Dear Members of the Parks, Energy and Environment Committee,

My name is **aari r** and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

We don't need another expensive restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

The [Center for Disease Control](#) has recommended for public parks to continue to be accessible to all communities during the COVID-19 global pandemic. Having access to outdoor public spaces is important now more than ever. Bradford Beach has been a safe haven for communities for years, but during this COVID-19 global pandemic public spaces have become more crucial for the health and safety of our communities.

I am demanding that you decline this initiative and not deepen the divide between nature and Milwaukee's residents.

Sincerely,

**aari r**

**Date:** Tuesday, January 26, 2021 7:43:29 AM

---

CAUTION: This email originated from outside of Milwaukee County. Use the Phish Alert Report button to have IMSD review this message if you think it is suspicious.

Hello,

My name is Andrew Pollock, a Shorewood resident. I urge our elected officials to not consider the potential sale of any assets along Lake Michigan and Bradford Beach. This has been a resource for all for all my life, and I hope my community does not make the mistake to sell what is public to wealthy interests, thus denying the use of a vital resource to the greater community.

I don't write or contact officials, but I do vote.

I know your emails are going to be flooded, so I just want you each to think of the greater good in this instance and the long term impact this will have on Milwaukee and the promotion of an inclusive and diverse community gathering point. There aren't many left and few as cherished as this.

Thanks,

Andrew Pollock

The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

The [Center for Disease Control](#) has recommended for public parks to continue to be accessible to all communities during the COVID-19 global pandemic. Having access to outdoor public spaces is important now more than ever. Bradford Beach has been a safe haven for communities for years, but during this COVID-19 global pandemic public spaces have become more crucial for the health and safety of our communities.

I am demanding that you decline this initiative and not deepen the divide between nature and Milwaukee's residents.

Sincerely,  
**Angelica Carranza**

Dear members of the Parks, Energy and Environment Committee,

As a member of the Milwaukee community and licensed architect in the state of Wisconsin, I strongly oppose the proposed alterations to the Bradford Beach Pavilion. Architecturally speaking, this pavilion is a gem to treasure on our lakefront. I was shocked and dismayed that someone would consider putting shipping containers on top of this moderne style historic building. Imagine what this would do to the sleek skyline of this building. The style is aerodynamic and curving - not chunky or blocky like a shipping container.

When I first learned of the expanded cocktail operations for the top deck, I was enthusiastic about using the space for this. I do think that this space has been underutilized in the past and could be better programmed to invite patrons upstairs to lounge with the shade cover of umbrellas as it gets quite hot in the summer upstairs. If a portion of the upper deck is used for a cocktail lounge, I think this is appropriate; however, it should not involve significant alterations to the architecture of the skyline. Shade can be offered with umbrellas or less obtrusive measures and a bar does not need significant space. The addition of a kitchen upstairs is not an appropriate adaptation.

In terms of this public pavilion being privatized, I do understand the need for the county to generate revenue. And I do think that a cocktail bar on the top deck would be a welcome amenity to the beach. However, if a portion of the space gets used in this way for paying customers only, this space should not in any way interfere with the public using the pedestrian bridge or being able to enjoy the top deck. There needs to be a portion of the top deck reserved for public use. Not everyone has the ability to pay to enjoy this unique vantage point or picnic spot. This is our public beach and that is what makes it such a beautifully unique amenity for our residents. Please keep it that way. A compromise could be a solution for all parties.

Thank you,  
Angie Tabrizi, AIA

Dear Members of the Parks, Energy and Environment Committee,

My name is Angie and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

We don't need another expensive restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

CAUTION: This email originated from outside of Milwaukee County. Use the Phish Alert Report button to have IMSD review this message if you think it is suspicious.

Dear Members of the Parks, Energy and Environment Committee,

My name is Antonio Garcia and, speaking as a private citizen and lifelong resident of Milwaukee, I wholeheartedly oppose the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will further expose the inequalities throughout our city. Privatizing access to waterways will continue to push longtime residents further away from enjoying the marvelous gift that is Lake Michigan.

We need public investment not the sale of our assets. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

Considering the inequalities exposed by this pandemic, access to public parks continues to be a way for our residents to find comfort and maintain positive mental health. Bradford Beach has been a safe haven for our communities for years, and we need to make sure we don't sell off access, but protect the shared treasures that make Milwaukee unique and a great place to live.

I am demanding that you decline this initiative and not deepen the divide between nature and Milwaukee's residents.

Sincerely,  
Antonio Garcia  
Private Citizen of Milwaukee

Dear Members of the Lakefront Development Advisory Committee,

My name is **Cameron Tom** and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

We don't need another expensive restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

As a teacher of underserved students in Milwaukee, Bradford Beach is a favorite spot for my students because it is free and accessible. Taking that away affects their childhood.

The [Center for Disease Control](#) has recommended for public parks to continue to be accessible to all communities during the COVID-19 global pandemic. Having access to outdoor public spaces is important now more than ever. Bradford Beach has been a safe haven for communities for years, but during this COVID-19 global pandemic public spaces have become more crucial for the health and safety of our communities.

I am demanding that you decline this initiative and not deepen the divide between nature and Milwaukee's residents

Sincerely,

Cameron M. Tom

Dear LDAC,

I grew up in Milwaukee & live in the county. I've been enjoying Bradford Beach since I was 13. I've continued nearly 55 years.

**I'm strongly opposed to privatizing the Pavillion at Bradford Beach.**

I'm sure you've read Virginia Small's article in [The Shepherd Express](#) dated January 21, 2020.

I'm in full agreement with the journalist and the list of organizations opposed.

The Dock's intended takeover of the second floor is gratuitous gentrification.

