RFP done?

Background:

7201 W Good Hope Rd.

Milwaukee

IL-1

Industrial

Since 2002

Yes

Yes

Yes, and no submissions received

In 1994, Milwaukee County entered into a lease with the MKSC. Since the original lease, there have been four subsequent amendments. The MKSC leases the real estate, building and certain other improvements at 7101 West Good Hope Road from Milwaukee County (Parcel that is adjacent to this one). The County is the owner of the real estate and the buildings on the premises. In 2014, the MKSC exercised its option to renew the lease. The first renewal term began on November 1, 2014 and ends on October 31, 2029. The current lease permits the MKSC to renew the lease under the same terms and conditions for two additional 15 year periods. The Melody Top parcel was part of the Leased Premises at the time and MKSC originally hoped to develop the parcel, but the topography did not allow for development. The Fourth Amendment to the Lease removed the Melody Top parcel from the Leased Premises, but reserved parking rights for MKSC. In December 2019, the Milwaukee County Board of Supervisors adopted Resolution 19- 959 (“Resolution”). The Resolution directed Parks with the Department of Administrative Services (“DAS”), the Office of the Comptroller, and MKSC to explore the mutual benefits of Milwaukee County financing an indoor, full-sized soccer field and sports facility (“Indoor Sports Dome”) at Uihlein Soccer Park (“USP”). The County would be repaid by MKSC. The feasibility of the partnership was to be presented to the County Board during the March 2020 meeting cycle, but due to the pandemic the file was never heard. MKSC continued to pursue all avenues for development of the Indoor Sports Dome and this current offer to purchase the Melody Top parcel by a developer is the result. The offer to purchase is for \$500,000 and one of the contingencies is that MKSC needs to relinquish any rights identified in its lease with Milwaukee County Parks to the Melody Top parcel. During the December 2022 Board Meeting Cycle, Parks asked for the authorization to amend the lease in order to execute the amendment removing reference/requirements related to the Melody Top Parcel. Parks approved that request, allowing us to move forward with the sale. Economic Development is handling the sale of Melody Top (7201 W Good Hope Rd) due to it being zoned Industrial. Melody Top was originally acquired by the County in 2002. We purchased the property for approximately \$118,000. The County did do a formal RFP for this site back in 2016 with no offers submitted. It was shown that there was contamination at Melody Top in a Phase II Environmental Assessment back in 1994 which show definite remediation needs at the Melody Top site if it would be used for more activities. In our professional opinion, taking all of these factors into consideration, \$500,000 purchase price is justifiable for this site.

RFP done?

Background:

MILWAUKEE COUNTY IN

1315 Nicholson Ave
South Milwaukee
Residential
Since 2014

No-limited to recreation and open space
N/A-No Environmental Studies Have been Done
Yes, 1 submission received back in 2020 but buyer withdrew

1315 Nicholson Ave is a property the County foreclosed on due to non-payment of taxes back in 2014. This property shares the same address as the church SW to it, but has its own tax ID. The property is limited to recreation and open space, not including off-street automobile parking. Because of the location it is not that marketable. We had received one other submission back in 2020 which the buyer withdrew from once doing more investigating that the site is not buildable. It needs to be regraded to be usable as any sort of field for play sports. The interested buyer has talked with the City of South Milwaukee and said this would require plans getting approved by the City Engineer, which does not guarantee he could use it as he intends to, which is a soccer field especially since there is a drainage system in the right of way. On top of having the property physically graded, a survey needed, plans drawn by an engineer and for the property to be staked. The original appraisal we had done did not take these into account. We are having a new appraisal completed to take these items into consideration when coming up with an appraised value. The purchase price is justifiable given this information, and would allow the county to recoup some of the back tax losses and generate tax revenue moving forward. Below is a map of the site which shows it is land locked.

Buildable Lot?

Any Environmental Remediation Needed:

RFP done?

Background:

1606 S 59th St
West Allis
Residential
Since 2016

Yes, but due to how narrow the lot is, would take a creative developer

N/A-No Environmental Studies Have been Done

Yes, listed on MLS and no submissions received

1606 S 59th St was foreclosed on by the County back in 2016 due to non-payment of taxes. The property was listed on MLS for over 300 days. Due to how narrow the lot is, it would take a creative developer to build a house on it. The neighbor who lives adjacent to the lot has submitted an OTP because she wants to extend her lot line and put in a garden at this lot.

Zoning Classification: Name

How Long MC has owned this parcel:

Buildable Lot?

Any Environmental Remediation Needed:

RFP done?

Background:

1928 S 62nd St.
West Allis
Manufacturing
Since 2018

Yes, but remediation would need to be completed

Yes-Wisconsin DNR Bureau of Remediation and Redevelopment Tracking Systems identifies the subject as an open Environmental Repair (ERP) site.

Yes, 2 other offers received but backed out once they realized the Environmental Concerns

1928 S 62nd St. was foreclosed on by the county in 2018. The site has ultimately a negative market value due to the high cost of remediation needs that would need to happen. Other buyers had tried to purchase this site for parking, but the City of West Allis will not allow re-zoning of this site for parking. According to the Site Investigation and Preliminary Remedial Action Options Report prepared by AECOM Technical Services, Inc and obtained from the WDNR BRRTS database, the total contamination remediation costs range from \$250,000 to \$970,000 with the most cost effective being concluded at \$370,000. Other than the remediation concerns at this site, the site has been a consistent nuisance property with people leaving stolen vehicles here and trash. Our landscaping company has communicated with us that they sometimes don't even feel safe going to this site. The interested buyer owns a company adjacent to this site, and our professional opinion is that selling this site for \$1 is justified given all of these points.

Exhibit E

52 Burnham

Property Information

Property Street Address

Property City

Zoning Classification: Name

How Long MC has owned this parcel:

Buildable Lot?

Any Environmental Remediation Needed:

RFP done?

Background:

52 Burnham
West Allis
Manufacturing
Since 2017

Yes, but remediation would need to be completed

Yes

Yes, 4 other offers received at time of RFP

The County foreclosed on 52 Burnham back in 2017. Due to the roof caving in on the building that was there. The City of West Allis added that demolition cost to their tax bill so when the County foreclosed on the property, it also absorbed that cost which is why such a high value is reflected on the back taxes amount. An appraisal done back in 2017 gave this site an appraised value of \$850,000. We accepted Ursidae's offer back in 2018 for \$860,000, whom is a private developer. The County has worked with him to extend his offer a few times to allow him the time to get site approvals, and close the funding gap he has on remediation costs of the site which are close to \$1,000,000.
