2021 RECOMMENDED CAPITAL BUDGET

Section 2 – Capital Project Narratives

2021 Capital Improvements Budget Summary -----	1-2
Introduction -----	3-11
Annual Capital Budget Process-----	3
Project Selection-----	4-5
Financing Overview-----	6-11
Debt Affordability Indicators -----	13-18
User Guide - Capital Project Narratives -----	19
Section 1 Highways (WH) -----	21
WH01006-Reconstruct CTH "Y" Layton Avenue 27th to 43rd-----	23
WH09501-W Rawson Ave- S. 27th St to S. 20th St.-----	24
WH09701-E. North Ave Bridge over Oak Leaf Bike Trail-----	25
WH11001-W Beloit Rd (CTH T)-S 124th St to S Wollmer Rd-----	26
WH11101-W Forest Home Ave (CTHOO)-Hi-View Dr to S N Cape-----	27
WH11401-Mill Rd Bridge B-40-0936 Rehabilitation-----	28
WH11701-Signals CTH PP (Good Hope Rd)-99th St & 60th St-----	29
WH11801-Signals CTH PP (Good Hope Rd)-CTH W (Prt Wsh Rd)-----	30
WH24701-Reconstruct CTH BB - S. 13th St to S Howell Ave-----	31
Section 2 Mass Transit (WT) -----	33
WT10601-Bus Lift Replacement (2) (KK Garage)-----	35
WT10901-Bus Lift Replacement (7) (Maint Facility)-----	36
WT12501-Bus Replacement Program-2021-----	37
WT12801-KK Garage Employee Parking Lot-----	38
WT14801-FDL Garage Fire Alarm and Sprinkler System Repl-----	39
WT14901-FDL Garage Trnspt Bldg Roof Rplcmnt-----	40
WT15001-FDL Garage Transportation Bldg-HVAC Rplcmnt-----	41
Section 3 Airport (WA) -----	43
WA28001-GMIA Parking Strc Replace Decorative Metal Panel-----	45
WA29901-GMIA Taxiway A Extension-----	46
WA37701-GMIA South Maintenance Air Handling Unit-----	47
WA39401-Parking Structure Repair & Major Mntnce-2021-----	48
Section 4 Environmental (WV) -----	49
WV04101-Oak Creek Skate Liftstation-----	51
WV04301-Oakwood Lift Station Upgrade-----	52
WV05401-County-wide Sanitary Sewers Repairs-2021-----	53

Section 2 – Capital Project Narratives (cont.)

Section 5 Parks (WP)	55
WP05046-Lincoln Park Baseball Lighting	57
WP42501-Playground Resurfacing – Phase 1	58
WP49801-Underwood Creek Parkway Replacement	59
WP53401-Rainbow Park Playground Replacement	60
WP53501-Pulaski-Cudahy Park Playground Replacement	61
WP65801-Currie Park-Replace Parking Lot & Cart Path Impr	62
WP68201-Whitnall Clubhouse HVAC Rplcmnt-Kitchen Remodel	63
WP69501-Washington Park Bridge Replacements	64
WP70101-Grant Park North Access Roads-Parking Lots	65
WP70601-South Shore Breakwater	66
WP70701-Old Loomis Road Reconstruction	67
WP71801-Mitchell Domes Mesh/Structure Inspection & Rprs	68
WP72501-Vogel Playground Replacement	69
WP72601-Lindsay Playground Replacement	70
WP72701-Oak Leaf Trail – Zip Line Sinkhole	71
WP72801-Highland Park Playground-Removal/Restoration	72
WP72901-Boerner Garden House Boiler Replacement	73
 Section 6 Milwaukee Public Museum (WM)	 75
WM05101-MPM-North Stairwell Structural Wall Repair	77
 Section 7 Zoo (WZ)	 79
WZ11901-Zoo Adventure Africa-Elephants Exhibit	81
 Section 8 Health and Human Services (WS)	 83
WS10201-Control Center Panel Replacement	85
WS12601-Youth Services Admin Relocation and Tenant Imprv	86
 Section 9 Courthouse Complex/Grounds (WC/WG)	 87
WC20901-Forensic Science Center-Phase 2	89
WC21601-CH Complex Improvements-CJF Caulking Phase 2	90
WC21701-CH Complex Facade Inspect & Repair-Phase 3	91
WC21901-CH Complex Fire Alarm Replacement	92
WG03501-Vel Phillips Roof Replacement	93
 Section 10 House of Correction (WJ)	 95
WJ11201-HOC Admin Building Roof Replacement	97
 Section 11 Other Agencies (WO)	 99
<i>Department of Administrative Service - Information Management Service Division</i>	
WO21701-Phone and Voicemail Replacement	101
WO55101-CJIS Remediation	102
WO64701-Enterprise Platform Modernization-Phase 3	103

Section 2 – Capital Project Narratives (cont.)

(Cont.) Section 11 Other Agencies (WO)

<i>Department of Transportation - Fleet Management</i>

- Project Category**
- C = Contractually Obligated. Projects by which the County has been contractually obligated (via legal instrument(s)) to provide.
M = Mandated. Projects that help the County meet State, Federal, Local, and/or Court-Ordered requirement or mandates.
O = Ongoing/Continuing. Projects wherein previous appropriations have been approved for design (or phased construction/implementation). For example, Project X has an appropriation for design that was approved by the County Board in 2018. The design was completed in March of 2020. The 2021 Capital Improvements Budget includes an appropriation for the construction phase of Project X.
P = Programmatic. Projects that typically represent those with established replacement schedules, used to avoid extending assets beyond their useful life which leads to higher maintenance costs.
O, C = Projects that include both Ongoing/Continuing and Contractually Obligated elements.
Z = All other non-categorized projects.

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

INTRODUCTION

Annual Capital Budget Process:

General Capital Improvement Plan Overview

The County utilizes a 5-Year Capital Improvement Plan (CIP) to help plan and estimate future capital project needs. The first year of the CIP (which for this year's budget development process is 2021) is the year in which capital projects scheduled in that particular year receive funding. Years two through five (2022 – 2025) are planning years for future projects and/or continuing phases of existing projects.

Departmental Request Phase

As part of the annual County budget development process, each department is responsible for updating its 5-Year CIP. This process typically begins in late winter/early spring as departments develop/update cost estimates for each capital project. Departments submit their requested CIPs to the Department of Administrative Services (DAS) towards the end of June/early July.¹ Departmental requested budgets (Capital and Operating) are posted by the DAS on the County's website no later than August 15th of each year.²

Capital Improvement Committee (CIC)

The CIC is an advisory committee that reviews and scores the requested departmental capital requests and provides an annual (non-binding) recommended 5-Year CIP to the County Executive and County Board typically in late August/early September.

The CIC is included in the Milwaukee County ordinances under chapter 36. Committee members include the following:

- (a) Director of the Department of Transportation or alternate;
- (b) Fiscal & Budget Administrator (DAS) or alternate;
- (c) Comptroller (committee chair as appointed by the Chair of the County Board), or alternate;
- (d) Chair of the Committee on Transportation, Public Works, and Transit, or alternate;
- (e) Co-Chair of the committee on finance, personnel and audit, or alternates;
- (f) Two (2) appointments of the County Executive who shall be mayors or village board presidents of municipalities located in Milwaukee County, or alternate

County Executive Recommended Phase

Upon receipt of the departmental CIP requests, the DAS staff reviews the requested capital projects and assists the County Executive with the formulation of the Recommended Capital Improvement Budget. Requesting departments are consulted and site visits are performed relative to the departments' capital requests. This budget development phase usually extends from July through September. The Recommended Budget is submitted to the County Board no later than October 1st of each year.³

County Board Phase

Finance Committee

After the County Executive submits the Recommended Budget, the Finance Committee (FC) holds budget hearings. The review typically lasts through the month of October.⁴ Departmental staff is present at the FC hearings to answer questions related to their capital project requests.

During this phase, members of the FC may introduce amendments to the Recommended Budget.

Upon close of the budget hearings, the FC submits the Recommended Budget (and FC amends) to the County Board for review/adoption.

Full County Board Meeting / County Executive Veto

No later than the first Monday of November, the County Board holds a public hearing on the amended capital budget submitted by the FC. The County Board then meets to act on the amendments and recommendations submitted by the FC as well as amendments submitted by individual County Board members.

The County Executive may then provide vetoes of the Adopted County Board Budget resolution to the County Board. The County Board then meets a final time (for the budget adoption process) to consider any possible vetoes by the County Executive and whether to sustain or override each veto.

¹ Per Wisconsin State Statute 59.60(2) (b), the Requested Budget Deadline is set annually by DAS Director (deadline can be no later than July 15).

² Per Wisconsin State Statute 59.60(5), DAS Director submits a summary of the budget requests to the County Executive and County Board no later than August 15th.

³ Per Wisconsin State Statute 59.60(6) (b) & 59.17(6), County Executive submits recommended budget to the Board no later than October 1st.

⁴ The County Board establishes the budget hearing calendar for this committee annually.

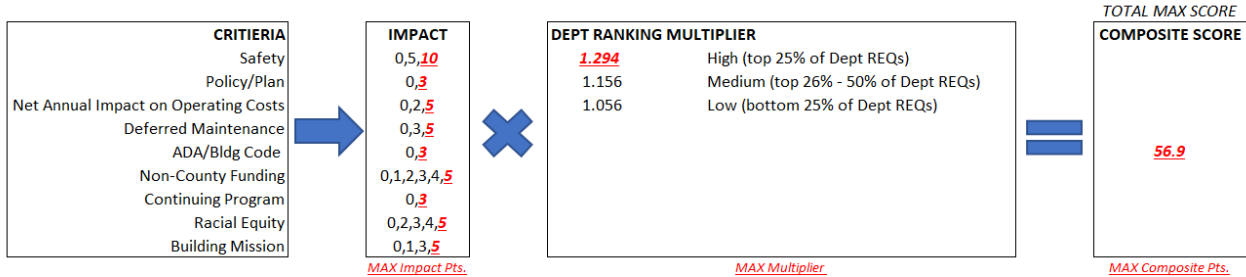

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

Capital Project Evaluation:

Quantitative and Qualitative Project Evaluation

A quantitative review of requested capital projects is provided by the CIC sub-committee. The sub-committee consists of staff from the Office of the Comptroller and the Department of Administrative Services-Office of Performance, Strategy, & Budget. This quantitative review is based upon a design first approach (discussed in the next section) and a scoring criteria matrix consisting of shared County priorities (see attachment #1 for criteria and impact details):

Capital Project Scoring Detail

The sub-committee provides the annual (quantitative) scoring of requested projects to the CIC for review, discussion, and consideration. It's important to note that the scoring matrix provides a measurable, general guidance based upon shared County priorities.

Qualitative factors also play a role as part of the project review. Qualitative information is provided mainly by departmental testimony and follow-up information that departments supply during CIC meetings (August) and during the County Board's review of the County Executive's Recommended Budget (October). The scoring and department testimony allow CIC members, the County Executive, and the County Board to consider each component when evaluating requested projects. ***As a result, the final adopted budget may include projects that (quantitatively) score low, but include qualitative characteristics that elected officials deem important and worthy of inclusion.***

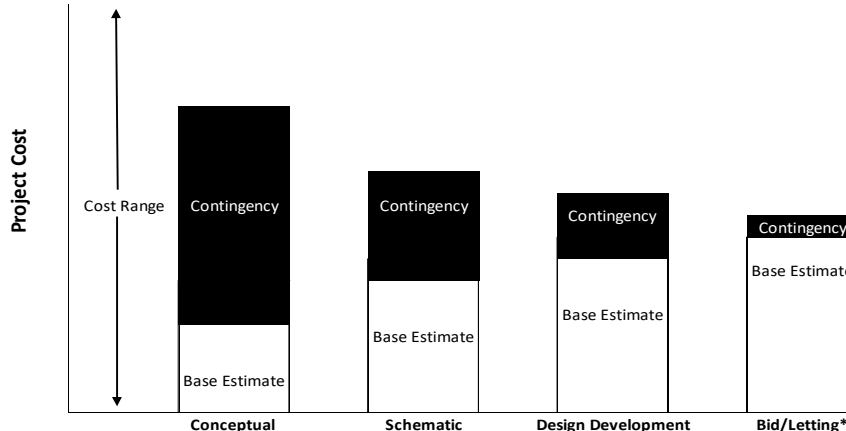

See attachment #2 for the 2021 CIC Advisory Report section related to the 2021 scored projects.

Design First Approach

The design first approach means, that for most projects, design appropriations will be made in one year with construction appropriations in a subsequent year (based on a completed design). Less complex projects (with minimal design effort and client input) that have a demonstrated history of staying within the original budget may still have design and construction in the same appropriation. An example of this is playground equipment replacements that generally have low risks due to the simplicity of the projects.

The majority of County capital projects are managed by the Department of Administrative Services (DAS)-Architecture & Engineering. As a result, the focus is on AE managed projects at this time. In the future, this approach will be explored with DAS-Information Management Services Division managed technology projects. Department of Transportation-Transportation Services projects may also be included, but a large number of their managed roadway and bridge projects implement a design first approach currently.

Typically, many cost estimates produced during the annual budget development cycle are conceptual in nature, meaning they have higher risks due to limited project scope, little to no design, and/or assume unforeseen conditions. This risk is often times reflected in higher project contingency costs, especially for cost estimates that include design and construction in the same year. These risks can be mitigated by completing design before making a budget appropriation for the construction phase. Generally, the project contingencies are significantly reduced when you have a completed design. So cumulatively, this has a large impact on project funding by moving from higher to lower contingencies based on completed design.

* Based upon completed final design and construction documents (CDs).

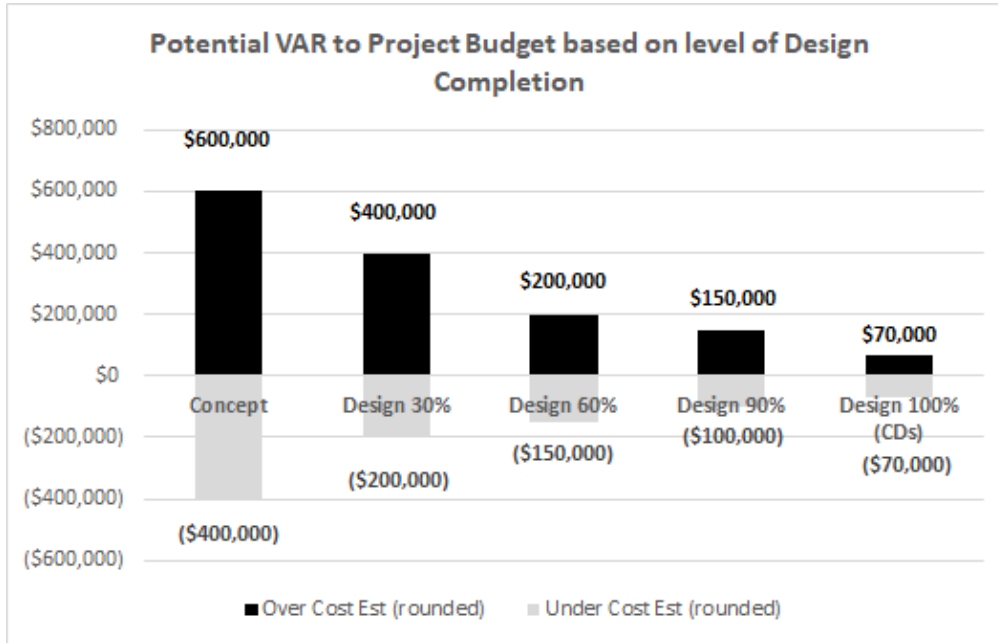

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

Capital Project Evaluation:

Design First Approach (cont.)

