What good are body cameras worn by law enforcement, if we have no clear policy in place to guide processes for video/footage release? Please support Resolution (File No. 23-744) so that we in Milwaukee County will be able

to see a thoughtful Video Release Policy aligned with what was approved by the Fire and Police Commission put into place. Thank you.

The deputies of the Milwaukee County Sheriff's Department have served Milwaukee county residents, travelers, & guests diligently for decades. Now that digital video is readily captured & distributed it is necessary that the MCSO update & clarify its release policy of footage collected by body-worn cameras — especially in the event that an encounter between a member of the MCSO & a civilian results in a civilian's injury or death. Deputies of the MCSO are highly professional & can be trusted to carry out their job responsibilities — it's time that Milwaukee County starts supporting public trust of the MCSO & its member employees by developing clear & enforceable standards of practice for the Sheriff's Office. In the event that the MCSO fails to meet those standards, steps can be taken to ensure accountability — but I believe that the MCSO is more than capable of meeting such standards like those laid out in the resolution.
