I am writing to express my support for Supervisor Burgelis' amendment to include Capital Project No. WP080101 Washington Park -40th St. Parking Lot – in the budget. The Urban Ecology Center brings thousands of people into Washington Park, for programs, festivals, school trips and volunteer activities. The parking lot provides a vital entrance point into the park and is in a horrible state of disrepair. The County has already agreed to invest in the parking lot, and I hope you will pass this amendment and make good on that commitment.

Capital Project #WP080101 is necessary for the functionality of Washington Park. I am in fervent support of funding this project, as the current state of the Washington park 40th Street Parking lot is a hindrance to visitation, park use, and vehicular movement of those who drive to visit.

Please (please!) approve the funding for the Washington Park parking lot improvement. This parking lot is used by hundreds of park goers from our local soccer teams to families and school groups visiting the Urban Ecology Center to people coming to fish in the lagoon or attend a bandshell concert. We visit many County parks, and I have never seen a parking lot in such horrible disrepair. There are piles of rubble everywhere where the asphalt has disintegrated and giant holes that fill with water when it rains. I have seen people with disabilities struggle to cross the lot and I can no longer bring my elderly father to watch games at the park for fear he will fall when trying to cross the lot. Washington Park is an amazing green space and this budget investment will go a long way in ensuring that everyone is able to access and enjoy it!

Comment to support amendment #6 re: Washington Park parking lot. It's a critical investment related to the \$17M investment by the Urban Ecology Center.

I support: Amend the 2023 Recommended Capital Budget to include Capital Project No. WP080101 Washington Park -40th St. Parking Lot. Green spaces and access to them are vital to our communities. Investment in the infrastructure of our parks is essential to our wellbeing and provides time and opportunities to spend with our loved ones. Money well spent.

As a resident of Martin Drive I strongly support Amendment #6 to complete commitment for for construction of the 40th street parking lot. This lot is practically beyond functionality to the point where it deters people from entering and using the park. On weekday afternoons there are 4 neighborhood based soccer teams that practice there regularly, in addition to people that just want to visit the park and enjoy its amenities and the public and mental health benefits that green spaces bring to neighborhoods. Please see this thing through!

Hopefully this is the correct location for this comment. I emphatically support spending money to repave and restore the severely degraded parking lot at Washington Park. I have never seen a park with a less inviting lot.