The high level nature of conceptual estimates may also lead to under budgeting projects and require additional County funding that may or may not be available and cause possible project delays as a result of funding shortfalls. Additionally, if a project has surplus funding, those are dollars that could have been used to fund other projects in previous budget cycles, but are now locked up in the project until it is completed. Overall, the design first approach should help with project cost efficiencies and County resources.

The table below is meant to provide a general overview of how a project at a conceptual level of design will typically experience reduced cost risks as it becomes more refined through the design level stages.

**Table assumes a \$1.0 million project with medium project risk and complexity.*

Chart Development Sources: American Society of Professional Estimators (ASPE), Minnesota DOT project management, United States Department of Energy project management, Association for Advancement of Cost Engineering (AACE), Canadian Construction Association--Joint Federal Government / Industry Cost Predictability Taskforce.

The main goal of completing design prior to any construction appropriation is to increase overall project efficiency through the following:

- * Ensure agreed upon scope/design between client department and (project) managing department
- * Mitigate project risk and contingency
- * If design is not completed for a budget cycle, the construction phase will be moved out one year (or more) in the 5-Year Capital Improvement Plan

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

2021 Capital Improvement Budget Financing Overview:

The County finances non-Airport capital projects primarily with general obligation bonds and notes, sales tax, tax levy, reimbursement revenue (from Federal, State, and/or Local sources), vehicle registration fee revenue (VRF), and private contributions (from non-County entities).

Airport capital projects are typically funded with general airport revenue bonds, airport reserve revenue, passenger facility charge revenue, and reimbursement revenue (from Federal, State, and/or Local sources). Sales tax, tax levy, and general obligation bonds and notes are generally not used to finance Airport capital projects.

The 2021 Capital Improvements Budget (Capital Budget) includes 64 separate sub-projects for a total expenditure appropriation of \$80,256,321. Anticipated reimbursement revenue (federal, state, local sources) and private contributions total \$17,013,196, resulting in a net financing requirement of \$63,243,125 (when including the Airport.)

Net Financing requirements for 60 corporate purpose (non-Airport) sub-projects total \$57,295,875. This includes County funding of \$46,275,475 in general obligation bonds or notes, \$3,763,816 in miscellaneous revenue (from Behavioral Health Division Reserves), \$7,256,584 in sales tax revenue, and \$0 in tax levy.

The projects included in year 2021 of the 2021 - 2025 Capital Improvement Plan (CIP) are funded with total appropriations of \$80,256,321 (includes both County and non-County funding). CIP years 2022 - 2025 are used for planning purposes and provide a listing of overall sub-projects and forecasted fiscal requirement over the next 4 years (see pages 123 - 144 of the 5-Year Plan Detail).

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

What is a Bond Eligible Project?

For non-Airport related capital projects, the County issues general obligation bonds or notes (bonds). Proceeds of these bonds may be used to finance infrastructure related activities of the County. Wisconsin State statutes limit the use of bond proceeds to capital expenditures. The Governmental Accounting Standards Board (GASB) establishes accounting and financial reporting standards for U.S. state and local governments that follow Generally Accepted Accounting Principles (GAAP). Additionally, the United States Internal Revenue Service (IRS) maintains rules and regulation that dictate and limit the use of bond proceeds. Pursuant to these rules and regulations, the County's Office of the Comptroller provides determination(s) as to the bond eligibility of capital projects.⁵

Capital projects that are not bond eligible must be financed through County cash (primarily sales tax and tax levy) and/or other financing sources (i.e. private contributions, VRF revenue, federal-state-locals funds, etc.).

Borrowing for "Operating Expenses:"

Borrowing for "operating expenses" (Wis. Stats. 67.04): State Statutes prohibits borrowing for "operating expenses." The statute defines operating expenses as "wages, salaries, fringe benefits, materials, supplies, contractual services, equipment with a useful life of less than one year and other costs specified by the Department of Revenue by rule." Because many expensed or non-capitalized projects are considered to have a useful life of less than one year, debt obligations typically may not be used to finance these projects. The 2021 Capital Improvements Budget does contain some expensed projects (non-capitalized). These projects are financed with property tax levy, sales tax revenue, vehicle registration fee revenue, or revenue generated from Passenger Facility Charges (PFCs).

Federal Expenditure Targets for Tax Exempt Bonds:

Federal tax law governs the use of bond proceeds. Beginning with 1990 bond issues, the Federal government established expenditure targets for spending tax-exempt municipal bond proceeds. Expenditure targets follow six-month intervals from the closing date, and it is required that all proceeds be spent in either 18 or 24 months depending upon the particular issue.

Failure to meet these targets subjects the County to potential financial liability under the rebate or the penalty-in-lieu of rebate method. Under the rebate method, if the County fails to meet the expenditure targets and the investment rate is higher than the interest rate of the bonds, then all investment earnings on the unspent bond proceeds (in excess of the amount which would have been earned if the proceeds had been invested at a rate equal to the rate on the bonds) must be paid to the Federal government. No amount is required to be paid if the investment rate is lower than the interest rate on the bonds even if the expenditure targets have not been met.

Under the penalty-in-lieu of rebate method, financial penalties totaling up to 1.5 percent of the unspent bond proceeds, including investment earnings, will be assessed every six months until all of the proceeds are spent for each target that is unmet. If expenditure targets are not met, for either method, appropriations for individual projects will be reduced to pay rebate or penalty amounts.

If less than 75 percent of the bond issue is to finance construction projects then the rebate method (18-month expenditure period method) must be used. If 75 percent or more will be used to finance construction projects, the County has the option of selecting the rebate or penalty-in-lieu of rebate method (24-month expenditure period). The expenditure requirements are summarized below:

Non-Construction Issues:

6 months	15% of proceeds & actual & expected earnings
12 months	60% of proceeds & actual & expected earnings
18 months	100% of proceeds & actual earnings

Construction Issues:

6 months	10% of proceeds & actual & expected earnings
12 months	45% of proceeds & actual & expected earnings
18 months	75% of proceeds & actual & expected earnings
24 months	100% of proceeds & actual earnings

Annual Bond Limit:

The annual bond limit is defined by County Board file number 03-263, an annual bonding cap to which policy-makers have generally adhered (3% over the prior year's Adopted bond base). The 2020 Adopted Capital Improvement Budget included bond financed projects in the amount of \$44,927,646. Based on this amount, the 2021 bonding cap is calculated at \$46,275,475.

⁵ As part of the annual capital budget development, the Office of the Comptroller provides a preliminary review regarding the bond eligibility of the capital projects. Upon adoption of the capital projects and prior to the issuance of bonds to finance the projects, the Office of the Comptroller provides a final bond eligibility review of the capital projects.

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

The corporate purpose (non-airport) bonding amount of \$46,275,475 meets the 2021 bonding cap. Bond financing related to the Airport is non corporate-purpose and is therefore not included.

Year	Bond Financing		Budget OVER / (UNDER) Bonding Cap:	
	Bonding Cap	Budget	\$	%
2021	\$46,275,475	\$46,275,475	\$0	0.00%

Cash Financing:

Beginning with the 1995 capital budget, the County established a cash-financing goal of 20.0% to be implemented over a ten-year period. This policy served to increase minimum cash financing by 2.0% annually.

The annual cash goal reflects 20% of the Net County Funding Contribution (which excludes Federal/State/Local revenue sources). County cash financing primarily consists of sales tax and property tax levy for non-Airport capital projects. The Vehicle Registration Fee (VRF) was introduced as part of the 2017 Adopted Budget and is recognized as a County cash contribution. Typically, private contributions are one-time (non-County) allocations to specific capital projects pursuant to specific agreement(s). In order to more accurately account for the true County cash (i.e. sales tax, property tax, and VRF) capital contribution requirement for non-Airport projects, private contributions are excluded. In general, policy-makers have focused on the 20% cash goal exclusive of Airport projects as the Airport funds a large amount of projects through cash contributions (i.e. PFC, other Airport reserves) that do no impact the County's overall tax levy.

Including Airport:

Net County financing included in the 2021 budget totals \$63,243,125, including the Airport. Cash needed to meet the 20.0% financing goal is calculated at \$12,648,625. The 2021 budgeted cash financing of \$16,967,650 represents 26.8% of net County financing.

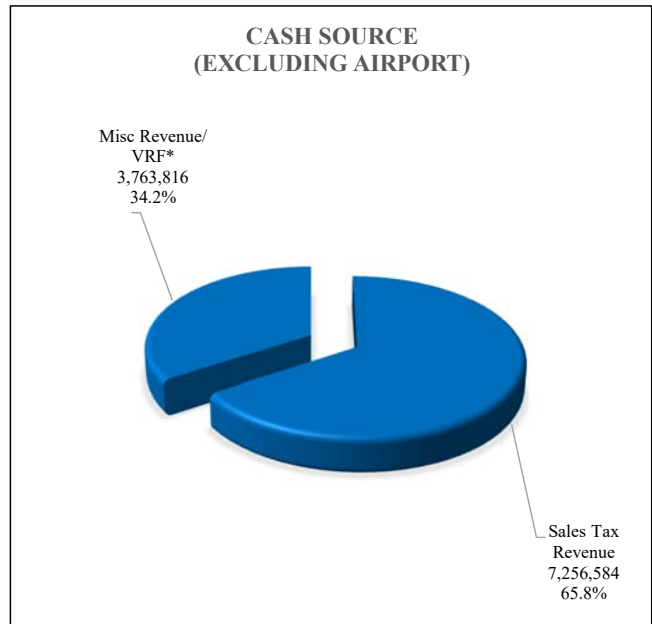

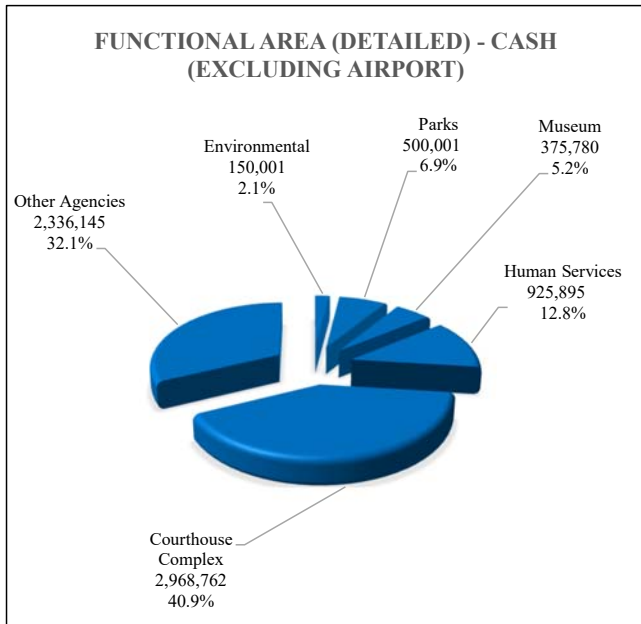

Excluding Airport:

Net County financing totals \$57,295,875. Cash needed to meet the 20.0% financing goal of non-airport projects is calculated at \$11,459,175. The 2021 budgeted cash financing of \$11,020,400 represents 19.2% of net County financing.

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

	2021 Net County Contrib.	Sales Tax Revenue	Tax Levy	*Vehicle Registration. Fee/Misc	PFC/Airport Reserve	TOTAL CASH	% CASH
All Projects, Including Airport:	\$63,243,125	\$7,256,584	\$0	\$3,763,816	\$5,947,250	\$16,967,650	26.8%
All Projects, Excluding Airport:	\$57,295,875	\$7,256,584	\$0	\$3,763,816	\$0	\$11,020,400	19.2%

*Reflects Behavioral Health Division (BHD) Reserves used to partially fund capital project WS12601-Youth Services Admin Relocation and Tenant Imprv. **Excluding the BHD Reserves from the calculation results in cash funding of 20.9% when including the Airport and 12.7% without the Airport.**

NON-BOND ELIGIBLE projects at the DEPARTMENTAL REQUEST Phase consistently outpace the County's ability to finance projects using sales tax, tax levy, and/or VRF revenue (i.e. "cash"). Given the fiscal challenges facing the operating budget and assuming relatively flat revenue growth as well as assumed annual cost to continue increases, it is unlikely that additional cash resources will be available to shift from operations towards increased cash financing (over the 20% cash goal policy) of future capital projects.

Overall, the total NON-BOND ELIGIBLE projects at the DEPARTMENTAL REQUEST Phase is significantly higher than the County's available cash financing (i.e. 20% cash goal). Over the past three years, the average cash financing shortfall from Departmental Requests to Final Budget Adoption is \$23.4 million.

County Cash Funding (Excluding Airport)					
BUDGET YR	CASH	CASH	CASH	*CASH FINANCING BREAKOUT*	
	REQUEST	BUDGET	SURPLUS/(GAP)	FUNDED	NOT FUNDED
2018	\$36,785,176	\$5,409,618	(\$31,375,558)	14.7%	85.3%
2019	\$30,085,532	\$11,476,492	(\$18,609,040)	38.1%	61.9%
2020	\$31,783,042	\$11,600,094	(\$20,182,948)	36.5%	63.5%
3-YR AVG	\$32,884,583	\$9,495,401	(\$23,389,182)	29.8%	70.2%
2021	\$48,452,372	\$11,020,400	(\$37,431,972)	22.7%	77.3%

NOTE: As the Airport, in general, does not utilize County sales tax, VRF, and/or tax levy to fund its capital or operating budgets, it is excluded from table above.

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

2021 Expenditure Appropriations by General Functional Area:

TRANSPORTATION AND PUBLIC WORKS (Highways, Mass Transit, Airport, Environmental)

The 2021 Capital Improvements Budget includes appropriations of \$40,052,526 for Transportation and Public Works. The amount represents 49.91% of total 2021 capital appropriations. The \$40,052,526 in appropriations is offset with 36.78% in reimbursement revenues.

<u>Major 2021 Capital Projects</u>	2021 <u>Appropriation</u>
WA29901-GMIA Taxiway A Extension	\$10,072,067
WT12501-Bus Replacement Program-2021	\$7,000,000
WH01006-Reconstruct CTH "Y" Layton Avenue 27th to 43rd	\$6,200,000

PARKS, RECREATION AND CULTURE (Parks Department, Zoological Department, Milwaukee Public Museum)

The 2021 Capital Improvements Budget includes appropriations of \$12,527,457 for Parks, Recreation, and Culture. The amount represents 15.61% of total 2021 capital appropriations.

<u>Major 2021 Capital Projects</u>	2021 <u>Appropriation</u>
WZ11901-Zoo Adventure Africa-Elephants Exhibit	\$4,040,071
WP49801-Underwood Creek Parkway Replacement	\$1,623,596

HEALTH AND HUMAN SERVICES (Department of Health and Human Services, Aging, Behavioral Health)

The 2021 Capital Improvements Budget includes appropriations of \$4,689,711 for Health and Human Services. The amount represents 5.84% of total 2021 capital appropriations.