Sincerely,  
Carol Limbach

Dear Members of the Lakefront Development Advisory Committee,

My name is Courtney Steggall and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only continue the privatization of our waters and green spaces, it will also decrease accessibility to residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

We don't need another expensive restaurant along our lakefront. We have The Harbor House. The Bradford Beach pavilion is visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin, many of whom are lower income. This would restrict families from using this space unless they pay, which is unfair and unequal.

The [Center for Disease Control](#) has recommended for public parks to continue to be accessible to all communities during the COVID-19 global pandemic. Having access to outdoor public spaces is important now more than ever. Bradford Beach has been a safe haven for communities for years, but during this COVID-19 global pandemic public spaces have become more crucial for the health and safety of our communities. Privatizing this area will close off more green, outdoor space to the people of Milwaukee.

I am demanding that you decline this initiative and not deepen the divide between nature and Milwaukee's residents. All people, regardless of income, should be able to enjoy Bradford Beach.

Sincerely,  
**Courtney Steggall**

Dear Members of the Parks, Energy and Environment Committee,

My name is Daisy and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion.

Our lakefront is what makes Milwaukee special. Anyone who has grown up here has childhood memories of that beach. And like so many people, the parks along the lakefront are a beautiful outdoor respite; always, but especially now.

The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

CAUTION: This email originated from outside of Milwaukee County. Use the Phish Alert Report button to have IMSD review this message if you think it is suspicious.

Dear Members of the Parks, Energy and Environment Committee,

My name is **Daniela Cortes** and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

We don't need another expensive restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

The [Center for Disease Control](#) has recommended for public parks to continue to be accessible to all communities during the COVID-19 global pandemic. Having access to outdoor public spaces is important now more than ever. Bradford Beach has been a safe haven for communities for years, but during this COVID-19 global pandemic public spaces have become more crucial for the health and safety of our communities.

I am demanding that you decline this initiative and not deepen the divide between nature and Milwaukee's residents.

Sincerely,

Daniela Cortes

**Subject:** Regarding Bradford Beach Privatization (HRA21-24)  
**Date:** Monday, January 25, 2021 8:58:15 PM

**CAUTION: This email originated from outside of Milwaukee County. Use the Phish Alert Report button to have IMSD review this message if you think it is suspicious.**

This letter is meant for the Lakefront Development Advisory Committee regarding HRA21-24 and I wanted to share with you as well.

As a longtime resident of the East Side, Shorewood and user of Bradford Beach, I am opposed to developing the second floor of the Bradford Beach Pavilion into a private bar and restaurant. While Dock Incs concerns about how popular the beach is and how crowded the spaces around the pavilion can get may be valid, their suggestion that this change is needed in order to change the character of users at the beach reeks of coded racism, elitism, and a clear disdain for the common Milwaukeean. Bradford Beach, and the lakefront, is a rare space in Milwaukee where people of diverse backgrounds and all ages can gather and socialize. Why should these private business owners get to decide for whom this space serves? It is Dock Incs stated goal to transform who uses this space to align with their own analysis of what is wrong with the space and who is using it. \$15 dishes cannot possibly cater to lower-income families and another bar won't decrease the amount of drinking or rowdy behavior occurring at the beach. Providing this amenity as a service to hypothetical families who are deprived of beach time because they can't pack a picnic makes me wonder exactly which community expensive food and drink will appeal to?

Milwaukee has no shortage of new, hip, and high-end dining. By converting the second tier of the Bradford Beach Pavilion into another high-end food destination, the implicit signal is that Bradford Beach is not really a public space meant for all people but one more place that many lower income families cannot afford to eat at and may not feel welcome at. The Milwaukee Lakefront is a public and cosmopolitan space that should not be transformed to the narrow vision of a private restaurant operator who is not even a resident of this community. These business owners are seeking to represent the interests of Milwaukee families and yet the language they are using to defend their project shows they clearly want to serve only their choice of customers rather than the public as a whole. If they had verifiable feedback from a representative sample of Milwaukee area families, it does not show in their project proposal. Limited private interests, even at the potential loss of more revenue, should not take, and make, precedent over the public good on public parkland.

This project should be tabled and any project that moves forward should be focused on equity, inclusion, and increasing access. No meaningful transformation of this space in favor of families can occur through new food and beverage consumption spaces alone. New amenities should be focused on things that appeal to the average family and not simply affluent ones. Any project that moves forward must enhance the cosmopolitan experience and spirit of the lakefront or else it will betray the real and long-term interests of Milwaukeean.

Sincerely,  
David Salmon

Dear Members of the Parks, Energy and Environment Committee,

My name is **Devon Armstrong** and I Strongly and Firmly OPPOSE the further privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity. The company's 5-15 year plan most likely includes coming back again and again to ask for more and more public property. I'm glad they provide concessions for the beach and I hold firm this must be their limit.

We don't need another expensive restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

Good evening,

This email is to express my opposition to the expansion of the Dock's expansion onto the upper level of Bradford's Beach house. The proposal for shipping containers was poorly thought out. Bradford beach is a huge draw for many Milwaukee families, and I believe this expansion will make it harder for these families to enjoy this beach by limiting access to previously public portions, reducing access to parking, and by increasing the number of patrons who visit solely to drink (this making the environment more unsafe). Please oppose this proposal.

Regards,  
Elizabeth Sanders  
Milwaukee resident

I am demanding that you decline this initiative and not deepen the divide between nature and Milwaukee's residents.

Please listen to the demands of your residents. This is a time to take care of the people more than ever. Privatizing a public outdoor space will ruin the lives of so many. Living in a condensed city limits access to nature and the enjoyment of the outdoors. Bradford Beach has been my favorite part about living and going to school in Milwaukee. If you take that away, you will be taking that joy and attraction from every resident who is to consider moving here. Think about your choices.

