Thank you for your consideration of my questions.