<u>Major 2021 Capital Projects</u>	2021 <u>Appropriation</u>
WS12601-Youth Services Admin Relocation and Tenant Imprv	\$4,663,816

GENERAL GOVERNMENT (Elected Official Departments, Department of Administrative Services, Fleet, House of Corrections, Office of Emergency Management, Cultural Agencies)

The 2021 Capital Improvements Budget includes appropriations of \$22,986,627 for General Government. The amount represents 28.64% of total 2021 capital appropriations.

<u>Major 2021 Capital Projects</u>	2021 <u>Appropriation</u>
WO34001-Fleet General Equipment-2021	\$4,459,000
WC20901-Forensic Science Center-Phase 2	\$3,276,215
WO34301-Fleet Parks Equipment-2021	\$2,420,000

Capital Improvement Plan (CIP) – Years 2022* through 2025:

CIP years 2022 - 2025 are used for planning purposes and provide a listing of overall projects and forecasted fiscal requirement(s) over the next 4 years. It is important to note that the estimated costs for the majority of these projects are highly conceptual and will likely change based on updated information as provided by departments as part of the annual budget development process.

The table below reflects non-airport capital projects relative to available estimated County financing of (general obligation) bond, tax levy, sales tax, and vehicle registration fee revenue(s) only. The estimated County financing assumes the 3% annual bond cap increase and the 20% cash financing goal (both are reflective of existing County policy).

2022 - 2025 CIP Forecast and Estimated Available County Funding:

	2022*	2023	2024	2025
Estimated County Financing:	\$59,579,674	\$61,367,064	\$63,208,076	\$65,104,318
2022 - 2025 CIP (non-airport) Proj Requests:	\$197,317,645	\$173,861,331	\$292,131,695	\$84,358,869
Under/(Over) Available County Financing:	(\$137,737,971)	(\$112,494,267)	(\$228,923,619)	(\$19,254,551)

*Includes 2021 Requested Projects that were NOT funded in the 2021 Budget.

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

A listing of 2022 - 2025 forecasted capital projects with \$5 million (or greater) County financing is listed in the table below:

CIP YEAR	DEPT	Project #	Project Description	FINANCING		
				County	Non-County	Total
2022	DAS-FM-FM	WC20901	Forensic Science Center-Phase 2	24,775,868		24,775,868
2022	DOT-TRANSIT	WT12701	Battery Electric Buses - Placeholder (30/yr)	25,500,000		25,500,000
2022	DOT-HWY	WH24201	North Shop Improvement	11,471,996		11,471,996
2022	PARKS	WP70601	South Shore Breakwater	9,220,809		9,220,809
2022	ZOO	WZ14101	Zoo Adventure Africa-Rhinos Exhibit	5,000,000	5,000,000	10,000,000

2025	DOT-TRANSIT	WT12701	Battery Electric Buses - Placeholder (30/yr)	25,500,000		25,500,000
2025	PARKS	WP54901	Parks Bender Safe Harbor Sedimentation Abatement	7,434,619		7,434,619
2025	ZOO	WZ17001	Alaska's Cold Coast	6,085,551	6,085,551	12,171,102
TOTAL				39,020,170	6,085,551	45,105,721

Note: Airport sub-projects are evaluated and ranked using the same criteria as non-airport sub-projects, but are typically not financed through general obligation bond, sales tax revenue, tax levy, or VRF revenue. Airport sub-projects are generally financed via PFC and Airport Reserve revenue(s). As a result, Airport sub-projects are not included in this table

Capital Project Staffing/Consultant Plan:

Each project narrative and fiscal sheet has a detailed staffing plan listed. Milwaukee County's General Ordinance for Professional Services 56.30(4) requires that "[f]or projects managed by the Department of Transportation and Public Works, the Department of Transportation and Public Works is authorized to enter into contractual services or professional services agreements as may be required for specific capital improvement projects which have been previously approved by County Board action." Furthermore, "[t]he budget write-up shall contain specific information as to the scope of the project, professional services required and estimated cost of the professional service work to be performed." Subsequent to budget adoption, the Department of Transportation and the Department of Administrative Services-Facilities Management Division prepare final staffing plans, which are reviewed and approved by the County Executive and County Board of Supervisors. Any subsequent changes to the final 2021 staffing plans have to be approved by the County Executive and County Board of Supervisors.

MILWAUKEE COUNTY**

Debt Service in Comparison to Sales Tax Revenue

Policy Goal:

Tax supported debt service shall not exceed County sales and use tax revenues.

Definition:

Debt service in comparison to county sales and use tax revenues consists of the amount of principal and interest on direct debt that the County must pay from tax revenues compared to net collections of county sales and use tax revenue. Tax supported debt service excludes interest allocations to proprietary fund departments and other debt service fund revenues. Net collections of sales and use tax revenues exclude discounts withheld by retailers and administrative fees retained by the Wisconsin Department of Revenue. Reported sales tax revenue annual totals are in accordance with generally accepted accounting principles (GAAP). Annual totals reflect March through February monthly receipts.

Trend Information:

Budget Year	Tax Supported Debt Service	County Sales & Use Tax Revenue	Surplus Sales Tax Revenues
2021	\$36,839,113	\$67,815,511	(\$30,976,398)
2022	\$48,291,048	\$68,256,051	(\$19,965,002)
2023	\$48,964,230	\$68,699,452	(\$19,735,223)
2024	\$48,478,146	\$69,145,734	(\$20,667,588)
2025	\$50,530,505	\$69,594,915	(\$19,064,410)
2026	\$51,371,450	\$70,047,014	(\$18,675,564)
2027	\$52,087,520	\$70,502,050	(\$18,414,530)
2028	\$53,051,510	\$70,960,041	(\$17,908,531)
2029	\$53,005,968	\$71,421,008	(\$18,415,040)

Note:

The 2021 Budget continues the use of surplus sales tax revenue to cash finance capital improvements projects, prepay outstanding bonds, pre-fund employee benefit costs or fund anticipated or extraordinary annual increases in such costs or supplement the Appropriation for Contingencies. For further sales tax revenue information please refer to the 2021 Budget Org. Unit 1800 - Non-Departmental Revenues.

Budgeted revenues for the upcoming fiscal years are determined through the budget process. Revenues for 2021 are \$30,976,398 for the general fund purposes mentioned above.

**2021 CAPITAL IMPROVEMENTS BUDGET
MILWAUKEE COUNTY**

Cash Financing of Capital Improvements

Policy Goal:

Cash financing for capital improvements

Definition:

Cash financing (pay-as-you-go financing) of capital improvements means the direct non-debt (exclusive of federal, state, and local sources) financing of project costs. Cash financing typically consists of property tax levy, sales tax revenues, VRF revenue, cash contributions from reserves, sales of capital assets, and revenue from Passenger Facility Charges (PFCs). As noted previously in the budget, (typically) private contributions are one-time (non-County) allocations to specific capital projects pursuant to specific agreement(s). In order to more accurately account for the true County cash (i.e. sales tax, property tax, and VRF) capital contribution requirement for non-Airport projects, private contributions are excluded.

For the purpose of calculating the percentage of cash financing, all project costs financed by State, Federal or other local government agencies are excluded from project cost totals. The 2021 private contribution amount of \$2,280,034 is included in the table below as a separate column for comparison. The 2021 projection base assumes the previous 5-Year average percentage of bonds issued to fund capital projects and the 20% cash financing policy goal.

The table below includes total cash financing of \$16,967,650 and consists of:

Sales Tax:	\$7,256,584
Property Tax Levy:	\$0
Miscellaneous:	\$3,763,816
Vehicle Registration Fee (VRF):	\$0
Airport Reserves:	\$4,688,241
Airport-Passenger Facility Chrg:	\$1,259,009
Total:	\$16,967,650

Trend Information:

Budget Year	Net County Capital Cost	(Excluding Private Contributions)		(Including Private Contributions)	
		Direct Cash Financing	Percent Cash Financing	Direct Cash Financing	Percent Cash Financing
2021	\$63,243,125	\$16,967,650	26.8%	\$19,247,684	30.4%
2022	\$85,678,042	\$17,135,608	20.0%	\$22,135,608	25.8%
2023	\$88,248,384	\$17,649,677	20.0%	\$18,344,677	20.8%
2024	\$90,895,835	\$18,179,167	20.0%	\$18,679,167	20.6%
2025	\$93,622,710	\$18,724,542	20.0%	\$24,810,093	26.5%
2026	\$96,431,391	\$19,286,278	20.0%	\$0	0.0%
2027	\$99,324,333	\$19,864,867	20.0%	\$0	0.0%
2028	\$102,304,063	\$20,460,813	20.0%	\$0	0.0%
2029	\$105,373,185	\$21,074,637	20.0%	\$0	0.0%

**2021 CAPITAL IMPROVEMENTS BUDGET
MILWAUKEE COUNTY**

Direct Debt as a Percent of Equalized Value

Policy Goal:

Direct debt shall not exceed 1.5 percent of equalized property value.

Definition:

Direct debt is the total outstanding principal for general obligation bonds and notes which the County has pledged its full faith, credit and unlimited taxing power. Direct debt does not include debt issued by the County on behalf of the conduit financings issued for non-county agencies. The direct debt only includes current outstanding debt and future debt that may be issued from 2021-2030. Equalized property value includes the value of Tax Incremental Financing Districts (TIDs).

Trend Information:

Budget Year	Direct Debt	Equalized Value (Includes TID)	Direct Debt as % of Value
2021	\$496,443,105	\$70,916,861,100	0.70%
2022	\$498,689,778	\$73,692,823,915	0.68%
2023	\$490,745,453	\$76,577,448,752	0.64%
2024	\$471,414,377	\$79,574,989,068	0.59%
2025	\$454,100,000	\$82,689,864,814	0.55%
2026	\$437,470,000	\$85,926,668,958	0.51%
2027	\$420,465,000	\$89,290,174,253	0.47%
2028	\$403,655,000	\$92,785,340,277	0.44%
2029	\$386,910,000	\$96,417,320,745	0.40%

**The State of Wisconsin - Department of Revenue (DOR) annually certifies equalized value by August 15th and remains effective through August 14th of the subsequent year. The County's BUDGET YEAR amount of \$70,916,861,100 reflects the DOR's certification for August 15th, 2020 through August 14th, 2021."*

Equalized value projections (2021-2030) are based on the previous 5-Year DOR certified average.

**2021 CAPITAL IMPROVEMENTS BUDGET
MILWAUKEE COUNTY**

Direct Debt Per Capita

Policy Goal:

Direct debt per capita shall not exceed \$500.

Definition:

Direct debt is the total outstanding principal for general obligation bonds and notes which the County has pledged its full faith, credit and unlimited taxing power. Direct debt per capita is determined by dividing direct debt totals by the most recent estimate of the number of persons residing in Milwaukee County. The 2020 Budget Year Direct Debt per Capita figure was \$563.

Trend Information:

Budget Year	Direct Debt	County Population	Direct Debt Per Capita
2021	\$496,443,105	944,099	\$526
2022	\$498,689,778	944,099	\$528
2023	\$490,745,453	944,099	\$520
2024	\$471,414,377	944,099	\$499
2025	\$454,100,000	944,099	\$481
2026	\$437,470,000	944,099	\$463
2027	\$420,465,000	944,099	\$445
2028	\$403,655,000	944,099	\$428
2029	\$386,910,000	944,099	\$410

**Source: State of Wisconsin - Department of Administration*

Note:

Direct debt per capita can be used to compare debt levels between issuers or communities but is not a good indicator of real debt burdens over time unless it is adjusted for price level changes. The recommendation to establish this debt policy goal included the caution that this policy must be updated annually to be meaningful and to reflect changes in real price levels.

User Guide-Capital Budget Narrative

Project No. WC178	Sub-Project No. WC17801	Sub-Project Title CH LIGHTCOURT REHABILITATION (#6)
-----------------------------	-----------------------------------	---------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The remaining original 1930's single pane glass windows within the Courthouse's four (4) lightcourts need replacement. Many of these windows have deteriorated and rusted frames/sashes and leak. All fail to provide proper insulation from winter and summers temperatures.

Lightcourt renovation is recommended to by lightcourt #6. Major assessment items in lightcourt #6 include: (1) four light court facades which are constructed primarily of a blend of hard burned face brick with limestone window sills and limestone copings at top of parapet walls; (2) windows on the facades are primarily steel framed with primarily fixed (inoperable) lights that vary in shape, size, and mullion configuration.

2021 Sub-Project Scope of Work:

The scope of work includes consultant services providing a condition assessment, design and construction bid documents related to existing windows, exterior ductwork, existing veneer masonry, parapets and flashing within Light Court #6. Design development will establish a means to correct deteriorated elements based on the report. With respect to sustainability, new equipment will incorporate energy efficient and sustainable design as allowed by the building code for this installation.

2022 - 2025 Sub-Project Scope of Work:

The forecasted scope of work is anticipated to include repairing brick veneer masonry, replacement of existing windows with a new aluminum window frame (thermally broken) and new insulating glazing.

Includes the project's BUDGET APPROPRIATION (gray) and PLANNED (white) funding amounts from COUNTY &	Reflects any project funding from a Federal, State, Local, and/or Other sources (i.e. private)	Indicates COUNTY-ONLY BUDGET APPROPRIATION.	PLANNED COUNTY-ONLY Funding over the next 4 years. These costs are re-estimated during the County's annual budget process. ¹
------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------	---------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

1.) The out-years (i.e. 2022 - 2025) typically act as a planning tool to indicate the (estimated) project costs for those particular years. As such, the County is NOT committing future year funding indicated in the out-years, unless there is a County Board authorized legal instrument and/or a state/federal mandate directing the County to do so.

2.) Preliminary schedule. The project schedule is subject to change as the project scope and design become more refined and actual construction, implementation, and/or equipment purchase is implemented. If "N/A" is indicated, the item does not apply to this particular project.

Project No. WH010	Sub-Project No. WH01006	Sub-Project Title RECONSTRUCT CTH "Y" LAYTON AVENUE 27TH TO 43RD
-----------------------------	-----------------------------------	----------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The sub-project addresses the need to meet the future transportation and safety provisions together with improving the deficiencies of the existing roadway system such as deteriorated pavement, poor shoulders, inadequate drainage system, and insufficient access for both bicyclist and pedestrians.

2021 Scope of Work:

The scope of work includes the construction phase for W. Layton Ave. (CTH Y) from S. 27th St. to S. 43rd St. The overall project scope of work includes reconstructing the 1.0 mile segment of W. Layton Ave. (CTH Y), including consideration for bicycle and pedestrian accommodations. Milwaukee County Department of Transportation (MCDOT) was approved for funding from the Wisconsin Department of Transportation (WISDOT) under the County Highway Improvement Program (CHIP) for a maximum of \$1,531,534 for eligible project costs. THE STATE FUNDING EXPIRES ON JUNE 30, 2023.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WH095	Sub-Project No. WH09501	Sub-Project Title W RAWSON AVE- S. 27TH ST TO S. 20TH ST.
-----------------------------	-----------------------------------	---------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The sub-project addresses the need to meet the future transportation and safety provisions together with improving the deficiencies of the existing roadway system such as deteriorated pavement, poor shoulders, inadequate drainage system, and insufficient access for both bicyclists and pedestrians.