Sincerely,  
**Emma Sawyer**

Dear Members of the Parks, Energy and Environment Committee,

My name is Erika Schmitt and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

We don't need another expensive restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

The [Center for Disease Control](#) has recommended for public parks to continue to be accessible to all communities during the COVID-19 global pandemic. Having access to outdoor public spaces is important now more than ever. Bradford Beach has been a safe haven for communities for years, but during this COVID-19 global pandemic public spaces have become more crucial for the health and safety of our communities.

I am demanding that you decline this initiative and not deepen the divide between nature and Milwaukee's residents.

Sincerely,  
**Erika Schmitt**

RE: Proposed Privatization of Bradford Beachhouse

Dear Committee,

I am writing in strong opposition to the privatization of the Bradford Beachhouse upper deck. I ask your consideration of several points.

**Racial and Economic Division**

Our park system is a cherished place for Milwaukee residents, privatization of a public beach in any form furthers the already deep segregation of Milwaukee on the basis of race and class. I have heard the argument that *it is only* the upper deck; yet these are the structural changes that further divide our city. This proposal sends a strong message through planned public space- furnished comfortable spaces are for the wealthy, and these literally overlook, from above and down, onto the less fortunate. This proposal continues a long history of racial and economic divides, sending a clear message to Milwaukee residents that the better view, access to fine food and drink, is only for those that can afford it, and that this is condoned and sanctioned by the City.

**Environmental Impacts**

Establishing infrastructure for permanent alcohol consumption on the lakefront opens the door for ongoing negative environmental impacts. In addition to more trash, the proposal invites noise pollution, and inevitable drunk driving. This creates a more dangerous place for animals and people who live and recreate on the lakeshore. Further infrastructural development is also a concern, as the out of town company will need places to store goods and equipment on site. These spaces should be kept free and open for residents and wildlife.

**Development and Long Term Approach**

While I write in opposition to an out-of-town company selling alcohol permanently on our treasured beach, there is ample opportunity to develop infrastructure which benefits all Milwaukee residents, while deepening our appreciation of our treasured saltless ocean. The site could be used for a public art project, or environmental education, in addition to developing additional seating to enjoy the view of Lake Michigan. Given the economic and social climate of our city, and our country as a whole, a creative or educational endeavor would send the message that here in Milwaukee we understand and value Lake Michigan, one of the great wonders of the world, and that we invest in the long term sustainability and health of our lakeshore.

Please do not allow this privatization. I truly appreciate your consideration on behalf of residents and wildlife.

Sincerely,

Erin Garber-Pearson

Dear Members of the Parks, Energy and Environment Committee,

My name is Gabriela Dorantes and as a Milwaukee native I OPPOSE the privatization of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

We don't need another pricey restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and restricting families from using this space unless they pay is unacceptable.

Having access to public spaces is more important now than ever. Public spaces have become ever more crucial for the health and safety of our communities during the COVID-19 global pandemic. The COVID-19 pandemic has forced our communities to use public spaces as a place of gathering and a place to safely social distance. Public access to beaches is critical for our community.

Why is this important?

- This opens up the continued privatization of our waters
- This makes a public area inaccessible to the residents of Milwaukee
- Not family friendly

Demands

I am asking that you decline this initiative and not deepen the divide between nature and Milwaukee's residents.

Dear Members of the Parks, Energy and Environment Committee,

My name is Hanna Fowler and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

Privatizing the beach pavilion would send a blatant message of disregard for Milwaukee's poor families and Milwaukee's families of color.

The [Center for Disease Control](#) has recommended for public parks to continue to be accessible to all communities during the COVID-19 global pandemic. Having access to outdoor public spaces is important now more than ever. As a teacher, I know how vital outdoor access is and how many students in the Milwaukee metropolitan area do not have access to green space as it is. Bradford Beach has been a safe haven for communities for years, but during this COVID-19 global pandemic public spaces have become more crucial for the health and safety of our communities. Many families drive from miles away to be able to walk along the shore line and to picnic at the pavilion.

I am demanding that you decline this initiative and not deepen the divide between nature and Milwaukee's residents.

Sincerely,  
Hanna Fowler

Dear Members of the Parks, Energy and Environment Committee,

My name is **Heather** and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

I have been visiting Bradford Beach for 14 years now & have been playing volleyball in leagues & recreationally there. I have seen it go through the horrible SURG restaurant group management for years and other not so great things. The best thing I've seen happen with Bradford Beach is with the city & county managing it, not these for profit companies who are greedy and know nothing about how to care for the land, water, and people.

We don't need another expensive restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

### Past President

Gina Spang

Dear City of Milwaukee, Milwaukee County & State of Wisconsin Officials,

The Historic Water Tower Neighborhood (HWTN) Buildings and Institutions Committee is writing to oppose any changes to or new uses of the publicly owned Bradford Beach Bathhouse building by The Dock LLC or Milwaukee County until public concerns are fully addressed by Milwaukee County and the City of Milwaukee.

## 2021 TRUSTEES

### District 1

(LaFayette Pl. to North Ave.)

Linda Cutler

Tim Hoelter

Laurel Maney

Tiffany Tinsey

Members of HWTN, a group formed in 1974 to protect the residential character of our historic neighborhood, objected last year at the Milwaukee Historic Preservation Commission (HPC) to plans by The Dock to install three shipping containers on the upper floor of the open-air building for a bar and private restaurant. HPC approved with modifications installation of one container to be used as a bar. HPC did not approve the plan for two additional containers for a restaurant.

### District 2

(North Ave. to Newberry Blvd.)

Jeff Bentoff

Andrew Brusky

Lauren Falk

Regan Hindman

Angie Kvidera

Dawn McCarthy

Donna Neal

Toby Reynolds

The Dock is now moving forward to seek needed city and county approvals for the bar. Representatives of The Dock suggested they may revise and resubmit plans for the restaurant to HPC but have not yet done so.

