Experience

- Hazardous Waste Industry – worked continuously from 1988 to 2003 as corporation I worked for went through several buy-outs and mergers (last for Veolia, Menomonee Falls, WI).
 - ✓ Worked up and presented contracts and bid proposals from very small to multi-million
 - ✓ Represented my company in site walk throughs for commercial bid/contract proposals and public meetings for municipal household and other hazardous waste disposal
 - ✓ Managed/supervised lab pack department with 1 Million plus revenue
 - ✓ Worked on dozens of emergency spill sites including multiple weeks on Weyauwega propane car derailment in 1996. Supervised several emergency spill sites for private sector clients
- Public Health – Lead Risk Assessor Milwaukee Health Dept. 2003-2007, 2009-2012 went to City of Milwaukee Dept. of Neighborhood Svcs. (DNS) for 1 ½ yrs. due to grant funding loss and lack of seniority. Worked on residential building code enforcement at DNS
 - ✓ Volunteered for two HUD Healthy Homes Pilot projects to impact childhood asthma
 - ✓ Assumed responsibilities of Radiation Safety Officer and HEPA vacuum maintenance over a year before change acknowledged by City bureaucracy with promotion and pay raise.
 - ✓ Initiated, organized and presented lead awareness program at Solomon Community United Methodist Church
- Dept of Neighborhood Services Residential Building Inspector, 2007 -2009
 - ✓ Achieved Commercial Building Inspector/Uniform Dwelling Code Inspector Certifications within 6 months of hire
 - ✓ Managed 1 ½ busy districts plus performing monthly reinspection for post-court case properties across city
- Public Health, Emergency Preparedness and Environmental Health 2012 to present.
 - ✓ Safety Officer for Health Department 2014 to present, steering Safety Committee, training for department for Respirator Safety and Bloodborne Pathogens
 - ✓ Represented Health Department and public health interest in environmental contamination investigations, including coordinating meetings with Responsible Parties, their legal representation, their environmental consultants, WI DNR, WI DHS (Dept. of Health Services), and other entities
 - ✓ Developed and presented dozens of community health awareness presentations to community/professional groups such as COVID-19, extreme heat and cold, bedbugs
 - ✓ Authored and presented two investigational posters at American Public Health Association conferences