2021 Scope of Work:

The scope of work includes completion design and right-of-way phases to make ready for start of the construction phase for W. Rawson Ave. (CTH BB) from S. 27th St. to S. 20th St. in the Surface Transportation Program (STP). The work includes the reconstruction of the 0.4 mile segment of W. Rawson Ave. (CTH BB), including consideration for bicycle and pedestrian accommodations. The Federal funding from the Wisconsin Department of Transportation (WISDOT) under Surface Transportation Program (STP) was approved for a total estimated cost of \$3,700,000 where it would provide 80% Federal funding (\$2,960,000) and the remaining 20% funded by Milwaukee County (\$740,000). There is an additional \$10,000 of County funds for ineligible items that are not covered by WISDOT.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WH097	Sub-Project No. WH09701	Sub-Project Title E. NORTH AVE BRIDGE B-40-0502 OVER OAK LEAF BIKE TRAIL REHAB
-----------------------------	-----------------------------------	------------------------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The sub-project addresses the need to improve the most seriously deficient existing local bridges to maintain safe infrastructure. Bridges are rated based on a federal bridge rating methodology (scale from 0-100), which is designed to measure the relative adequacy of a bridge in terms of structural and safety aspects, serviceability and functional obsolescence, and suitability for public use. The bridge has a sufficiency number of 47.6 and is functionally obsolete. The bridge is deficient and require improvements.

2021 Scope of Work:

The scope of work includes construction phase for E. North Ave Bridge B-40-0502 over Oak Leaf Bike Trail in the Local Bridge Program (LBP). The overall project scope of work includes the rehabilitation of bridge B-40-0502, E. North Ave Bridge which is between N. Bartlett Ave and N. Oakland Ave in the City of Milwaukee. It is a 95.6-foot single span prestressed concrete girder deck bridge built in 1975. The bridge rehabilitation will address concrete spalling, rusting reinforcement, cracking, masonry pop-outs, grout line deterioration, stream erosion of bank protection, channel wall deterioration and other structural deficiencies. The State funding from the Wisconsin Department of Transportation (WISDOT) under the LBP was approved for a total estimated cost of \$1,254,105 where it would provide 80% for the State share \$1,003,284 and 20% \$250,821 Milwaukee County share. There is an additional \$23,585 of County funds for ineligible items that are not covered by WISDOT.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WH110	Sub-Project No. WH11001	Sub-Project Title W BELOIT RD (CTH T)-S 124TH ST TO S WOLLMER RD
-----------------------------	-----------------------------------	----------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The sub-project addresses the need to meet the future transportation and safety provisions together with improving the deficiencies of the existing roadway system such as deteriorated pavement, poor shoulders and inadequate drainage system.

2021 Scope of Work:

The scope of work includes continuing the design phase for the W. Beloit Rd. (CTH T) project from S. 124th St. to S. Wollmer Rd. in the County Highway Improvement Program (CHIP). The scope of work includes a reconditioning of the 1.4 mile segment of W. Beloit Rd. (CTH T) with hot mix asphalt pavement, including shoulder paving, minor drainage and safety improvements. The State funding from WISDOT under the County Highway Improvement Program (CHIP) is a maximum of \$807,992 for eligible project costs. THE STATE FUNDING EXPIRES ON JUNE 30, 2023.

2022 - 2025 Scope of Work:

The Five-Year Capital Improvements Plan includes additional appropriations of \$3,000,000 that are necessary to complete the work on the project. Financing is anticipated to be provided from \$807,992 in State revenue and \$2,192,008 in general obligation bonds.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WH111	Sub-Project No. WH11101	Sub-Project Title W FOREST HOME AVE (CTH OO)-HI-VIEW DR. TO S. NORTH CAPE RD RECONDI
-----------------------------	-----------------------------------	------------------------------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The sub-project addresses the need to meet the future transportation and safety provisions together with improving the deficiencies of the existing roadway system such as deteriorated pavement, poor shoulders and inadequate drainage system.

2021 Scope of Work:

The scope of work includes the continuation of the design phase for the W. Forest Home Ave. (CTH OO) project from Hi-View Dr. to S. North Cape Rd. in the County Highway Improvement Program (CHIP). The scope of work includes a reconditioning of the 2 mile segment of W. Forest Home Ave. (CTH OO) with hot mix asphalt pavement, including shoulder paving, minor drainage and safety improvements. The State funding from WISDOT under the County Highway Improvement Program (CHIP) is a maximum of \$1,514,996 for eligible project costs. THE STATE FUNDING EXPIRES ON JUNE 30, 2025.

2022 - 2025 Scope of Work:

The Five-Year Capital Improvements Plan includes additional appropriations of \$4,625,000 that are necessary to complete the work on the project. Financing is anticipated to be provided from \$1,514,996 in State revenue and \$3,110,004 in general obligation bonds.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WH114	Sub-Project No. WH11401	Sub-Project Title MILL ROAD BRIDGE B-40-0936 OVER OAK CREEK REHAB
-----------------------------	-----------------------------------	-----------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The sub-project addresses the need to improve the most seriously deficient existing local bridges to maintain safe infrastructure. Bridges are rated based on a federal bridge rating methodology (scale from 0-100), which is designed to measure the relative adequacy of a bridge in terms of structural and safety aspects, serviceability and functional obsolescence, and suitability for public use. The bridge has a sufficiency number of 79.7 and is functionally obsolete. The structure is spalling, the parapets are susceptible to wear and corrosion, areas on the concrete walls are missing stone facing and joints between stones are missing mortar.

2021 Scope of Work:

The scope of work includes construction phase for Mill Road Bridge B-40-0936 over Oak Creek in the Local Bridge Program (LBP). The overall project scope of work includes the rehabilitation of Historic bridge B-40-0936, Mill Road Bridge over Oak Creek in the City of South Milwaukee. It is a 80-foot single span arch bridge built in 1931. The bridge rehabilitation will address concrete spalling, rusting reinforcement, cracking, masonry pop-outs, grout line deterioration, stream erosion of bank protection, channel wall deterioration and other structural deficiencies. The State funding from the Wisconsin Department of Transportation (WISDOT) under the LBP was approved for a total estimated cost of \$896,985 where it would provide 80% for the State share \$717,588 and 20% \$179,397 Milwaukee County share. There is an additional \$30,305 of County funds for ineligible items that are not covered by WISDOT.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WH117	Sub-Project No. WH11701	Sub-Project Title SIGNALS CTH PP (GOOD HOPE RD)-99TH ST TO 60TH ST
-----------------------------	-----------------------------------	------------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The sub-project addresses the immediate need to improve efficiency and mobility at signalized intersections for both motorists and pedestrians along County Trunk Highways (CTH), improving the overall safety of the Milwaukee County (County) highway system.

2021 Scope of Work:

The scope of work includes the continuation of the design phase and start of the right-of-way acquisition phase for the Signals CTH PP (Good Hope Rd)-99th St. to 60th St project. The overall project scope of work is to install overhead per lane signal heads for the through lanes at 5 specified intersections to reduce crashes. It will eliminate the number of signal heads and poles in the median that have been repeatedly struck further reducing crashes. In addition, flashing yellow arrow left turn signals will be installed to have better driver comprehension, leading to a reduction in left turn crashes. The Federal funding from Wisconsin Department of Transportation (WISDOT) under the Highway Safety Improvement Program (HSIP) was approved for a total estimated cost of \$930,204 where 90% Federal share is \$832,683 and the 10% County share is \$97,520 funded by Milwaukee County. There is an additional \$10,096 of County funds for ineligible items that are not covered by WISDOT. The HSIP funding expires in 2024.

2022 - 2025 Scope of Work:

The Five-Year Capital Improvements Plan includes additional appropriations of \$709,100 that are necessary to complete the work on the project. Financing is anticipated to be provided from \$633,605 in Federal revenue and \$75,495 in general obligation bonds.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WH247	Sub-Project No. WH24701	Sub-Project Title RECONSTRUCT CTH BB - S. 13TH ST TO S HOWELL AVE
-----------------------------	-----------------------------------	-----------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The sub-project addresses the need to meet the future transportation and safety provisions together with improving the deficiencies of the existing roadway system such as deteriorated pavement, poor shoulders, inadequate drainage system, and insufficient access for both bicyclist and pedestrians.

2021 Scope of Work:

The scope of work includes the start of the design phase for W. Rawson Ave. (CTH BB) from S. 13th St. to S. Howell Ave. The overall sub-project scope of work includes the reconstruction of a 1 mile segment of W. Rawson Ave. (CTH BB) from S. 13th St. to S. Howell Ave. and includes bicycle and pedestrian accommodations. The Federal funding from the Wisconsin Department of Transportation (WISDOT) under the Surface Transportation Program (STP) was approved for the both the design, right-of-way acquisition and construction phases for a total estimated cost of \$7,380,000 where it would provide 80% for the Federal share \$5,904,000 and 20% \$1,476,000 for the Milwaukee County share.

2022 - 2025 Scope of Work:

The Five-Year Capital Improvements Plan includes additional appropriations of \$7,105,000 that are necessary to complete the work on the project. Financing is anticipated to be provided from \$5,684,000 in Federal revenue and \$1,421,000 in general obligation bonds.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WT106	Sub-Project No. WT10601	Sub-Project Title BUS LIFT REPLACEMENT (2) (KK GARAGE)
-----------------------------	-----------------------------------	------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

There are nine in-ground bus lifts at the Kinnickinnic Garage Maintenance Facility. Two of the lifts (#2 and #3) have been abandoned due to age and safety concerns. Lift #1 was replaced with capital project WT107. With the closing of the Fiebrantz Garage, these two lifts require replacement to meet the added maintenance demand. The new lifts will be self-contained, in-ground lifts capable of supporting the additional weight inherent with battery electric buses.

2021 Scope of Work:

The scope of work includes replacement of two condemned bus service lifts at the Kinnickinnic Transit Maintenance building. With respect to sustainability and energy efficiency, the new lifts will be more energy and material efficient compared to the original lifts installed in the 1980's. The new lifts will eliminate or reduce leakage of hydraulic fluid thereby reducing volume of fluid required on an annual basis and reduce the potential for future soil and ground water contamination. The new lifts provide greater lifting capacity which is required for lifting the newer and heavier electric buses.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WT109	Sub-Project No. WT10901	Sub-Project Title BUS LIFT REPLACEMENT (7) (MAINT FACILITY)
-----------------------------	-----------------------------------	-----------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

There are 28 in-ground bus lifts at the MCTS Fleet Maintenance Facility. These lifts facilitate the bus fleet's longer-term, major repairs such as engine, transmission and body work. The lifts were installed original with the building in 1988 and have reached the end of their useful life of 30 years. Seven of the lifts (#'s 25, 41, 42, 47, 49, 51 and 52) have been abandoned due to age and safety concerns. The replacement lifts will be self-contained, in-ground lifts capable of supporting the additional weight inherent with battery electric buses.

2021 Scope of Work:

The scope of work includes replacement of seven condemned bus service lifts at the Fleet Maintenance building (Hillside). With respect to sustainability and energy efficiency, the new lifts will be more energy and material efficient compared to the original lifts installed in the 1980's. The new lifts will eliminate or reduce leakage of hydraulic fluid thereby reducing volume of fluid required on an annual basis and reduce the potential for future soil and ground water contamination. The new lifts are made for greater lifting capacity and are required for the introduction of heavier electric buses.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

Project No. WT125	Sub-Project No. WT12501	Sub-Project Title BUS REPLACEMENT PROGRAM-2021
-----------------------------	-----------------------------------	----------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

Maintain an annual bus replacement schedule in order to mitigate higher maintenance and operational costs resulting from using buses beyond their useful life.

Pursuant direction from the Milwaukee County Board of Supervisors (2019 Adopted Capital Improvements Budget), the Department of Transportation and Milwaukee County Transit System (MCTS) has initiated a Battery Electric Bus (BEB) pilot program in order to transition from fossil fuels. Acquisition of fifteen BEBs, which in part is Milwaukee County's local share contribution to the East-West Bus Rapid Transit (BRT) project, is expected to be complete by Spring of 2022. Eleven of the fifteen BEBs will be operated on the BRT route from downtown Milwaukee to the Watertown Plank Road Park-and-Ride lot in Wauwatosa. The remaining four BEBs will be placed on other (yet to be determined) routes. The pilot program will occur over a two-year period (approximately) to collect seasonal data. A final report will be submitted to the County Board and County Executive to inform future policy direction regarding full fleet deployment of BEBs or alternative fuel bus fleet, as directed.

In the interim, clean diesel buses that meet near zero emissions standards through the use of ultra-low sulfur diesel fuel will allow MCTS to maintain its bus replacement schedule while serving the community with the most efficient options currently available.

2021 Scope of Work:

Buses which are fully depreciated and have reached the end of their useful life will be replaced with fourteen new clean diesel buses. Funding includes FTA-required bus inspections.

2022 - 2025 Scope of Work:

The MCTS bus replacement schedule assumes thirty (30) replacement buses per year. Please refer to capital project Bus Replacement Program - Planning Placeholder in the 5-Year Capital Improvement Plan for annual replacement costs for future years.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WT128	Sub-Project No. WT12801	Sub-Project Title KK GARAGE EMPLOYEE PARKING LOT
-----------------------------	-----------------------------------	------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

Replacement of the existing employee parking lot west of Kinnickinnic Avenue as it is beyond its useful life and is in poor condition.

2021 Scope of Work:

The scope of work includes planning and design for replacement of the employee parking lot west of Kinnickinnic Avenue and related amenities. This includes the replacement of the lot and fencing surrounding lot and protective guardrails where necessary, adding conduit for future security cameras, upgrade storm inlets and storm piping within the parking, upgrading electrical wiring for the existing LED lighting, and use of permeable pavers for storm water quality and quantity.

2022 - 2025 Scope of Work:

The scope of work includes construction for the replacement of the parking lot and amenities.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WT148	Sub-Project No. WT14801	Sub-Project Title FDL GARAGE FIRE ALARM AND SPRINKLER SYSTEM REPL
-----------------------------	-----------------------------------	-----------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The current sprinkler system at FDL bus storage and tank house is mostly inoperable. The current fire alarm system is not tied to any fire suppression. It also has a number of issues and experiences frequent errors and false alarms, along with issues from the vendor who no longer wants to support the system. A September 2020 appropriation transfer for design is anticipated to start the project as the current system failed in August of 2020. Transit staff is working with vendor and consultants to bring the existing system back online until the replacement system can be installed.

2021 Scope of Work:

Construction and implementation to replace the fire alarm and wet sprinkler system for Bus Storage and Service Building.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WA280	Sub-Project No. WA28001	Sub-Project Title GMIA PARKING STRC REPLACE DECORATIVE METAL PANEL
-----------------------------	-----------------------------------	------------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

Currently, there are 57 decorative metal panels on the building face of the parking structure at General Mitchell International Airport (GMIA) that were installed in 2001 at the time of the last addition to the parking structure. In 2018, a research investigation and site assessment was conducted by an architecture and engineering firm to assess the condition of the structural supports and the overall condition of the paint coatings of the metal panels, and to recommend options for repair and/or replacement. The completed report from this assessment indicated that the flaking paint and rust are present on approximately 50% to 85% of the supporting steel members of the panels. The recommendations from that assessment include: installation of preventative measures to extend the life of the existing panels and the surface preparation and repainting of all of the structural steel and aluminum panels. There are also other alternative architectural facade options that are being evaluated in the feasibility and design phase of this project. Financing is provided from Airport Development Fund (ADF) reserve and from the Customer Facility Charge (CFC) reserve.