The historic and beloved bathhouse, built in 1949 in the Moderne-style, is owned by Milwaukee County. HPC continues to have jurisdiction over changes to the historic building, which is also a designated Milwaukee County Landmark. City of Milwaukee ordinances govern the operation of bars and restaurants. Therefore, HWTN asks that the county and city not approve any plans for additional usage or changes to the bathhouse by The Dock or Milwaukee County until the following concerns that have been raised by area residents are fully addressed and meaningful input is received into them:

### District 3

(Newberry Blvd. to  
Edgewood Ave.)

Christianne Camera

Maria Camera

Patrick Fennelly

Gina Spang

Susan Vliet

- **Public Access.** Will Milwaukee County guarantee full public access to all portions of the bathhouse and footbridge and prevent any exclusive use of any part of the building, whether as a “rentable lakeside space for private events” as The Dock proposed in a news release or usage limited to only their paying bar or restaurant patrons (the lease with The Dock says “the Premises shall remain open and available to the public during regular hours the Park remains open”)?
- **Potential Physical Damage.** Is the historic bathhouse’s upper floor structurally sound enough to hold from one to three shipping containers, weighing approximately 2.6 tons apiece when empty?
- **Historic Preservation.** Will installation of any shipping containers harm the historic appearance and nature of the bathhouse, which was designed to look like a ship, with the upper story opening onto a ship-like promenade deck?

- Emphasis on Alcohol, Paying Customers. Will the addition of yet another bar and possibly a sit-down restaurant make Bradford Beach less of a public park and open space for all residents of any means and for families, and more of an exclusive destination venue for paying customers with an emphasis on selling and consuming alcohol?
- Noise. Will the proposed changes result in additional noise, such as amplified music, that will negatively affect the nearby residential neighborhood or the natural park atmosphere of Bradford Beach?
- Public Trust Doctrine. Do any current or proposed use of or changes to the bathhouse violate Wisconsin's Public Trust Doctrine?
- State of Wisconsin Review. When will the State Historic Preservation Office be contacted for required plan review?
- ADA Approval. Has HPC received and approved an ADA plan as it required?
- Racial Equity. How does this proposal address the Milwaukee County commitment to advancing racial equity and eliminating health disparities given the financial barriers to using the facility being proposed?
- Lack of Public Process. Why hasn't Milwaukee County proactively conducted a public presentation, meeting and chance for input by neighbors, HWTN and the general public (besides the upcoming Lakefront Development Advisory Commission meeting, which comes very late in the process) given that Milwaukee County may give or withhold approval for improvements under the lease with The Dock?

Our committee believes residents must be given the opportunity for input into the proposal and have concerns addressed before the county and city approve any new installations, construction or usage of the Bradford Beach Bathhouse.

Dear Members of the Parks, Energy and Environment Committee,

My name is **Isabella Rodriguez** and as a life long resident of the city of Milwaukee, I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

We don't need another expensive restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

The [Center for Disease Control](#) has recommended for public parks to continue to be accessible to all communities during the COVID-19 global pandemic. Having access to outdoor public spaces is important now more than ever. Bradford Beach has been a safe haven for communities for years, but during this COVID-19 global pandemic public spaces have become more crucial for the health and safety of our communities.

I am demanding that you decline this initiative and not deepen the divide between nature and Milwaukee's residents.

Sincerely,  
**Isabella Rodriguez**  
1320 s. Layton Blvd. Milwaukee Wisconsin, 53215

---

CAUTION: This email originated from outside of Milwaukee County. Use the Phish Alert Report button to have IMSD review this message if you think it is suspicious.

I am concerned about several aspects of this proposal, which could cause 1) loss of public access to parts of the bathhouse for private usage and events, 2) increase in alcohol sales and drinking and with it a further loss of a safe family atmosphere in this park, 3) permanent physical damage to this historic structure by installing 2.6-ton shipping containers on the upper floor, 4) increased noise in the neighborhood from an upper-floor outdoor bar much closer to Wahl Avenue than the beach bars, 5) degradation of the historic nature of this building designed in the curvilinear Moderne-style by installing giant, ugly, rectangular, steel containers, 6) lack of an ADA plan approved by Milwaukee's Historic Preservation Commission, 7) creation of financial barriers to beach use by low-income residents who won't be able to enjoy the upper level of the structure and the great views of the lake without paying for drinks or food, and 8) precedent-setting violation of the Public Trust Doctrine.

I am also concerned there has been no proactive outreach from the Parks Department or our county supervisor to neighbors and resident groups to inform us of the plan, of its progress and to seek input.

I ask that LDAC vote against this proposal and call on Milwaukee County to not approve these plans without fully addressing these concerns and guaranteeing no harm to the public or the historic structure.

The Milwaukee Preservation Alliance opposes the proposed further development of the Bradford Beach Pavilion building, which we believe to be inconsistent with the cultural heritage of the site. This 1949 Art Moderne landmark is a Milwaukee County Historic Landmark as well as a contributing structure to the City of Milwaukee's North Point North Historic District and within the National Register-eligible Lake Michigan Parkway North County Historic District. The proposed use of the upper deck of the pavilion, which would result in the loss of full public access, is inconsistent with the historic cultural character of the historic bathhouse as a place held in the public trust and accessible to all. The beach house was constructed to be a public amenity, and it is as such that it derives a portion of its historic significance. Proper preservation practice insists that cultural heritage be protected as vigilantly as architectural heritage, and we oppose any alteration to the structure that would result in a loss of the integrity of feeling and association from privatizing this historic public amenity. Thank you for your time and your service to the people of Milwaukee County.

