My name is Tiffany Stark and I'm a MH Social Worker and a member of MAARPR. I'm very concerned with the MCJ action plan as since the audit has been completed there has been a critical incident and two more deaths. I'm concerned as the auditor is giving a narrative that all us good in the Milwaukee Jail and that far from the truth. Both deaths and the critical incident all have to do with substance use and/or MH issues. The jail once again has failed to keep people safe and individuals should not continue to die or be harmed when the jail has shown over and over again they are not equipped to handle these issues. These individuals need help like treatment. Also when family is concerned and calls to tell you their concerns of a MH/addiction history you should be listening. You are not breaking the HIPPA law by listening to what family/friends have to say to help you care for them. You just cannot share any information to them, but you can listen! I'm very concerned about what's happening at the County Jail and feel we are moving backwards and the entire point of the audit was to move forward with improving safety and care. If this cannot happen then those with severe MH issues and substance issues should be removed from the jail to prevent any further deaths! Thank You!

The audit showed some truly alarming issues in the jail, particularly with how those with mental health issues or experiencing suicidal thoughts are treated.

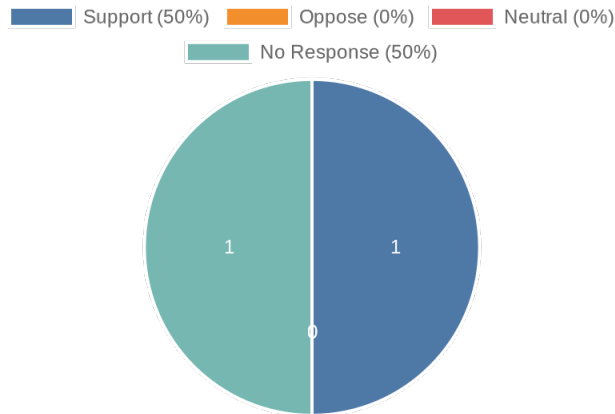

People are continuing to die in the jail since this audit, and serious accountability measures need to be put into place to follow any plans for corrective action.

A civilian accountability council would be the best way to go about this - not a hand selected board like Sheriff Ball has previously suggested. The council should have elected members, input from communities most impacted by the jail, including formerly and currently incarcerated members, and it should have real power to make changes.

It is imperative that we have a body like this to follow up on any corrective action in real time. After all the deaths in custody, after all that the audit turned up, full transparency and accountability in any corrective efforts is absolutely necessary.

Agenda Item: eComments for 3 25-427 A resolution requesting the development of a comprehensive policy framework for facial recognition technology that does not suppress First Amendment related activities, violate privacy, or otherwise adversely impact individuals' civil rights and liberties

There is absolutely no ethical way to implement facial recognition technology or to ensure that doesn't infringe on individuals' civil rights and liberties. And we all know that the money for this could be better used elsewhere. Such as to fix the existing problems in the jail.

My name is Hope Rogers, and I live in Supervisor Wasserman's district. I believe that it is difficult, if not practically impossible, to ensure that facial recognition technology does not prevent human rights or First Amendment rights violations. With that said, I still support this agenda resolution because if the county is moving forward with facial recognition technology regardless, I am in favor of ensuring to the full extent possible that this technology does not suppress free speech or limit community members' rights, and that there is community control over how police surveillance is conducted.

In addition, I am outraged that people are still dying in the Milwaukee County Jail. Jail should not be a death sentence. The Jail Audit was only a first step, but I have not seen enough actual change after the results of the audit came out. I applaud the supervisors for considering an oversight board for the Sheriff, and hope it has powers to cut the budget, change policy, and hire and fire.

It is abundantly clear that a civilian accountability council is sorely needed - and not a hand selected board like Sheriff Ball has suggested. This council should have elected members, input from communities most impacted by the jail, including formerly and currently incarcerated members, and it should have real power to make changes.

It is crucial that this body have real power, and that it represent the will and interests of the broader community. A hand selected board with no authority, like what Sheriff Ball has suggested, is simply not worth pursuing, as it would exist to provide cover for existing issues rather than address them head on.

This is something that is worth doing right. A real community accountability council should be established as soon as possible to follow corrective action plans from the audit, and to come up with solutions to prevent further harm and in custody deaths.

Hello, my name is Tiffany Stark and im MH Social Worker and a member of MAARPR. I'm very concerned as the Sherrif is creating her own community oversight board, which was not approved by this board. I'm concerned that her board will be bias we and need to have members of the community be appointed by the board to garentee transparency. Also community members should be aware of the MCJ history and knowledge of what is currently going on there now! Im asking this board to reconsider the Sherrif's oversight board with the concerns I mentioned above. The JLEGS committee should be approving and setting the guidelines to this community oversight board without bias. Thank You.