2021 Scope of Work:

Scope of the project is the construction and implementation of an architectural façade alternative from the 2020 feasibility & design phase of the project.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

Project No. WA299	Sub-Project No. WA29901	Sub-Project Title GMIA TAXIWAY A EXTENSION
-----------------------------	-----------------------------------	------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

Federal Aviation Administration (FAA) Advisory Circular 150-5300-13A "Airfield Design" was issued in 2012, and contains revised airfield pavement geometric standards and best practices for pavement layout for the purpose of improving airfield safety. In response to the new design standards, Milwaukee County conducted an Airfield Compliance Analysis in 2014 that identified specific areas of the airfield at GMIA that do not meet or partially meet the FAA design standards. One of the areas identified as a particularly high risk is the Taxiway M intersection with Runway 1L/19R. This particular intersection has also been designated a "Hot Spot" on the current FAA airport diagram due to the historic operational problems in this area. FAA policy is that areas designated as "Hot Spots" should be addressed as soon as practical. A result of the 2014 compliance analysis is an updated Airport Layout Plan (ALP) that depicts corrected pavement geometry in this location. The extension of Taxiway A, and the subsequent elimination of Taxiway M eliminates the hot spot, while maintaining operational efficiency for the use of both main air carrier runways at GMIA. Financing is provided from FAA Airport Improvement Program (AIP) funding, state funding and by the use of Passenger Facility Charges (PFC) funding. The implementation of this project is contingent upon receiving federal and state funding.

2021 Scope of Work:

The scope of work includes the implementation and construction of Taxiway A from Taxiway E to Taxiway N. Work consists of removing existing taxiway pavement, grading and excavation, drainage improvements, placement of granular base and concrete pavement, bituminous shoulder pavement, airfield lighting and signage, pavement markings and turf restoration adjacent to the new pavement.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WA377	Sub-Project No. WA37701	Sub-Project Title GMIA SOUTH MAINTENANCE AIR HANDLING UNIT
-----------------------------	-----------------------------------	----------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The systems condition assessment for the General Mitchell International Airport Combined Maintenance Facility was completed in 2018. At that time, 8 of the 11 Air Handling Units (AHUs) were given a condition rating of "Poor" and 2 were given a "Fair" rating. The Relief Ventilator/Fresh Air unit was given a condition rating of "Poor", as was the heating, ventilation and air conditioning (HVAC) control system. The recommended renewal action date for these items was 2019 (p. 10). Condition assessments and recommended renewal actions are contained in the VFA Facility Condition Assessment Report "Combined Maintenance Facility (4-04) Asset No. 372" dated February 15, 2018. AHUs are vital mechanical components of the HVAC system that serves this facility. The Combined Maintenance Facility houses the maintenance equipment and materials for GMIA, as well as vehicle and equipment repair and maintenance shops. The financing is provided from the Airport Development Fund (ADF) reserve.

2021 Scope of Work:

Project consists of the planning and design phase for the replacement of the identified air handling units (AHUs), replacement of the exhaust ventilation/fresh air renewal system and replacing the hybrid pneumatic/digital building environmental control at the Combined Maintenance Facility at GMIA. The 2021 project objective is to develop a design approach and bidding documents for equipment replacement and upgrades to maintain proper and efficient operation of the HVAC system at this facility.

2022 - 2025 Scope of Work:

Project consists of the construction and implementation of the recommended replacement and upgrade of existing air handling units (AHUs), replacement of the exhaust ventilation/fresh air renewal system and replacing the hybrid pneumatic/digital building environmental control at the Combined Maintenance Facility at GMIA. The project objective is to maintain proper and efficient operation of the HVAC system at this facility.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WA394	Sub-Project No. WA39401	Sub-Project Title PARKING STRUCTURE REPAIR AND MAJOR MAINT-2021
-----------------------------	-----------------------------------	---------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

Within the public parking garage at General Mitchell International Airport, stairways 2, 4, 5 & 7 have immediate major structural issues directly related to safety and functionality. The issues include corrosion of the structural elements of the staircases and supporting connections to the masonry walls of the stairwells. The corrosion was due to water infiltration, mostly from precipitation and snowmelt seeping in from the top parking level of the structure. Some of the infiltration problems have been addressed in other projects. The remainder of them will be addressed as part of this project. Financing is provided from Airport Development Fund (ADF) reserve and Customer Facility Charge (CFC) reserve.

2021 Scope of Work:

Project consists of the design and construction of major and minor repairs and rehabilitation to stairways 2, 4, 5 & 7 in the MKE Parking Structure. Components needing repair within the stairwells are steel, masonry, and concrete elements. Stairways 2 & 4 have the most immediate major structural issues directly related to safety and functionality. Project scope will also address the water infiltration problems in these stairwell to prevent future damage to the stair components.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WV041	Sub-Project No. WV04101	Sub-Project Title OAK CREEK SKATE LIFT STATION
-----------------------------	-----------------------------------	----------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The Oak Creek Skate sanitary lift station located in the pavilion at the Mill Pond in the Oak Creek Parkway was installed in 1934, and has reached the end of its serviceable life. The Department of Parks, Recreation and Culture has identified the lift station as needing replacement. The lift station should be replaced prior to failure to avoid a discontinuation of sanitary services and the closure of facilities. The replacement of the lift station includes the replacement of the force main.

2021 Scope of Work:

The 2021 scope of work is to design the replacement of the lift station and force main at the Oak Creek comfort station at the Mill Pond. The design will include the creation of construction plans, specifications and a construction estimate.

2022 - 2025 Scope of Work:

The scope of work includes the replacement of the sanitary lift station and force main at the Oak Creek comfort building located on the Mill Pond.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WV043	Sub-Project No. WV04301	Sub-Project Title OAKWOOD LIFT STATION UPGRADE
-----------------------------	-----------------------------------	----------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The Oakwood Park Golf Course sanitary lift station was installed in 1976, and is well beyond its serviceable life. The Department of Parks, Recreation and Culture has identified the lift station as needing replacement. The lift station should be replaced prior to failure to avoid a discontinuation of sanitary services and the closure of facilities. The replacement of the lift station includes the replacement of the force main.

2021 Scope of Work:

The scope of the project includes project design for the replacement of the sanitary sewer lift station at Oakwood Park, including replacement of the entire sanitary sewer force main.

2022 - 2025 Scope of Work:

Scope of works includes construction activities to remove existing lift station and install new lift station. Abandon existing force main and replace with new.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

Project No. WV054	Sub-Project No. WV05401	Sub-Project Title COUNTY-WIDE SANITARY SEWERS REPAIRS-2021
-----------------------------	-----------------------------------	----------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

In August 2004 the County received a Notice of Violation/Notice of Claim from the WDNR stating that they believed Milwaukee County to be in violation of the general permit for "Bypasses or Overflows from Sewage Collection Systems (WI-0047341-03). In January 2005, the County (as one of 28 defendants) received the proposed stipulated settlement from the State Attorney General's office requiring specific actions from the defendants. As a member of the MMSD-Technical Advisory Team (TAT), the County worked with representatives from the other communities to create a stipulated settlement agreement (agreement) that was issued in 2006. The agreement directed municipalities to improve the condition of their sanitary sewer facilities in order to minimize the inflow and infiltration of clear water into the sanitary sewer system. A reduction of clear water in the system reduces the amount of sewage that needs to be treated and reduces the possibility of sewer backups and overflows.

The agreement requires continued evaluation/inspection of the sanitary sewer system every 5 years. An inspection of approximately 20% of the County sanitary sewer system is undertaken on an annual basis.

2021 Scope of Work:

Sanitary sewer field inspections (including televising sewer pipes) in 2019/20, will be reviewed to compile a list of deficiencies to be completed within 18 months. Anticipated scope of work includes restoring manholes by fixing chimneys or bringing low manholes to grade; pipe-related work including cured-in-place pipe (CIPP) lining, Grouting, Root Cutting and partial or complete replacements. With respect to sustainability and energy efficiency, continuous efforts to keep clear water of the sewer will reduce the overall amount of pumping that lift stations will have to perform and therefore save on the amount of electricity used.

2022 - 2025 Scope of Work:

Anticipated 2022 – 2025 County-wide Sanitary Sewer Repairs are reflected in capital project WV04801 of the 5-Year Capital Improvement Plan.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WP050	Sub-Project No. WP05046	Sub-Project Title LINCOLN PARK BASEBALL LIGHTING
-----------------------------	-----------------------------------	------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

In late fall of 2015, the 80-foot field lighting poles (double timber poles) and lights on the 3rd base side of Henry Aaron Field near home plate were blown over in a high wind event. After emergency removal of these lights, Parks immediately had the remaining seven pairs of poles inspected and removed. An additional pole was set on the 1st base side near home plate for safety reasons and to accommodate the installation of a new artificial turf infield by UWM. In 2016, additional funds were set aside to remove the remaining non-functional lights and poles for safety reasons. The scope of work for the new lighting system should include a new 480 volt 3-phase WE Energies electrical service as well as verification of scoreboard functionality. There is unmet demand for playing time at this facility by local colleges and high schools. Not all entities wishing playing time can be accommodated at this time. Adding lights would fulfill this unmet demand by creating additional playing time, thereby increasing the revenue potential of Parks only artificial turf baseball field.

The 2019 Adopted Capital Budget included an appropriation for the planning and design phase of this project.

2021 Scope of Work:

The scope of work includes installation of a new lighting system including 480 volt, 3-phase (Wisconsin Energies) electrical service for the Henry Aaron Field Baseball Diamond at Lincoln Park.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

Project No. WP425	Sub-Project No. WP42501	Sub-Project Title PLAYGROUND RESURFACING - PHASE 1
-----------------------------	-----------------------------------	--------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

Milwaukee County Parks currently owns and operates 113 playgrounds that have a variety of equipment and surfacing. Several older playground sites have a combination of surfacing that includes sand. Maintaining clean sand is operationally challenging, and sand that is not clean is a safety hazard for park users and staff. Safety standards and resilient playground surfacing products have improved well beyond sand in the past 15-years, and options now also include poured-in-place (PIP) rubber surfacing as well as Engineered Wood Fiber. These surfacing alternatives reduce ongoing maintenance and improve safety. While many playgrounds have been converted to PIP surfacing, some highly used sites are in need of replacement due to significant wear. Improving the surfacing at these playgrounds will improve safety, enhance the play environment and extend the life of the assets as the intervals for full playground replacement extend due to lack of available funding. PIP also has the advantage of providing full ADA accessibility to all areas of the playground. Using Fibar (engineered wood fiber) in place of sand would reduce but not eliminate ongoing inspection and maintenance and eliminate some of the cleanliness aspects associated with sand.

2021 Scope of Work:

The scope of the project includes planning/design and installation of Poured in Place (PIP) rubberized safety surface at the following three play areas: Gordon Park (4,400 sf), Cool Waters (3,350 sf) and Hoyt Park (4,060 sf). The play areas were all installed in 2001 or earlier. The scope will include excavating existing small areas of rubberized surface, mulch or other existing safety surfaces. New PIP safety surface will be installed over new stone base material for the entire surface of the play area. With respect to sustainability/energy efficiency the rubber materials used in construction of the PIP is recycled tires.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WP498	Sub-Project No. WP49801	Sub-Project Title UNDERWOOD CREEK PARKWAY REPLACEMENT
-----------------------------	-----------------------------------	-----------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The Underwood Creek Parkway segment that falls between Bluemound Road and 119th Street is 0.41 miles in length and has been rated as a 36 out of 100 in 2018. The roadway has been annually patched for approximately 10 years, and deteriorates with each freeze-thaw cycle. This portion of roadway is fronted by numerous residential properties, and also serves as a defacto collector street for the adjacent neighborhood. The pavement is cracked and heaved in locations, and is a hazard for both vehicles and the bicycles that use this stretch as a mapped leg of the Oak Leaf Trail. Some areas of this parkway have broken curb, while others have no curb at all due to deterioration. Lighting in this stretch is not reflective of current Parks standard materials, nor is it consistent with the City of Wauwatosa's reconstruction within the portion of the parkway road that falls under their jurisdiction. Residents and users of this parkway regularly reach out to request patching and other maintenance needs related to the poor road condition.

2021 Scope of Work:

The scope of work includes construction for replacement of Underwood Creek Parkway - Bluemound Road to 119th Street with (rated 26/100) including 4 inches of asphalt pavement on 8 inches of stone base, LED lighting, concrete curb and gutter, drainage and storm sewers, and other potential utility replacement under new pavement. Storm water best management practices, green infrastructure, natural areas restoration and management shall be incorporated where applicable. With respect to Sustainability and Energy Efficiency, lighting will be replaced with LED fixtures. Asphaltic concrete mixes used for surface course and binder course may contain salvaged or reclaimed asphaltic material. Crushed gravel base course may include crushed stone, crushed gravel, crushed concrete, reclaimed asphaltic pavement, reprocessed material or blended material.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WP534	Sub-Project No. WP53401	Sub-Project Title RAINBOW PARK PLAYGROUND REPLACEMENT
-----------------------------	-----------------------------------	-----------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The playground at Rainbow Park is a Class 3 playground and is one of the oldest playgrounds in the Milwaukee County Parks system, having been installed in 1995. Based on age and condition, Rainbow Park Playground is a high priority for playground replacement within the Milwaukee County Parks System. In addition, the safety surfacing material is all sand, which is the most maintenance-intensive surfacing, has potential safety issues associated with sand cleanliness, and does not provide any ADA accessibility. Playgrounds are ideally replaced at 20-year intervals to provide exciting, up-to-date, and accessible playgrounds that meet current safety standards and guidelines. Replacement is with a new Class 3 playground.

2021 Scope of Work:

The scope of work includes replacement of the play area involving removal of existing play equipment, installing concrete curb, new accessible playground equipment, benches, asphalt walks, signage and poured in place safety surface. Replacement is with a new Class 3 playground.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WP658	Sub-Project No. WP65801	Sub-Project Title CURRIE PARK-REPLACE PARKING LOT & CART PATH IMPR
-----------------------------	-----------------------------------	----------------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

Currie Golf Course is a popular recreational asset that generates revenue for the Parks System. The existing parking lot that serves the course has a rating of 28/100, indicating the need for a full reconstruction. It is likely that a reduction in pavement could be accommodated during a reconstruction, reducing the impervious footprint of the County. Additionally, the existing handicap parking is located relatively far from the Clubhouse. Accessibility is important to serve both golf clientele and to serve the voting public as the Currie Park Golf Clubhouse is used for voting. The course will also benefit from a new continuous asphalt cart path through the 18-hole golf course, keeping it on par with other like facilities. Parks has made other successful efforts to introduce cart paths which helps attract large events, expands dates motor carts can run and is appreciated by users.

This is a wet, low lying course and flooding is common. Cart restrictions leads to a reduction in revenue as golfers, and organized golf outings, that require carts seek out other courses. Adding a continuous paved cart path throughout the course allows the course to remain open more often.

2021 Scope of Work:

The scope of work includes planning and design to add a new, continuous asphalt golf cart path through all 18 holes at Currie park. Currie Golf Parking and Road proposed replacement of the golf course parking lot and entry road at Currie Park. Currie Park parking lot planned to be reduced by 25%.