Supervisor Wasserman and the committee,

I'm writing to ask you to vote against the proposed privatization of the Bradford Beach Snack Bar.

Quite possibly the most unique aspect of Milwaukee's development as a city has been its commitment to keeping the lakefront accessible for all. PLEASE don't throw that tradition away. Bradford Beach is already a tremendous asset to the community -- family friendly, drawing people from all across the city, and providing the backdrop for so many different kinds of (mostly wholesome) activities.

The Beach should be an equalizer - bringing people together, not creating separation. Privatizing the 2nd floor of the Snack Bar will put some people above (literally) others, and drive a wedge where there doesn't need to be one. It will also be the first domino to fall, with other privatizing proposals coming quickly after it.

The Lakefront should be free and accessible, and in Milwaukee, thanks to the presence of our forefathers, it is. Please, let's keep it that way.

Jodi Delfosse

My name is Jolena and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

We don't need another expensive restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to; it is the continued privatization of public land and water.

The [Center for Disease Control](#) has recommended for public parks to continue to be accessible to all communities during the COVID-19 global pandemic. Having access to outdoor public spaces is important, now more than ever. Bradford Beach has been a safe haven for communities for years, but during this COVID-19 global pandemic, public spaces have become more crucial for the health and safety of our communities.

I am demanding that you decline this initiative and not deepen the divide between nature and Milwaukee's residents.

Jolena Corona  
Milwaukee, 53215

Hello my name is **Julia Lemel**, and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. I care about this issue because **our city and the natural beauty should belong to everyone. We all contribute in some way to the success of the city and everyone should feel as though our land and space is open for all to enjoy. I appreciate our city and feel more connected and willing to participate in important issues regarding the city if I can personally enjoy its natural beauty and share that with other community members.** If this development moves forward, **I feel many residents will feel disconnected from the sense of community that comes from having a beautiful public beach. People may begin to feel as though their involvement in important issues does not matter.** Instead, people should feel as though they want to be involved and care about the city and its beautiful public areas as long as they remain open to the public. Taking away a place where many come together does not add to a much needed sense of community, it could only further divide people by not having a common place to feel part of something bigger. The community is asking that you keep ALL of Bradford Beach public and accessible. Please decline this initiative and ensure that no Milwaukee resident ever has to pay for their seat on our lakefront.

Thank you.  
Julia Lemel

From: [Kathleen Miller](#)  
To: [LDMC Council](#)  
Subject: [Bridled Branch Bathhouse](#)  
Date: Tuesday, January 21, 2020 10:12:20 AM

CAUTION: This email originated from outside of Milwaukee County. Use the [Phish Alert Report](#) button to have DMSP review this message if you think it is suspicious.

To the honor and preference of the LDMC Council:

It seems to me that the Bridled Branch Bathhouse was constructed with the intention of presenting the finest spirit of Milwaukee in its support of the beach and our lovely coastline. For this reason, I, as a resident of the Historic Warehouse Neighborhood North, do not object to private access to the upper deck of the bathhouse, which has been understood during the entire 25 years of my residency in this neighborhood. These parties, in my view, could be either public or private. The County Parks Dept has a long established procedure for receiving input to county parks for private usage.

I do object most strongly to the erection of permanent or semi-permanent structures on the Bathhouse upper deck which are inconsistent with its original design. The structures currently proposed may, in fact, compromise the structural integrity of the building. This building may not have been designed to bear the contents, as many of our other private structures do. I would hate to see a commercial usage happen in this area.

Thank you for your consideration.

Kathleen Ottman Miller

**Subject:** Comments Regarding Proposal for Bradford Beach Pavilion - Jan 27 Public Meeting  
**Date:** Monday, January 25, 2021 7:06:18 PM

---

CAUTION: This email originated from outside of Milwaukee County. Use the Phish Alert Report button to have IMSD review this message if you think it is suspicious.

January 25, 2021

Good Evening,

I have a few comments with regards to the proposed restaurant ("The Dock") for the pavilion at Bradford Beach. Please share the following with the meeting organizers, board members and county supervisors in attendance at Wednesday's meeting...

First of all, there are three tiki huts in operation that serve food and drink at Bradford Beach - why is yet another bar needed? Visitors who wish for an upscale experience with a lakefront view, Lake Park Bistro is within walking distance. Same with Harbor House. And The Roundhouse at McKinley will be opening soon as well. All three restaurant/bars are Milwaukee-owned establishments vs out-of-state restaurant operators.

Second, but most importantly, the pavilion is a beautiful mid-century architectural gem and is an important landmark unique to Milwaukee's lakefront and the historic Northpoint neighborhood of which it is a part. The industrial appearance of the shipping container(s) will completely compromise the building's architectural integrity; and by restricting public access to paying guests, will strip the original intent of the structure as a community gathering place for ALL people, regardless of socio-economic class.

Thanks for your consideration in this matter. I am confident I am not the only resident who is concerned that this proposal, if approved, will set a dangerous precedent for future privatization of lakefront land.

Best Regards,

Kathryn Behling  
Resident, Historic Water Tower Neighborhood - Northpoint South

Dear Members of the Parks, Energy and Environment Committee,

My name is Kerstin Larson and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

We don't need another expensive restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

The Center for Disease Control has recommended for public parks to continue to be accessible to all communities during the COVID-19 global pandemic. Having access to outdoor public spaces is important now more than ever. Bradford Beach has been a safe haven for communities for years, but during this COVID-19 global pandemic public spaces have become more crucial for the health and safety of our communities.

I am demanding that you decline this initiative and not deepen the divide between nature and Milwaukee's residents.

