

Proposed Recommendation regarding public funding for Cultural and Entertainment Capital Needs for Milwaukee County.

Cheri Briscoe 10/7/14

The Milwaukee County Parks Advisory Commission recommends that Milwaukee County Parks must be part of any proposals for public funding for cultural and entertainment capital assets because of our regional significance for our cultural, recreational, and natural assets. Mitchell Park Domes, Boerner Botanical Gardens, Wehr Nature Center, our golf courses, aquatic facilities, 120 miles of Oak Leaf Trails, and our 220 athletic fields serve millions of people in our region annually. These cultural, entertainment, and recreational assets warrant top-priority consideration for funding.