2022 - 2025 Scope of Work:

Currie Golf Cart Paths is preferred to complete the path work in one season; however a phased construction of two years, and late season paving may be required to minimize disturbance. The contractor can work throughout the golf season. This will require daily coordination during the construction phase with golf staff. Due to wet spring conditions it may be best to start work mid-summer. Currie Golf Parking and Road: Parking is required during the golf season. A phased construction, and/or late season paving may be required to minimize disturbance.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WP682	Sub-Project No. WP68201	Sub-Project Title WHITNALL CLUBHOUSE HVAC RPLCMNT-KITCHEN REMODEL
-----------------------------	-----------------------------------	-----------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

In 2016 Milwaukee County funded a project to replace the HVAC system for the kitchen and dining area of the Whitnall Park Clubhouse. During project design for the kitchen and other building systems to support the new kitchen including electrical, plumbing and HVAC. the consultant determined that major kitchen upgrades were required to provide an efficient and effective HVAC system suitable for the building program. These significant upgrades also triggered design for kitchen and ADA code compliance requirements, requiring kitchen modifications and the addition of access ramps and a new ADA accessible bathroom. The County's VFA database reflects the need for upgrades and repairs of this nature, as the systems and building areas described are categorized as potentially critical repairs.

2021 Scope of Work:

Retain consultant to design replacement of HVAC system for Kitchen and Dining area along with ADA compliance requirements requiring Kitchen modifications along with addition of access ramps and a new ADA accessible bathroom. With respect to sustainability, the design and specification for the new HVAC equipment will incorporate the latest Standards and Guidelines currently offered by ASHRAE that include the latest energy efficiency and sustainability provisions.

2022 - 2025 Scope of Work:

Implement general construction and HVAC work designed in 2021.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

Project No. WP695	Sub-Project No. WP69501	Sub-Project Title WASHINGTON PARK BRIDGE REPLACEMENTS
-----------------------------	-----------------------------------	-----------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

An April 2016 inspection of the two concrete lagoon bridges in Washington Park resulted in a recommendation for replacement. The bridge inspector described heavy concrete delamination, cracking and spalling present in all abutments, particularly the outside corners. The deterioration extends below the waterline and all the way up into the deck. All the deck corners at the abutments are experiencing cracking and spalling. In particular, a section of the northeast corner of the north bridge has failed with a large piece of concrete spalled off. This could happen at any time at the remaining corners. The inspector indicated the bridges are safe for pedestrian usage for the near future but need to be monitored and pedestrians kept away from the corners. Concrete barriers and traffic barrels have been placed in the area to keep pedestrians away from the problem area. The connecting asphalt walkway between the bridges is highly degraded and should be replaced at the same time the bridges are replaced. The inspecting engineer recommended replacement within 2 years.

2021 Scope of Work:

The scope of work includes planning and design for replacement of two pedestrian bridges as well as the (highly degraded) connecting asphalt walkway between the bridges. With respect to sustainability/energy efficiency, the design will be reviewed for the possibility of using recycled material in the concrete and asphalt.

2022 - 2025 Scope of Work:

The scope of work includes construction of the two pedestrian bridges and connecting asphalt walkway.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WP701	Sub-Project No. WP70101	Sub-Project Title GRANT PARK NORTH ACCESS ROADS-PARKING LOTS
-----------------------------	-----------------------------------	------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The Adopted 2020 Capital Budget included an appropriation of \$113,504 for design of this project. As of 6-30-2020, design is still ongoing. The northernmost access point into Grant Park off S. Lake Drive provides access to Grant Playground #1, picnic areas #7, 8, and 9, soccer fields, trails, and serves as the primary drive and parking lot to the Wil-O-Way Grant facility operated by the Milwaukee County Office for Persons with Disabilities. The sections are extremely deteriorated and at the end of their useful lives. The 2019 pavement ratings include: 17/100 for access drive from S. Lake Drive; 32/100 for parking lot serving picnic areas 7-9; 20/100 for Wil-O-Way Grant parking lot. The areas require regular asphalt patching and get regular complaints from constituents. In 2020, the City of South Milwaukee (City) was awarded \$45,000 of Community Development Block Grant (CDBG) funding to assist with reconstruction costs related to Wil-o-Way/Grant Park-Access Drive. The CDBG program is administered by the Milwaukee County Department of Health and Human Services-Housing Division (Housing). Housing will send the award agreements to the City once funding is received by Milwaukee County from the federal Department of Housing and Urban Development later in 2020. Once the agreements are finalized and CDBG funding is confirmed to be applied towards capital project WP70101, an administrative appropriation transfer will be made to reduce bond funding by the amount of the CDBG award.

2021 Scope of Work:

The scope of work includes the construction phase for replacement of the northernmost access point into Grant Park off S. Lake Drive. Anticipated work includes: parkway to be pulverized, regraded, and reconstructed including 3-1/2 inches of asphalt pavement on 6 inches minimum of stone base; concrete curb and gutter, drainage/storm sewers, and other utility replacement under new pavement; new perimeter concrete curb and gutter and pervious pavers for the parking lot for picnic areas 7, 8, and 9.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WP706	Sub-Project No. WP70601	Sub-Project Title SOUTH SHORE BREAKWATER
-----------------------------	-----------------------------------	----------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The South Shore Breakwater serves as a near-shore structure that protects the shoreline and coastal assets along Cupertino, South Shore, and Bay View Parks. The existing stone on the north section of the breakwater is undersized for the forces that are applied from storm events and ice. Over the years the existing stones have been moved due to these forces flattening the breakwater and developing gaps. Last investments related to construction on the breakwater took place in 2006, and the condition of the asset has deteriorated over time. Age, high water, and wave action have resulted in numerous openings in the breakwater, and large stone that had made up the structure has been moved into the navigation channel that is adjacent. Significant investments have been made to the Oak Leaf Trail, South Shore Yacht Club, South Shore Boat Launch, and related assets that rely on the protection of this breakwater. Improvements to the breakwater should consider the South Shore Beach Relocation Study, and any related plans. The height of the breakwater should be raised as well to provide better protection from waves overtopping the breakwater.

2021 Scope of Work:

Phase 1 will completed the planning and design for reconstruction of the northerly section of the South Shore Breakwater that provides protection to Cupertino Park, South Shore Yacht Club and South Shore Park. Reconstruction of the northerly segment will consist of reconfiguring the existing stone to create space to set new appropriately sized stone on top of the existing stone. The larger stone will be sufficient to handle the forces applied from stores as well stabilizing the smaller stones by holding them in place. Phase 2 of the South Shore Breakwater repair will address the south section of the breakwater located off the shoreline of Bay View Park. A similar approach will be consider for the south section repairs. An alternative approach for the south section will consider dismantling the south section of the breakwater and relocating the salvaged stone to construct an on-shore stone revetment to better protect the Bay View bluffs from continued erosion.

2022 - 2025 Scope of Work:

Construction for Phase 1 - North Breakwater section to anticipated in 2022. Construction for Phase 2 - South Breakwater section to anticipated in 2023. Design for both phases will be accomplished at the same time.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WP707	Sub-Project No. WP70701	Sub-Project Title OLD LOOMIS ROAD RECONSTRUCTION
-----------------------------	-----------------------------------	------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

Old Loomis Road was acquired by the Parks Department as a part of the real estate transaction that transferred Crystal Ridge to The Rock. While this section of local road does carry a portion of the Oak Leaf Trail, it is primarily used by residents of an adjacent residential neighborhood. This 0.47-mile section of roadway falls within both the City of Franklin and the Village of Greendale, and has a pavement rating of 20/100. Parks has received numerous calls from residents about pothole conditions on the roadway, and has performed patching but the road is so deteriorated that conditions continue to worsen. Any road work should include integrated vegetation management to make sure sufficient clearance is available adjacent to the pavement.

The County has applied for and been awarded State of Wisconsin-County Highway Improvement Discretionary Program (CHID) funding of up to \$540,000.

2021 Scope of Work:

The scope of work includes planning and design for the reconstruction of the .47-mile section of roadway falls within both the City of Franklin and the Village of Greendale of Old Loomis Road.

2022 - 2025 Scope of Work:

The scope of work includes roadway reconstruction.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WP718	Sub-Project No. WP71801	Sub-Project Title MITCHELL DOMES MESH/STRUCTURE INSPECTION & RPRS
-----------------------------	-----------------------------------	---------------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The Mitchell Park Horticultural Conservatory (The Domes) has had protective stainless steel mesh installed in all 3 Domes since 2016 in order to reduce the risk of spalling concrete endangering the visitors and staff at the Domes. In order to appropriately respect the anticipated lifespan of this protective measure, it is necessary to regularly inspect and repair this installation. Work should take place to evaluate not only the mesh, but also all observable concrete and glazing surfaces. It will be necessary for the project to include any and all equipment necessary for work and access, efforts to prepare each Domes site for leveling a lift, and related restoration to pre-inspection conditions. In addition to the final report documentation, corrective actions, as necessary, should be completed to the mesh barrier. As a public facility, consideration should be given to public information and coordination of events.

2021 Scope of Work:

The scope of work includes evaluation of the mesh and all observable concrete and glazing surfaces. It will be necessary for the project to include any and all equipment necessary for work and access, efforts to prepare each Domes site for leveling a lift, and related restoration to pre-inspection conditions. In addition to the final report documentation, corrective actions, as necessary, will be completed to the mesh barrier and inspection and repairs will take place concurrently.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

Project No. WP725	Sub-Project No. WP72501	Sub-Project Title VOGEL PLAYGROUND REPLACEMENT
-----------------------------	-----------------------------------	----------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The playground at Vogel Park is a Class 3 playground and was installed in 1999. The last significant surfacing investment into poured-in-place rubber (PIP) at this site took place in 2007. Based on age and condition, Vogel Playground is a high priority for playground replacement within the Milwaukee County Parks System. The safety surfacing material includes a portion of sand, which is the most maintenance-intensive surfacing material. Sand has potential safety issues associated with sand cleanliness, and does not provide any ADA accessibility. Playgrounds are ideally replaced at 20-year intervals to provide exciting, up-to-date, and accessible playgrounds that meet current safety standards and guidelines.

2021 Scope of Work:

The scope of work includes replacement of the play area involving removal of existing play equipment, installing concrete curb, new accessible playground equipment, benches, asphalt walks, signage, and poured in place safety surface. Replacement is with a new Class 3 playground.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WP727	Sub-Project No. WP72701	Sub-Project Title OAK LEAF TRAIL ZIP LINE SINKHOLE
-----------------------------	-----------------------------------	--------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The Zip Line is one of the most popular segments of the Oak Leaf Trail (OLT) with 356,167 average annual multi-use trips (counted at the southern end of the line over the last three years). It provides a direct, traffic-free connection from Estabrook Park to Brown Deer Park via an abandoned railroad right of way. These trips and recreational experiences are threatened due to a failing stone arch and culvert that is over 100-years old. A sinkhole above this failure has formed and the paved portion of the trail is closed requiring that trail users use the soft shoulder to get through this spot. By replacing the failing culvert and restoring the trail pavement, this trail repair will reopen a key link in the Oak Leaf Trail system and will ensure that hundreds of thousands of biking and walking trips continue by maintaining this key connection from downtown Milwaukee to the County line and to the Ozaukee Interurban Trail. Together, these trails create a 48-mile continuous off-road experience and connection from Milwaukee to Oostburg that is important for regional and state travel and tourism in addition to daily commuting and recreation. The trail intersects both predominantly white and predominantly black neighborhoods providing equitable job access, exercise opportunities, and affordable transportation from many suburbs to downtown Milwaukee. The Oak Leaf Trail is free and open to all with many entrance access points in this area.

2021 Scope of Work:

The scope of the project involves closure of the existing trail to allow excavation and removal of the existing failed stone arch culvert and replacement with a new large corrugated metal pipe. The large culvert size and required invert elevation have been determined by extensive hydraulic modeling to avoid back water or downstream water elevation changes during significant storm events. The design has been completed.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WP728	Sub-Project No. WP72801	Sub-Project Title HIGHLAND PARK PLAYGROUND REMOVE AND RESTORE
-----------------------------	-----------------------------------	-------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The Highland Park Playground is one of the oldest play areas in the Milwaukee County Park System, having been installed in 1992. As a playground with sand surfacing, it does not provide ADA accessibility and is labor intensive to properly maintain and keep clean. This structure has been observed by staff to have a low frequency of use, and is therefore proposed to be removed and restored to a greenspace that would more appropriately serve the corporate campus patrons that frequent the site, and reduce Parks operational costs. As a part of any such project to decommission a park asset, public outreach would be completed as a part of this project.

2021 Scope of Work:

The Highland Park playground equipment from 1992 has reached the end of its useful life. It is proposed to be removed and replaced with a Helios exercise station. Project will include playground demolition, turf restoration, a reinforced 12'x12' concrete pad, equipment installation and new asphalt path connections. A 24'x24' PIP rubber material with a concrete border is also included.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WP729	Sub-Project No. WP72901	Sub-Project Title BOERNER GARDEN HOUSE BOILER REPLACEMENT
-----------------------------	-----------------------------------	---------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The existing steam boiler in the Boerner Garden House is in need of critical repairs and overdue for replacement per records kept in the County's VFA database. The current steam boiler burner firing rate is higher than the calculated load causing short cycling. Due to the, age, condition, and complexity of the existing system it is more hazardous to work with than other options and therefore presents safety concerns.

2021 Scope of Work:

The scope of work includes design for the replacement of existing steam boiler with piping and steam radiation with a new hot water boiler along with new hot water piping and new radiation.

2022 - 2025 Scope of Work:

Installation of a new hot water boiler with piping and radiation and air conditioning with ventilation.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

Project No. WM051	Sub-Project No. WM05101	Sub-Project Title MPM-NORTH STAIRWELL STRUCTURAL WALL REPAIR
-----------------------------	-----------------------------------	------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The Milwaukee Public Museum (MPM) Facility north stair well and structure wall is original with the building. The building was built in the late 1960's. During a facility site inspection by MPM staff, a wall separation was discovered. The stairwell stature wall has many areas that have separated by more than two inches. This has exposed concrete and steel to the exterior and interior of the building. This area is directly under the main walkway into MPM from the guest parking garage. During rain events, water pours onto the main walkway and then into the museum from the parking garage. MPM staff has indicated this as a life safety issue and a slip and fall hazard for MPM guests. In the North Stairwell / Vestibule of the Milwaukee Public Museum deterioration of the bearing angle supporting the MacArthur Square concrete structural slab is a major concern of the museum. The second major concern is movement of the mezzanine's concrete floor slab. the mezzanine is located above the Men's and Women's toilet rooms behind the North Stairwell. Movement of the mezzanine's concrete floor slab has caused the ledge angle fasteners to pull out from the existing museum's foundation wall.

2021 Scope of Work:

The scope of the project includes construction for three parts: 1) Waterproofing at the juncture of the museum's foundation wall and the MacArthur Square structural concrete slab. 2) New bearing support for the MacArthur Square concrete structural slab replacing the existing deteriorated bearing angle. 3). Provide a new structural support for the mezzanine's concrete floor slab. The scope of work also includes temporary support of the MacArthur Square concrete structural slab and temporary support of the mezzanine's concrete floor slab during construction.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WZ119	Sub-Project No. WZ11901	Sub-Project Title ZOO ADVENTURE AFRICA - ELEPHANT EXHIBIT
-----------------------------	-----------------------------------	---------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

In 2016, the Milwaukee County (County) approved an agreement with Zoological Society of Milwaukee (ZSM) (File No. 16-463) to build Adventure Africa Phase 1-Elephant Exhibit. The 2017 Adopted Capital Budget included \$16.6M in funding with 50% from the ZSM. The original plan included a waterhole filtration system (\$1,050,000) for the exhibit, but was eliminated to reduce project cost. Benefits of waterhole filtration system include: 1.) Estimated water savings of 3.6 million gallons (or \$10,196 annually in water/sewer utility costs); 2.) Labor costs savings (approximately \$5,700) and reduced risk for potential injuries since staff will no longer need to enter confined spaces to fill and empty the waterhole; 3.) Labor cost savings (approximately \$5,405) for reduced pool cleaning; 4.) Clean (outside) drinking water for elephants.