Sincerely,  
Kerstin Larson  
2482 S. Delaware Ave.  
Milwaukee, WI 53207

**Subject:** Bradford Beach Bathhouse proposal  
**Date:** Monday, January 25, 2021 10:35:55 PM

---

CAUTION: This email originated from outside of Milwaukee County. Use the Phish Alert Report button to have IMSD review this message if you think it is suspicious.

I am completely opposed to the proposal for a restaurant on the upper level of the bathhouse.

- **on grounds of public access** - I use that space frequently and pay taxes to the County to support it. All of the structure should remain accessible to the public.
- **on equity grounds** - Especially now that McKinley Beach is closed to bathing, this is the only beach available to the whole north side of the city. Making the amenities only available to those who can pay for upscale private dining is just plain wrong.
- **on aesthetic grounds** - Using a 2+ton shipping container on the vintage Moderne style building is a travesty of taste and feeling.
- **on neighborhood grounds** - The Dock company is suggesting that there aren't enough families coming to the beach?? Of course, maybe there would be more room for families if they took down some of the volleyball equipment and the tiki huts that sell alcohol rather than ice cream cones. Oh, but that's what they're making all their money from, isn't it?

Please don't follow this course of action.

Dear Members of the Parks, Energy and Environment Committee,

My name is Leland Pan and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. I understand that Parks is facing a budget crunch, but privatization undoes the very root of Milwaukee's strengths in its parks, which is the belief that all people deserve access to parks and to outdoor recreational spaces.

As someone who is involved in a Friends of Parks group, I would just like to reiterate that long-term, the solution is to find ways to better fund our parks, not privatize them, which will lead long-term to a lack of access for our lowest income and non-white communities in particular.

Thanks,  
Leland Pn

Hello,

I am a constituent of Supervisor Shea's and am writing to this entire committee to register my opposition to the privatization of the Bradford Beach pavilion. Please do NOT turn this public landmark into a private entity.

I have been going to Bradford Beach since I was a baby and have built nearly four decades of memories there. Having unrestricted access to the pavilion is a right for every visitor and should not be restricted to people who can pay for it. It's an absurd proposition-- *nearly* as absurd as the fact that people are allowed to rope off huge areas of the lakefront to hoard green space for the 4th of July fireworks based on who can take off work earliest (something that my childhood self also finds appalling and sad, but that's an email for another time).

For the love of Milwaukee, please do not advance this ridiculous initiative. Do not set this precedent for the privatization of our public spaces.

Thank you,  
Lisa Lucas

To whom it may concern,

I am expressing my deep opposition to the privatization of Bradford Beach pavilion. I know the parks system needs money. Privatizing existing parks is not a solution. These parks exist for the public, and it's your duty to uphold this and to serve the public. Privatization is betrayal to the public. Do not take away an important piece of Milwaukee's summertime culture.

Gratefully,  
Lydia Anthony (I live within walking distance to Bradford)

Dear Members of the Parks, Energy and Environment Committee,

My name is Mandi McAlister and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee.

Privatizing access to water is one of the most violent acts of environmental racism and inequity. Public access to these spaces is one of Milwaukee's greatest assets!

We don't need another expensive restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

Dear Members of the Parks, Energy and Environment Committee,

My name is Marielle Allschwang and I absolutely OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion would not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee.

Privatizing access to water is one of the most violent acts of environmental racism and inequity.

Privatizing water is a violent act, period.

We don't need another expensive restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

The [Center for Disease Control](#) has recommended for public parks to continue to be accessible to all communities during the COVID-19 global pandemic. Having access to outdoor public spaces is important now more than ever. Bradford Beach has been a safe haven for communities for years, but during this COVID-19 global pandemic public spaces have become more crucial for the health and safety of our communities.

My family has lived near Bradford Beach for generations. I've always been proud that the beach and pavilion is a public space, always welcoming all who wish to enjoy it--a reflection of Milwaukee's highest values.

I am demanding that you decline this initiative to ensure Milwaukee's residents maintain the basic right to live with and enjoy our natural surroundings, and to uphold Milwaukee's greatest traits as equitable stewards of our land and water.

Sincerely,  
Marielle Allschwang

Dear Members of the Parks, Energy and Environment Committee,

I am writing to you today because I strongly oppose the privatization of Bradford Beach and its historic pavilion. These recreational areas have long been funded by the public and should continue to be open to the public for all to enjoy. Privatizing them will lead to a disproportionate burden on lower income citizens who wish to use them. You should be working on ways to expand the public's access to areas of common good, like Bradford Beach, not restricting them so others can make a profit.

Thank you,  
Matthew Gensler  
1905 N Water St Apt 304

CAUTION: This email originated from outside of Milwaukee County. Use the Phish Alert Report button to have IMSD review this message if you think it is suspicious.

Please keep Bradford Beach public. As a physician, I appreciate the public health advantages of free outdoor public spaces. Bradford Beach is one such gem. If people want privatized lakefront, they can look to Chicago to see how much of it has become inaccessible to most of the population. Milwaukee is unique in its preservation of public outdoor spaces, and losing Bradford Beach to private interests would stain the character of this city.

Thanks for your consideration

The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

The [Center for Disease Control](#) has recommended for public parks to continue to be accessible to all communities during the COVID-19 global pandemic. Having access to outdoor public spaces is important now more than ever. Bradford Beach has been a safe haven for communities for years, but during this COVID-19 global pandemic public spaces have become more crucial for the health and safety of our communities.

I am demanding that you decline this initiative and not deepen the divide between nature and Milwaukee's residents.

