**DESCRIPTION OF FISCAL EFFECT**

**In the space below, you must provide the following information. Attach additional pages if necessary.**

- A. Briefly describe the nature of the action that is being requested or proposed, and the new or changed conditions that would occur if the request or proposal were adopted.
- B. State the direct costs, savings or anticipated revenues associated with the requested or proposed action in the current budget year and how those were calculated. <sup>1</sup> If annualized or subsequent year fiscal impacts are substantially different from current year impacts, then those shall be stated as well. In addition, cite any one-time costs associated with the action, the source of any new or additional revenues (e.g. State, Federal, user fee or private donation), the use of contingent funds, and/or the use of budgeted appropriations due to surpluses or change in purpose required to fund the requested action.
- C. Discuss the budgetary impacts associated with the proposed action in the current year. A statement that sufficient funds are budgeted should be justified with information regarding the amount of budgeted appropriations in the relevant account and whether that amount is sufficient to offset the cost of the requested action. If relevant, discussion of budgetary impacts in subsequent years also shall be discussed. Subsequent year fiscal impacts shall be noted for the entire period in which the requested or proposed action would be implemented when it is reasonable to do so (i.e. a five-year lease agreement shall specify the costs/savings for each of the five years in question). Otherwise, impacts associated with the existing and subsequent budget years should be cited.
- D. Describe any assumptions or interpretations that were utilized to provide the information on this form.

**RESPONSE:**

A. Our stipulated agreement with the State requires conformance to NR 208 which requires an annual acknowledgement of the County's efforts to manage and maintain its sanitary sewer collection system. This is referred to as a CMAR Report (Compliance Maintenance Annual Report).

B. Milwaukee County has spent approximately 5.9 million dollars on sanitary sewer infrastructure improvements and CMOM (Capacity Management, Operation, and Maintenance) Program activities since 2005. The ongoing inspection, televising, field investigation, mapping, planning, management, and reporting of the sanitary sewer collection systems within the county owned facilities requires an annual operating budget allocation totaling \$55,000 from the departments for staff time, as detailed in the attached estimate, and an additional \$60,000 for televising. The CMOM Program identifies capital improvement projects each year with the 2022 work estimated to be \$165,000.

C. The operation and capital budgets for 2021 are sufficient to perform the tasks associated with a continuous CMOM program. The annual operational costs are expected to increase in the next five years due to inflationary effects. Capital improvement costs will be estimated annually to address infrastructure projects identified in the CMOM Program.

D. None.