2021 Scope of Work:

The scope of work includes complete architectural design services for the construction of the LSS Building and construction of the water filtration system. The preliminary budget estimate was developed by JP Cullen using the bid documents from the Elephant Exhibit bid package. Proposals were obtained from both HGA for Architectural Design Services and from CG Schmidt for Construction Management Services.

No work on the project shall proceed and no project costs will be incurred until the ZSM funding is committed, verified, and all related agreements have been approved by the County Board.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WS102	Sub-Project No. WS10201	Sub-Project Title CONTROL CENTER PANEL REPLACEMENT
-----------------------------	-----------------------------------	--------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The Division of Youth and Family Services (DYFS) is requesting this project to replace the existing hard-wired control panels in the Detention Center's Central Control as well as add card access control to doors within the Detention Center. Currently, doors are either left ajar or a Youth Correctional Officer (YCO) must wait for the control center to unlock the door.

The project would upgrade the existing system with new touchscreen control stations and a new security management computer. Badge readers would be used and a touch screen control panel would have the ability to identify who is using the badge and confirm identity. This will allow the YCOs to move freely through the doors with a badge reader.

2021 Scope of Work:

The scope of work includes planning and design to upgrade the existing Control Center with the current technology that includes a new security management computer. Badge readers will be utilized and a touch screen control panel will have the ability to identify who is using the badge and confirm identity.

2022 - 2025 Scope of Work:

The scope of work includes construction and implementation of the new Control Center and related systems.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WS126	Sub-Project No. WS12601	Sub-Project Title YOUTH SERVICES ADMIN RELOCATION AND TENANT IMPRV
-----------------------------	-----------------------------------	------------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The Department of Health and Human Services (DHHS) has been developing its "No Wrong Door" customer service approach. This emphasizes internal coordination between divisions at the "front door" through a DHHS intake/enrollment team, system navigators and peer supports, as well as crisis response. DHHS is undertaking steps to first integrate its Children's Services – Wrap and Children's Services/Community Services areas in the Disabilities Services Division (DSD) and Division of Youth and Family Services (DYFS). For 2021, Phase 1 of the project reflects approximately 230 staff from BHD Administration, Community Access to Recovery Services (CARS), Mobile Crisis, Fiscal, Quality Assurance, Contract Administration, and the new Children's Integration Unit (Wrap, Disabilities Services – Children's Programs and Division of Youth & Family Services – Community Programming).

2021 Scope of Work:

Project will include build-out of space in existing County facilities or in leased space, moving of staff, furniture and equipment. Anticipated build out and relocation completed by the end of 2022 at the latest.

Lease agreement negotiations have not started. It is not known if tenant improvements (estimated at \$1.6 million) will be financed with appropriations in the capital budget or negotiated into the lease payments. As a result, the budget authority and revenue source for such tenant improvements shall be created with the appropriate approvals upon completion of signed/executed lease agreement(s), if necessary.

2022 - 2025 Scope of Work:

The 2022 Budget anticipates either the cost of a buildout and relocating staff currently housed at the Marcia P. Cogs Center to another location or the renovation of the Cogs Center.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WC209	Sub-Project No. WC20901	Sub-Project Title FORENSIC SCIENCE CENTER-PHASE 2
-----------------------------	-----------------------------------	-------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

Concerns with the existing Medical Examiner (ME) facility are well documented, and in 2019 the Board agreed to address the needs through a new facility. The new facility is to be located on the grounds of the Milwaukee Regional Medical Center and built in cooperation with the Medical College of Wisconsin (MCW). The Office of Emergency Management (OEM) also requires relocation and would benefit from adjacencies with both the ME and MCW. The 2019 Adopted Capital Improvement Budget included an appropriation of \$940,262 (capital project WC21401) for the initial tenant fit-out planning and design and base building final design (with Landlord) for a new Forensic Science Center to house the ME and the OEM. The 2020 Adopted Capital Improvement Budget included an appropriation for \$11,191,328 for planning and design, in cooperation with the MCW and their design team, and start of construction activities. While the relationship with MCW as developer of the property is underway, 2021 capital funds provide continued demonstration of the County's commitment to the project.

2021 Scope of Work:

The 2021 scope of work includes finalization of development agreement/lease.

2022 - 2025 Scope of Work:

Tenant fit-out construction, procurement and installation of furniture-fixtures-equipment (FF&E), relocation of operations, and decommissioning existing facilities.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WC216	Sub-Project No. WC21601	Sub-Project Title CH COMPLEX IMPROVEMENTS-CJF CAULKING PHASE 2
-----------------------------	-----------------------------------	--------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The Criminal Justice Facility (CJF) was built in 1992 and has an exterior façade clad with cut limestone panels from the first floor through the third floor. Floors four through eleven are clad with matching architectural precast concrete panels. The existing sealant joints between panels are deteriorated and in need of replacement to prevent water infiltration. This project has been divided into two phases. Phase one has commenced and is scheduled for completion in spring of 2020. Phase one includes replacing all existing exterior sealant joints located between the architectural precast panels on the façade of the CJF. Exterior joint replacement includes removal of existing joint material, prep joint, install new joint filler as needed, new backer rod (compression seal) and polyurethane sealant (tooled finish). Phase two of the caulking project completes the remainder of the CJF exterior joint sealant replacement project. The scope of work is similar in nature to phase one but covers significantly more surface area.

2021 Scope of Work:

The scope of work includes planning, design, and construction related to exterior joint replacement includes removal of existing joint material, prep joint, install new joint filler or backer rod (compression seal) and polyurethane sealant (tooled finish).

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WC217	Sub-Project No. WC21701	Sub-Project Title CH COMPLEX FACADE INSPECT & REPAIR-PHASE 3
-----------------------------	-----------------------------------	----------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

This requirement consists of masonry repairs at various locations of the Courthouse façade as indicated in the 2016 façade inspection report created by Klein and Hoffman. Phase 3 includes the permanent repairs to the "make-safe" repairs completed in 2017. Due to the extent of the required repairs, a phased approach is necessary to complete all of the work identified in the 2016 report.

2021 Scope of Work:

Design for Phase III includes a range of façade repairs at the southern third of the east elevation and at the south elevation. Design will include repair of the three main entrances at the center of the east elevation. The façade areas to be repaired in Phase III were noted to have a moderate concentration of stone deterioration. The recommended scope of repairs includes: 1) Repair and/or replacement of deteriorated stone at four main entrances, including one at the south elevation, and three at the center east elevation. 2) Replacement of the built-in copper gutter at the sixth floor cornice of the south elevation. 3) Replacement of deteriorated stones which appear to have been damaged during a previous cleaning effort. 4) Repair or replacement of isolated cracked, spalled, or otherwise deteriorated stones. 5) Replacement of sealant at upward facing joints 100%. 6) Replacement of window perimeter sealant 100%.

2022 - 2025 Scope of Work:

Construction activities are anticipated for 2022. Additional phases are included in the out-years of the Five-Year Capital Improvements Plan under project WC18401-CH Complex Facade Inspect & Repair-Plan Plchld.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WC219	Sub-Project No. WC21901	Sub-Project Title CH COMPLEX FIRE ALARM REPLACEMENT
-----------------------------	-----------------------------------	---------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The Courthouse Complex fire alarm system is an addressable system that also includes building automation and security functions. The head-end equipment is located in room B48 of the Courthouse and the system includes interfaces within most of the Courthouse Complex buildings. Head-end equipment is in need of replacement along with the remote system panels throughout the complex. Currently, repair parts for the system panels are not available. The intention of this project is to modernize the existing fire system and separate building automation within the interface. This project addresses VFA requirements 36680/46441/36704. The Fire Alarm system is considered to be end of life and requires upgrading. The 2020 Adopted Capital Improvement Budget included an appropriation for planning and design.

2021 Scope of Work:

The scope of work includes installation of a new (addressable) fire alarm system for the Courthouse Complex buildings (which includes building automation and security functions (needed for FPA 72 compliance)).

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WG035	Sub-Project No. WG03501	Sub-Project Title VEL PHILLIPS ROOF REPLACEMENT
-----------------------------	-----------------------------------	-----------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

This roof section described in this narrative is located above the rotunda area of Vel Philips and was renewed in 1994. Multiple failures have been realized resulting in numerous repairs over the last 5 years. Failures identified in the 2018 roof inspection report created by Velcheck and Finger includes evidence of water infiltration under blistering membrane in multiple locations, multiple valley failures, elastomeric failure and moisture evidence in core samples. Roof System Description: This system consists of the modified bitumen built-up roofing system with deck insulation and Alumicoat (or similar) top coating at the circular folded plate roof section.

The 2020 Adopted Capital Improvement Budget included an appropriation for planning and design.

2021 Scope of Work:

The scope of work involves replacing the existing roof system on the rotunda portion (Unit 'B') and the gym roof of the Vel Phillips Justice Center. This includes tear off of the existing roof (to deck) and installation of a new roof system.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

Project No. WJ112	Sub-Project No. WJ11201	Sub-Project Title HOC ADMIN BUILDING ROOF REPLACEMENT
-----------------------------	-----------------------------------	-----------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

Deteriorated roof that requires replacement. The House of Correction (HOC) Administration Building roof (26,102 sq/ft in area) was installed in 1994, is now failing and requires replacement versus temporary repairs due to age and being beyond it's useful life. There has been periodic repairs to the roof due to constant leak issues. A core sample revealed saturated insulation on north end of roof and a recent estimate indicated the HOC needs to make emergency roof repairs with an estimated repair cost of \$3,400 until the roof can be replaced. The estimate indicated the roof had an overall condition score of D (membrane and flashings had a score of D and sheet metal had a score of F). The estimated remaining service life is 2 to 4 years.

2021 Scope of Work:

The scope of work includes planning and design for the replacement of the HOC Administration Building roof.

2022 - 2025 Scope of Work:

The scope of work includes construction of the roof.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

Project No. WO217	Sub-Project No. WO21701	Sub-Project Title PHONE AND VOICEMAIL REPLACEMENT
-----------------------------	-----------------------------------	-------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The Department of Administrative Service - Information Management Services Division (IMSD) staff has indicated that Milwaukee County (County) is at a critical point with its aged/non-supported phone system (affecting the Courthouse, Children's Court, BHD, Coggs, House of Corrections, and Zoo). To mitigate the risk of catastrophic failure, the phone system must be replaced. Most phone systems are outdated and licenses for new subscriber lines can't be added. Without immediate replacement or substantial upgrade, IMSD will be unable to implement new collaboration technologies or support additional users. New phone system technology will enable cost savings associated with scaling, shifting service/locations, long distance charges, conference calling and basic phone service contract negotiation. Previously approved appropriations replaced critical components and contract implementation support for 55 locations and ~6000 legacy phone system(s) throughout the County. This request will complete the project.

2021 Scope of Work:

The scope of work includes completion of CJF and Safety building which was planned in 2020 but experienced some delays and additional complexities due to COVID. Funding also includes cabling costs based upon updated design information and vendor quotes. Scope of work also includes phones at BHD community facilities and locations based upon approved facility master plans.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

Project No. WO551	Sub-Project No. WO55101	Sub-Project Title CJIS REMEDIATION
-----------------------------	-----------------------------------	----------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The Public Safety divisions of Milwaukee County utilizes several mission critical systems which store Criminal Justice Information (CJI). Systems that store CJI must comply with FBI CJIS Security Requirements, which establishes the minimum standard of security requirements to ensure continuity of information protection. The essential premise of the CJIS Security Policy is to provide the appropriate controls to protect CJI, from creation through dissemination; whether at rest or in transit requirements has certain requirements for the treatment of CJIS information in how it is processed, transmitted and stored. During a recent meeting, the State of Wisconsin Department of Justice found that Milwaukee County was deficient in several areas of processing, transmitting and storing of CJIS information, which will require technology, processes and procedures to accommodate the DOJ and retain accreditation for running a jail facility. Failure to remediate these issue could result in sanctions, including fines as well as disabling access to critical state and federal systems, which are essential for continued operation. This project will work to remediate the identified deficiencies.

2021 Scope of Work:

Scope of the proposed project will address remediation of issues identified during a state CJIS audit to ensure the county complies with CJIS Security policy. This includes network equipment and professional services to encrypt traffic in transit over the county WAN as well as CJI data at rest at the county's offsite contracted data center in Madison. This is to ensure full encryption for any CJI data that flows through the county network as well as data in databases and file servers. A project manager and BA will be hired to ensure the project requirements are met and to provide adequate project oversight and management.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

MILWAUKEE COUNTY**

Project No. WO647	Sub-Project No. WO64701	Sub-Project Title ENTERPRISE PLATFORM MODERNIZATION-PHASE 3
-----------------------------	-----------------------------------	-----------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

Enterprise Platform Modernization-Phase 3 Enterprise Resource Planning (ERP) is business management software consisting of a set of integrated applications to consolidate common business operations. This is the foundational piece of software that is the backbone to Milwaukee County (County) enterprise functions. Milwaukee County is in the process of implementing the base software package and is represented by adopted capital projects WO60201 (Phase 1) and WO54601 (Phase 2).

Capital project WO64701-Enterprise Platform Modernization-Phase 3, represents the additional functionality and enhancement for usability, supportability, process efficiency, software fixes, and additional functionality.

2021 Scope of Work:

Scope of work includes completion of the product roadmap and strategy for finance, human resources, and Supply Chain software components after Phase 1 and Phase 2 implementations is deployed. It also includes software fixes and functionality to provide additional up-front error-proofing, eliminate manual dual entry between systems, and provide additional reporting capabilities.

2022 - 2025 Scope of Work:

Additional software fixes and functionality that may be needed.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

Project No. WO340	Sub-Project No. WO34001	Sub-Project Title FLEET GENERAL EQUIPMENT-2021
-----------------------------	-----------------------------------	----------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

General vehicle and equipment replacement. Debt for equipment acquisitions will be included in the County's short-term debt issues for vehicles and attachments. The actual costs, including interest paid, will be charged to user departments which is a continuation of the County's practice adopted as part of the 2010 Budget. User departments are required to turn in a comparable piece of equipment, as identified by the Director of Fleet Management, for each unit that is replaced. User departments will not be allowed to keep vehicles and equipment that exceed their established allotment. This project is primarily for Highway, Fleet Management, District Attorney, Behavioral Health, Facilities Management, Medical Examiner, and Zoo.

2021 Scope of Work:

This is an ongoing project to replace vehicles and equipment at the end of useful life. A detailed list of equipment to be replaced is included on the following page.

2022 - 2025 Scope of Work:

This is an ongoing project to replace equipment at the end of its useful life. The 5-Year Capital Improvement Plan includes general vehicles and equipment as part of capital project WO31501 for years 2022 through 2025.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

**2021 CAPITAL IMPROVEMENTS BUDGET
MILWAUKEE COUNTY**

Project No. WO341	Sub-Project No. WO34101	Sub-Project Title FLEET HOC EQUIPMENT-2021
-----------------------------	-----------------------------------	------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

Vehicle and equipment replacement for the House of Correction HOC. Debt for equipment acquisitions will be included in the County's short-term debt issues for vehicles and attachments. The actual costs, including interest paid, will be charged to user departments which is a continuation of the County's practice adopted as part of the 2010 Budget. User departments are required to turn in a comparable piece of equipment, as identified by the Director of Fleet Management, for each unit that is replaced. User departments will not be allowed to retain vehicles and equipment that exceed their established allotment.

