I support this resolution, as Milwaukee residents should be protected by the tenants of interstate travel and their own personal freedom of privacy for medical services.

I'm in support of this resolution to reimburse county employees when traveling out of state for medical services they'd be unable to receive in Wisconsin. I'm a current resident of Milwaukee County, and not an employee of the county. Regardless, I believe all employers should provide their employees with proper health options. As certain medical procedures are unavailable in Wisconsin, it's only right for employers to have options available to those needing to travel. There are non-county employers offering similar reimbursement services currently, so this resolution is not out of line. Do the right thing and vote in favor of this resolution.

My name is Carly Klein. I am the outreach chair of Reproductive Justice Action-Milwaukee, a Milwaukee County Resident and a LCSW serving Milwaukee county residents. I am in support of resolution 23-843. Milwaukee County employees deserve to have access to life-saving procedures only accessible out of state. The workers of our country need safe and sustainable healthcare and this resolution is the first step in filling gaps within the healthcare systems due to the abortion ban. Please vote to support Resolution 23-843 and vote to support the employees of the county you are serving- Carly Klein, 53211

Dear Supervisors,

I am urging you to pass Resolution # 23-843, allowing county employees to travel out of state to receive healthcare which may not be provided here! Our healthcare system makes it extremely difficult to access lifesaving procedures; whether it be inaccessibility due to finances, insurance, long waiting periods, or the needed procedure not being available in our state. Passing this resolution is a very simple act of showing that you care about the employees that help make our county function. You literally have the power to save a life right now, I urge you to do the right thing and vote yes on this resolution.

Lauren Forbush