Sincerely,  
Nen Frei

Dear Members of the Parks, Energy and Environment Committee,

My name is Nicholas Elert and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

We don't need another expensive restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

The [Center for Disease Control](#) has recommended for public parks to continue to be accessible to all communities during the COVID-19 global pandemic. To whom it may concern,

I am a resident of the East Side and live just a few blocks from Bradford Beach. I would like to submit my comment that I am in complete favor of the leasing of the upper portion of the Bradford Beach's public pavilion. With the fiscal situation that both the city and county find themselves in, the leasing of a space that currently is very much underutilized makes perfect sense rather than fallback on sale of county property to close a fiscal deficit. In addition to more taxes being generated, the upkeep cost of the property being transferred to a private party is additional fiscal relief.

Furthermore, I also believe that currently many in the neighborhood, including myself tend not to utilize the beach as it is typically congested with younger adults who tend to want to focus on sport and drink. Nothing wrong with this but for those of us that would prefer to dine and relax, the atmosphere is not conducive. There is a lot of chatter on public forums that allowing the leasing of this is taking away the public's park. I disagree to a great extent as currently the park does not cater to all of the public.

Allowing for the private lease of this property expands the utilization of the park by the public as the beach empties and, I believe, closes in the evening. This would expand access by allowing the public to dine well after the area has typically been abandoned by the general beach goer for the evening. So from that perspective the public is getting a greater degree of use.

Lastly, I also think it is great that the design being proposed would require little alterations to the property other than some form ADA accommodations. Even this could be done in a way that would produce no permanent alterations.

**Date:** Tuesday, January 26, 2021 1:50:04 AM

CAUTION: This email originated from outside of Milwaukee County. Use the Phish Alert Report button to have IMSD review this message if you think it is suspicious.

Dear Members of the Parks, Energy and Environment Committee,

My name is Olivia Dobbs and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion would not only threaten privatization for Milwaukee's other public parks, but also continue a trend of inaccessibility to green spaces for many residents of Milwaukee. Privatizing access to water and parks is a grievous example of environmental racism.

We don't need another expensive restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by countless families from all over Milwaukee County and the state of Wisconsin. Privatization would restrict families from using this space unless they pay, which is unacceptable. We have seen, time and again, where this leads. The continued privatization of public land and water—vital community assets—will deepen divisions in our Milwaukee County, with great consequences for the most vulnerable.

Right now, equitable access to outdoor public spaces is more vital than ever. The [Center for Disease Control & Prevention](#) has recommended that public parks continue to be accessible to all during the COVID-19 global pandemic. Bradford Beach has been a safe haven in Milwaukee for many years, but in this moment, public access to outdoor recreation spaces is crucial for the health and safety of all.

As a lifelong Milwaukee resident and frequenter of our beautiful parks, I urge you to **decline** this initiative, and not deepen the divisions between Milwaukee's residents, nor between residents and nature. Thank you.

Sincerely,  
Olivia Dobbs

Dear Members of the Parks, Energy and Environment Committee,

My name is Ruby Kahn-Pettigrew and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

We don't need another expensive restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

The [Center for Disease Control](#) has recommended for public parks to continue to be accessible to all communities during the COVID-19 global pandemic. Having access to outdoor public spaces is important now more than ever. Bradford Beach has been a safe haven for communities for years, but during this COVID-19 global pandemic public spaces have become more crucial for the health and safety of our communities.

I am demanding that you decline this initiative and not deepen the divide between nature and Milwaukee's residents.

Sincerely,

Ruby Kahn-Pettigrew

Dear Members of the Parks, Energy and Environment Committee,

My name is Sam and I'm a resident of Milwaukee, and have been for the past five years. I'm happy to openly admit that most of my summers here, I haven't ventured to Bradford Beach more than four or five times despite living pretty close during each of my many rental agreements. I find it overcrowded, and lacking compared to the beach I was spoiled by growing up—I believe that makes my strong opposition against Bradford's privatization carry more weight. Bradford is really the only beach around, and as I have mentioned, it is already too hot a destination for me. The Pavilion's open accessibility is paramount to the beach itself remaining an open experience, free from charges.

This beach is beloved by the community. Part of Milwaukee's allure is its affordability compared to other similarly-sized cities. As far as nature goes, apart from the oak leaf trail (which is also in talks for being a paid experience) the city of Milwaukee does not have much to offer. Shorewood, Murray Hill, the upper, and the lower East Sides, Yankee Hill, East Town; all of these neighborhoods depend upon unfettered access to Bradford Beach during summertime. Please hear those of us who are vocal when we say:

I *oppose* the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

I moved to Milwaukee from Philadelphia back in 2010. I lived off of Brady St. And discovered amazing Bradford Beach. Through the years I have seen so many changes there. Some exciting for the community and some hurtful and restrictive. This beach is such an amazing place for diversity and inclusion. I appreciate when there was opposition to metered parking and it gave and continues to give access to so many people. This is essential for Milwaukee's integrity in treating people of all socio-economic backgrounds with equity.

My name is Sarah Zahner and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

We don't need another expensive restaurant along our lakefront. Comment on proposed privatization plan:

The beach and the Pavillion are PUBLIC landmarks--public as in 'the people's' as in ALL the people regardless of gender, race, or economic standing. The Pavillion is one of our most prized structures--one that should not be altered architecturally nor should it be used as a 'moneymaker'. Bradford Beach is a gathering place for the diverse population that is Milwaukee County. Please do NOT turn this into a pay-to-play situation at a time when what is most needed is the opportunity for people of all backgrounds to come together and realize we are more alike than different.

CAUTION: This email originated from outside of Milwaukee County. Use the Phish Alert Report button to have IMSD review this message if you think it is suspicious.

I am a resident of the east side and frequently enjoy our lake beaches. I have observed over the years that Bradford Beach has attracted mainly white and young visitors. The last time I was at Bradford last summer, it seemed as if there was less and less beach for people to picnic, sunbathe and just hang out. Bradford Beach is dominated by the volleyball spaces, and volleyball players. I live closer to McKinley and have enjoyed visiting it as well, but this last summer, with three drownings, it seems to me that it is becoming less of an option for people who want to swim or just cool off. I have observed that McKinley is also more frequented by people of color than Bradley.