2021 Scope of Work:

This is an ongoing project to replace vehicles and equipment at the end of useful life. A detailed list of equipment to be replaced is included on the following page.

2022 - 2025 Scope of Work:

This is an ongoing project to replace equipment at the end of its useful life. The 5-Year Capital Improvement Plan includes general vehicles and equipment as part of capital project WO31701 for years 2022 through 2025.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WO169	Sub-Project No. WO16901	Sub-Project Title TRAINING ACADEMY ROOF REPLACEMENT
-----------------------------	-----------------------------------	---------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The 2016 VFA asset detail report lists these items as a level 4 priority (recommended) for December of 2021. Replacement before failure is desired to ensure planned replacement allows for regular operations. The existing modified bitumen roof system that has deteriorated to the point of needing replacement. The existing roof area is approximately 24,000 s.f. It is well beyond its useful life. The existing roof system is failing and now requires replacement. There are multiple leaks and temporary patches are common.

2021 Scope of Work:

The scope of work includes planning and design for replacement of the Training Academy Building roof.

2022 - 2025 Scope of Work:

The scope of work includes construction for replacement of the Training Academy Building roof.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WO485	Sub-Project No. WO48501	Sub-Project Title POD 4D SUICIDE WATCH BARRIER
-----------------------------	-----------------------------------	----------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The Criminal Justice Facility (CJF) was opened in 1992. The Mental Health Unit (MHU), which is within the CJF, was designed as a location to house inmates with acute mental illness and inmates who are on suicide watch that need to be monitored more regularly than other inmates. MHU has only 19 cells, which is no longer enough to safely house inmates with these issues. There are regularly over 10 inmates with severe mental illness, and over 20 inmates who are on suicide watch that need regular monitoring. With the exception of the Special Medical unit and MHU, there is no other area in the jail for the safe housing of suicide watch inmates due to the existence of second tier in all other housing units. Inmates who are on suicide watch status cannot be left alone in a unit where they would have the ability to jump off a second level. A second level permanent see-through barrier in pod 4D (Sub pod D) would allow staff members to continually monitor inmates while prohibiting the potential of suicide by jumping. The railing will allow surveillance from the control desk and take into consideration adjacent HVAC, lighting and fire protection systems.

2021 Scope of Work:

The project scope includes planning and design for a suicide watch barrier. This may include (but is not limited to) new guardrails for the balconies in Pod 4D of the CJF.

2022 - 2025 Scope of Work:

Construction phase of the project.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WO654	Sub-Project No. WO65401	Sub-Project Title SECURITY BARRIERS - SAFETY BUILDING 6TH FLOOR DA
-----------------------------	-----------------------------------	------------------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

Safety Building, Room 615 is an access point to the District Attorney's office located in the northeast corner of the building on the sixth floor. Victims and witnesses, as well as the public, enter the offices at Room 615. Presently, there are no barriers that prohibit a visitor from roaming the entirety of the northeast quadrant of the sixth floor, all occupied by DA staff. In the event of an Active Shooter, by entering SB615, the shooter would have access to no less than thirty-one (31) persons who work in that area. This project will create a security perimeter or barrier that separates the public access point from the DA staff in the northeast quadrant of the Safety Building.

2021 Scope of Work:

The scope of work includes planning and design for a security perimeter in the Safety Building, Room 615 in the District Attorney's area.

2022 - 2025 Scope of Work:

The scope of work includes construction of the Security Barrier.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

2021 CAPITAL IMPROVEMENTS BUDGET MILWAUKEE COUNTY

Project No. WO535	Sub-Project No. WO53501	Sub-Project Title WAR MEMORIAL GRN PRINT PH 1
-----------------------------	-----------------------------------	---------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

In 2018, approved County Board resolution #18-92 (resolution) created new project WO535 and transferred budget authority from the existing WMC North Parking Lot project (WO517). The resolution approved acceptance of grant funding (\$929,492) Grants are unable to be extended or amended in order to keep the project within its original budget. The 2020 Adopted Capital Budget included an appropriation of \$800,000 to cover additional costs related to: 1.) Changes to in/out traffic patterns of the War Memorial North Lot on Lincoln Memorial Drive (requested by City of Milwaukee planning); 2.) Additional bike path/pedestrian connections that are required for circulation of large numbers of people in that small area, and additional liners required on grades due to contaminated soils found. The scope of the project includes construction for the (already designed) intersection changes where the War Memorial Center drive meets Lincoln.

Additional funding is needed to address increased costs related to: New DNR requirements for removal, disposal and capping of any disturbed turf along the Lakefront infill area.

2021 Scope of Work:

The scope of work includes construction for DNR requirements for removal, disposal and capping of any disturbed turf along the Lakefront infill area related to: 1.) Changes to in/out traffic patterns; 2.) Additional bike path/pedestrian connections at the War Memorial Center.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WO643	Sub-Project No. WO64301	Sub-Project Title WAR MEMORIAL CENTER - FLOOD MITIGATION
-----------------------------	-----------------------------------	--------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

Two storm inlets under the Mason Street Bridge occasionally back up and flood portions of the War Memorial and potentially the Art Museum. Record high lake levels increase this flood risk. In January 2020, the storm sewer backed up and flooded storage rooms, switch gear rooms, and more. A current Army Corps of Engineers report anticipates that lake levels remain above average for most of 2020, with the potential for levels above the existing record levels set in 2019. A large flooding event has the potential to flood the Art Museums art vault, which houses irreplaceable works of art valued at approximately \$800 Million. A large flooding event could inundate the main power supply and backup generator that provide power to both the War Memorial and Art Museum. Extended power loss could result in significant damage to the Art Museum's collection.

2018 Sigma Consulting Report: Eliminate flood risk in War Memorial basement and Milwaukee Art Museum as evaluated in the Sigma Group report "War Memorial Center Facility Localized Flooding Evaluation Report" (October 18, 2018).

2021 Scope of Work:

The scope of work includes design and construction phases to eliminate storm sewer backup within the WMC and under the Mason Street Bridge.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WO655	Sub-Project No. WO65501	Sub-Project Title WMC (SAARINEN BLDG)-SWITCHGEAR RPLCMNT
-----------------------------	-----------------------------------	--------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The existing electrical distribution equipment in the Saarinen building feeds power to the entire campus of the War Memorial Center and Milwaukee Art Museum. The equipment is original to the building, unchanged from its 1955 construction and installation. Per an analysis done December 2019 by Leedy & Petzold Associates, consulting electrical engineers, the typical design life for electrical distribution equipment is approximately 30 years. Replacement breakers and parts may not be readily available and will be more expensive and difficult to obtain. Electrical systems components, as they age, may deteriorate over time and lead to failure. The electrical consultants determined the equipment to be currently functional but obsolete. Extended power loss could result in significant damage to the Art Museum's collection.

2021 Scope of Work:

The scope of work includes replacement of the obsolete 60 + year old breakers in Substation #4 of the War Memorial Center - Saarinen building and requires a new 3000 Amp Switchboard including busway, and electrical upgrades as needed to meet current codes.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Project No. WO889	Sub-Project No. WO88901	Sub-Project Title PEDESTRIAN PAVEMENT REPLACEMENT (2021)
-----------------------------	-----------------------------------	--------------------------------------------------------------------

2021 Sub-Project Addresses the following item/issue:

The pedestrian pavement around the Marcus Center is deteriorating. The replacement of the pavement is part of a phased approach and integrated into the Marcus Center's campus masterplan. The project is included in the annual County Capital Support agreement with the Marcus Center (Adopted County Board resolution #16-214).

2021 Scope of Work:

The scope of work includes replacement of concrete walk at various locations around the Marcus Center campus, replacement of the drive lane and island on the east side along Water Street and placement of protective pedestrian safety and access bollard. The walks and drive lane are proposed to utilize colored concrete.

2022 - 2025 Scope of Work:

None.

Any surplus appropriations available upon completion of an approved project must be lapsed at year-end. Surplus appropriation shall not be used to expand an approved project scope without the approval of the County Board of Supervisors and the County Executive. Adjustments to reduce the project scope shall be made, as necessary, in order to not exceed authorized budget appropriation(s).

Highest Total Possible Score (Criteria PTS x Dept Ranking):	56.9

Capital Improvements Committee Scoring Detail

NOTE: Requested capital projects that are mandated (State, Federal, Local, Court Ordered), fulfill contractual obligations, and/or are continuing projects from the previous adopted budget year(s) receive the maximum score of 56.94. However, continuing capital projects with incomplete design are moved to a subsequent budget year pending completion of design.

ADA Code Compliance

Existing facility areas and attributes that are currently non-compliant with ADA are "Grandfathered" until or unless there is a significant remodel or reconstruction to the non-complying facility area and attribute(s) OR a complaint is formally issued with County's OPD to ensure that reasonable accommodations are being met.

Building Code Compliance

Existing facility areas and attributes that are currently non-compliant with Building Codes are typically "Grandfathered" until or unless there is a significant remodel or reconstruction to the non-complying facility area and attribute(s).

COUNTY OF MILWAUKEE
Inter-Office Communication

DATE: September 8, 2020

TO: Marcelia Nicholson, Chairwoman, Milwaukee County Board of Supervisors
David Crowley, County Executive

FROM: Scott B. Manske, Comptroller/Capital Improvements Committee Chairman

SUBJECT: 2021 - 2025 Capital Improvements Projects

Pursuant to Chapter 36 of the Milwaukee County Code of General Ordinances, the Capital Improvements Committee (CIC) is to review departmental requests for capital improvements, establish a priority for each capital project based upon established criteria, and develop a countywide Five-Year Capital Improvements Plan (5YR CIP).

At its July 21, 2020 meeting, the CIC adopted a design first approach that shifted most requested construction appropriations for projects from 2021 to later in the 5YR CIP.

At its meeting on August 28th, 2020, the CIC recommended the attached 2021 - 2025 5YR CIP including:

- Airport projects totaling \$5.9 million (pgs. 3 - 7), which will be separately financed with airport rates and charges.¹
- Non-Airport projects totaling \$46.9 million (\$35.3 million of bonds and \$11.6 million of cash) are recommended for inclusion in the 2021 capital budget² Projects NOT recommended for inclusion in the 2021 budget total \$83.8 million (\$47.0 million of bonds and \$36.9 million of cash).³ The recommended bond amount of \$35.3 million is \$10.9 million below the bonding cap of \$46.3 million. The variance is primarily driven by the lack of projects with completed design. The funding detail is included on pages 11 - 23.
- The 2022 - 2025 requested projects (pgs. 27 – 45) are listed in order of Department priority. Those future year requests significantly exceed anticipated available funding. Future CIC reviews will annually evaluate and recommend projects for each annual capital improvements budget.

¹ Airport capital projects are typically locally funded with general airport revenue bonds, airport reserves, and passenger facility charges. In this case, revenue bonds will not be issued as adequate reserves are available to cash fund the projects.

² County financing of non-airport capital projects is primarily provided from general obligation bonds/notes, and cash which comes from sales taxes, property tax levy, and vehicle registration fees.

³ Project WSI2601 Youth Services Admin Relocation and Tenant Improvements included \$3.8 million from the Behavioral Health Division Capital Reserve.

Project costs (and/or County financing) adjusted based on updates from the REQ Dept(s) and/or additional contract/legal agreement review.

*2021 Construction cost estimate is not based on a completed design. Construction appropriation moved to 2022 to allow for design completion in 2021.

Dept REQs made in August (after the June 30th deadline to DAS).

Additional Notes:

- I. Construction Phase moved to 2022 based on discussions with DOT Management and level of design completion.
- II. From August 21st Dept testimony, DASED review indicates County is responsible for 1/3 of the total project cost (\$459,999). As a result, the County funding was reduced to \$153,333
- Comp Counsel Memo Options (agenda item #3, legal opinion):
 1. Adhere to the terms of the 2013 Development Agreement, which caps the County's contribution to the project at \$200,000; or
 2. Follow the path outlined in the 2017 condominium agreements to assess the need of the project, determine the scope, and establish how the costs will be split among the Unit Owners at the next Meeting of the Condominium Board.
- III. Based on discussions with DHHS staff, current design and location may not be located @ the Val Phillips Juvenile Justice Center. There may also be some uncertainty with the State's plan.
- IV. Due to the significant life-safety nature of the project, MCDOT is submitting a September 2020 appropriation transfer (from Contingency - Org 1945) to begin design. The 2021 REQ was updated to reflect the construction phase in anticipation of a completed design in the next few months (assuming the September 2020 appropriation transfer is approved).
- V. Based on conversation with Zoo staff, funding adjusted to 50/50. Project start and spending can begin pending Board approval of any required contract modification(s) and verification of Zoo Society funding.

VII_Updated 2021 REQ from Dept reduces BONDS to \$1.1M and CASH is reduced to \$0 (non-bond eligible project costs shifting to 2022/2023... i.e. relocation costs, furniture/fixtures/equipment). VII_Design appropriation made in a previous budget. Updated Design is 100% complete as of 8-12-10. Therefore, dept is requesting 2021 construction appropriation. VIII_AE discussion of cost increases from 8-24-20 memo/report to CIC. DAS-FM has been working with the MAM/WMC and a planning consultant to prepare a refined cost estimate for this work. In general, the scope of work and cost sources are listed below, and a summary cost provided. We recommend carrying a contingency of 20% as actual costs for some of the equipment are being carried as allowances, and while these values are based on previous and similar work, the marketplace, especially for pumps and controls, is not as predictable due to high demand. The scope of work includes:

Subtotal:								\$28,252,100					17,634,808	19,440,460	243,800	11,508,222	59,999,286

Project costs (and/or County financing) adjusted based on updates from the REQ Dept(s) and/or additional contract/legal agreement review.

2021 Construction cost estimate is not based on a completed design. Construction appropriation moved to 2022 to allow for design completion in 2021.

Projects that may be eligible for Federal CARES Act funding.

Additional Notes:
 L_Scored as A1, but is pending MAANDATE documentation from DAS-IMSD.

II. DHHS indicated \$1.672M as potential tenant improvement allocation... as this is an assumption and not committed, the \$1.672M is included as County Cash. Additionally, there is \$882,871 (undated by DHHS staff to \$900K @ 2-28-20 CIC mty) of County Cash included that comprises the total \$2.55M County commitment. BHD reserves of \$3.76M are included in the total project costs, but is not counted toward the County Cash portion as it is not Sales Tax or Tax Levy. Therefore, total project costs REQ for 2021 are \$6.3M.

III Updated 2021 REQ from Dept reduces BONDS to \$11M and CASH is reduced to \$0 (non-bond eligible project costs shifting to 2022/2023... i.e. relocation costs, furniture/fixtures/equipment).

IV_ Construction Phase moved to 2022 based on discussions with DOT Management and level of design completion.

V_ Based on discussions with Shrf and HOC staff, assessment of both kitchens and food service provided by HOC and Shrf will be done with existing appropriations (pending fund transfer to change bond financing to cash financing of \$99,226). Anticipate future budget appropriation request for design and construction upon completion of the assessment.

VI_ Although design is currently on-going (from a previous budget appropriation), this project presents a life-safety component that should be addressed within the 2021 capital budget.
