DESCRIPTION OF FISCAL EFFECT

In the space below, you must provide the following information. Attach additional pages if necessary.

- A. Briefly describe the nature of the action that is being requested or proposed, and the new or changed conditions that would occur if the request or proposal were adopted.
- B. State the direct costs, savings or anticipated revenues associated with the requested or proposed action in the current budget year and how those were calculated. ¹ If annualized or subsequent year fiscal impacts are substantially different from current year impacts, then those shall be stated as well. In addition, cite any one-time costs associated with the action, the source of any new or additional revenues (e.g. State, Federal, user fee or private donation), the use of contingent funds, and/or the use of budgeted appropriations due to surpluses or change in purpose required to fund the requested action.
- C. Discuss the budgetary impacts associated with the proposed action in the current year. A statement that sufficient funds are budgeted should be justified with information regarding the amount of budgeted appropriations in the relevant account and whether that amount is sufficient to offset the cost of the requested action. If relevant, discussion of budgetary impacts in subsequent years also shall be discussed. Subsequent year fiscal impacts shall be noted for the entire period in which the requested or proposed action would be implemented when it is reasonable to do so (i.e. a five-year lease agreement shall specify the costs/savings for each of the five years in question). Otherwise, impacts associated with the existing and subsequent budget years should be cited.
- D. Describe any assumptions or interpretations that were utilized to provide the information on this form.

A. If adopted, Parks will be authorized to execute an amendment to the existing easement with MCImetro for an underground telecommunication system that has not been built yet. The amendment will exchange the current easement exhibit for the proposed easement exhibit that will reduce the size and change the route of the current easement. All other terms will remain the same. The current easement was executed on 8/17/2022 and is for a term of ten years with two ten-year renewals. The fee is \$5,000 for the first lineal foot and \$1.66 for each lineal foot after the first mile. The fee increases by 10% at each renewal.

B. None. Both the current easement and the proposed easement are under one mile.

C. None. These fees are already budgeted because this is an existing easement.

D. None.