I understand that the County Parks are in need of revenue. My concern is that in looking at the east side lakefront in totality, privatizing all or part of the bathhouse, and also restricting swimming at McKinley will continue the trend toward making Bradford Beach less welcoming to everyone.

For these reasons, I oppose the Dock's proposal.

Sincerely,

Stephanie Sandy

RE: Bradford Beach Pavilion - privatization

My interest in contacting you is to OPPOSE the proposed privatization of the historic beachhouse at Bradford Beach. This action destroys the appearance of our historic landmark, promotes elitism and isolation of members of our community from an important resource and way to connect all people, and monetizes civic spaces. The result will exclude people from places that are clearly owned by the public, which by law belong to everyone. "It becomes evident to some people that 'You don't belong here' unless you can afford to pay to play" asserted Dr. Arijit Sen, an architect and vernacular architecture historian who writes, teaches and studies urban cultural landscapes. "Representative democracy, a process that takes time and commitment, is so essential to responsible stewardship of public spaces."

Clearly this privatization is not addressing the overall vision, and responsibility of establishing a healthy, revitalized (especially in recovering from the COVID pandemic), and more equitable Milwaukee community. Financial concerns for the parks and keeping them open, maintained and accessible is critical . . . however, only looking to privatize areas is NOT the only way to go about keeping our wonderful places to be in nature.

The importance of history, statutes, moral ethical integrity, physical and social belonging, mental and emotional well being, and societal values about "who belongs, and who doesn't?"

Please consider other ways to address the financial issues . . . and open the process to more community input and involvement.

Dear Members of the Parks, Energy and Environment Committee,

I oppose the privatization of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will open up Milwaukee's public parks for the continued privatization of our waters and green spaces. Privatizing access to water is wrong for Milwaukee.

The [Center for Disease Control](#) has recommended for public parks to continue to be accessible to all communities during the COVID-19 global pandemic. Having access to outdoor public spaces is important now more than ever. Bradford Beach has been a safe haven for communities for years, but during this COVID-19 global pandemic public spaces have become more crucial for the health and safety of our communities.

I am demanding that you decline this initiative and not deepen the divide between nature and Milwaukee's residents.

Most Sincerely,  
Susan Bietila RN, BSN, MA

Dear Members of the Parks, Energy and Environment Committee,

My name is **Susie Seidelman** and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

We don't need another expensive restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

The [Center for Disease Control](#) has recommended for public parks to continue to be accessible to all communities during the COVID-19 global pandemic. Having access to outdoor public spaces is important now more than ever. Bradford Beach has been a safe haven for communities for years, but during this COVID-19 global pandemic public spaces have become more crucial for the health and safety of our communities.

I am demanding that you decline this initiative and not deepen the divide between nature and Milwaukee's residents.

Sincerely,

I Travis Hope oppose the privatization of Bradford Beach Pavilion

Dear Members of the Parks, Energy and Environment Committee,

The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee.

We don't need another expensive restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

I and alot of others have worked very hard in many different parks to keep it safe and welcoming for everyone please do not go down this road to where all can not enjoy the parks and it's amenities. Pulaski park is a park that has had many changes but remains welcome to all let's please keep all are resource's for everyone.

I would like that you decline this initiative and not deepen the divide between nature and Milwaukee's residents.

Sincerely,

Travis Hope

CAUTION: This email originated from outside of Milwaukee County. Use the Phish Alert Report button to have IMSD review this message if you think it is suspicious.

Good afternoon -

For many years, families have flocked to Bradford Beach to escape the scorching summer weather, or simply enjoy the beachfront, whether that means having picnics on the beach and swimming, watching spirited games of beach volleyball, or taking a barefoot walk along the water. This includes a stop (or two, or three) at the bathhouse, to grab a snack, wash hands, or, on the way to leave the beach for the day, to rinse the sand off.

Turning the historic bathhouse into a high-end bar/restaurant is antithetical to Bradford Beach, and the County Parks in general. Do we need another bar/restaurant right THERE, particularly one that will likely price out the regular working families in our city and county? How does that serve the families of Milwaukee? It's one thing to have an entity provide concessions and services in that space to serve the masses, but it's quite another to turn that historic venue into a "pay-to-play" pricey bar, leaving many Milwaukee families out in the sand.

Please say NO to privatization of the bathhouse.

Sincerely,

Cathi Walker  
Milwaukee, WI

Dear Members of the Parks, Energy and Environment Committee,

My name is Zoe Gonzalez and I OPPOSE the privatization by Dock Inc. of the Bradford Beach public pavilion. The privatization of the Bradford Beach pavilion will not only open up Milwaukee's public parks for the continued privatization of our waters and green spaces but it will begin a trend of inaccessibility for residents of Milwaukee. Privatizing access to water is one of the most violent acts of environmental racism and inequity.

We don't need another expensive restaurant along our lakefront. The Historic Bradford Beach pavilion is currently visited and enjoyed by thousands of families from all over Milwaukee county and the state of Wisconsin. This would restrict families from using this space unless they pay, which is unacceptable. We know what this can lead to, it is the continued privatization of public land and water.

The [Center for Disease Control](#) has recommended for public parks to continue to be accessible to all communities during the COVID-19 global pandemic. Having access to outdoor public spaces is important now more than ever. Bradford Beach has been a safe haven for communities for years, but during this COVID-19 global pandemic public spaces have become more crucial for the health and safety of our communities.

I am demanding that you decline this initiative and not deepen the divide between nature and Milwaukee's residents.

Sincerely,  
**Zoe Gonzalez**
