County Ordinance No. 20-4
File No. 20-174
AN ORDINANCE

The County Board of Supervisors of the County of Milwaukee does ordain as follows:

SECTION 1. Chapter 108 "Achieving Racial Equity and Health" of the Milwaukee County Code of General Ordinances is hereby created as follows:

108.01 - Achieving Racial Equity and Health.

Racism has been and is a public health crisis in Milwaukee County. According to the County Health Rankings, Milwaukee County is, and has consistently been, one of the lowest-ranked counties for health in Wisconsin and, according to Federal Reserve Economic Data, Milwaukee County is one of our nation's most racially segregated areas. According to 2019 statistics, a white person lives, on average, nearly 14 years longer than a black person and the infant mortality rate is nearly three (3) times higher for black infants compared to white infants. Race is a social construction with no biologic basis, yet racism may produce an assigned societal value based on the way a person looks that has resulted in race being a consistent predictor of a person's quality and length of life. With this ordinance, Milwaukee County government declares its commitment to achieving racial equity by identifying and eliminating any racism in its institutional policies, procedures, practices, and power structures for black and brown individuals and communities so everyone in Milwaukee County can thrive.

108.02 - County Strategic Priority, Mission, Vision, and Values.

1. The institutionalization of racial equity in the County's mission, vision, values, and services are of the utmost priority. Milwaukee County government declares that:

a. Racism has been, is, and will continue to be, a public health crisis until race is no longer a predictor of quality or length of life in Milwaukee County.

b. The vision of the County be: "By achieving racial equity, Milwaukee is the healthiest county in

Wisconsin."

c. The mission of the County be: "We enhance the quality of life in Milwaukee County through great public service."

d. The values guiding the culture of the County workforce be:

i. Respect: We work with and for others.

ii. Integrity: We do the right thing.

iii. Excellence: We never stop improving.

108.03 - Guiding Framework and Strategic Objectives to Achieve the County's Vision.

1. Milwaukee County adopts the "Health and Equity Framework," adapted from the Wisconsin Population Health Institute's model, as its guiding framework for addressing the root causes of institutional and systemic racism. The framework first directs that influencing the "Power to Make Change" is the most sustainable and transformational way to affect racial equity and health in the County population. The second key area that the framework directs focus to is "Institutional Practices," which entails identifying and eliminating any racial biases in governmental practices. By addressing these two causal areas of racial and health inequities, Milwaukee County will make huge strides in advancing its vision of achieving racial equity and being the healthiest county in Wisconsin.

2. To this end, Milwaukee County government declares that it will achieve the following objectives, which directly affect "Power to Make Change" and "Institutional Practices":

a. Diverse and Inclusive Workforce:

1. Milwaukee County leadership, management, and staff will reflect the demographics (including, but not exclusively racial) of Milwaukee County.

2. Milwaukee County will have an
