We are fighting to not be forceably removed from our home since 1932. Our opposition is stating false facts and using unsupporting facts and false grounds to have us removed. The issue they present is environmental, but the overwhelming evidence supports the opposite which is their stance on anti-gun in the county parks. Their current position is not viable and we must force them to stand on their true agenda.

They state environmental and trash from the gun club as their reason. 5 and 1/2 tons of trash have

been picked up to date from our club on our regular cleanups, the astounding fact is that only a mere 200 lbs were our wads from shooting. Sign our petition and save a part of our city's history.

Letter to

Governor Scott Walker

Milwaukee County Parks

Petition for the reinstatement of the lease between milwaukee county and the cudahy sportsmens club that has been in existence since 1932. Do not relocate our club.

My husbands and his friends have been using this club for more than 35 years. And, the high school has a shooting club for its students that has been very successful. It teaches responsibility and respect for guns instead of letting television and society influence the kids.

I believe that there was no proof of negative environmental impact from the Sportsmans Club. They agreed to and performed all that was asked of them in clean up duties.

I don't like shady back room deals with friends who have a friend in power.

This will cause a huge loss of profit for Cudahy local businesses.

And this is our heritage. It's a gift from our founders....All our parks are. This is one of the
