Our responsibilities

As your independent auditor, our responsibilities include:

- Planning and performing the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. Reasonable assurance is a high level of assurance.
- Assessing the risks of material misstatement of the financial statements, whether due to fraud or error. Included in that assessment is a consideration of the County's internal control over financial reporting.
- Performing appropriate procedures based upon our risk assessment.
- Evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management.
- Forming and expressing an opinion based on our audit about whether the financial statements prepared by management, with the oversight of the board of supervisors:
 - Are free from material misstatement
 - Present fairly, in all material respects and in accordance with accounting principles generally accepted in the United States of America
- Performing tests related to compliance with certain provisions of laws, regulations, contracts and grants, as required by *Government Auditing Standards*
- Other auditors considered internal control over compliance with requirements that could have a direct and material effect on major federal and major state programs to design tests of both controls and compliance with identified requirements
- Other auditors formed and expressed an opinion based on their audit in accordance with OMB's *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance) and *State Single Audit Guidelines* about the entity's compliance with requirements described in the *OMB Compliance Supplement* and *State Single Audit Guidelines* that could have a direct and material effect on each of its major federal and state programs.

We are also required to communicate significant matters related to our audit that are relevant to the responsibilities of the board of supervisors, including:

- Qualitative aspects of the County's accounting practice including policies, accounting estimates and financial statement disclosures
- Significant difficulties encountered

Significant changes to the audit plan

There were no significant changes made to either our planned audit strategy or to the significant risks and other areas of emphasis identified during the performance of our risk assessment procedures.

Audit approach and results

Audit approach and results

Planned scope and timing

Audit focus

Based on our understanding of the County and environment in which you operate, we focused our audit on the following key areas:

- Key transaction cycles
- Areas with significant estimates
- Implementation of new accounting standards

Our areas of audit focus were informed by, among other things, our assessment of materiality. Materiality in the context of our audit was determined based on specific qualitative and quantitative factors combined with our expectations about the County's current year results.

Implementation of GASB No. 84 reporting fiduciary activities

During the current year, the County implemented Governmental Accounting Standards Board (GASB) Statement No. 84 – *Fiduciary Activities*. This standard was issued to provide a clear foundation and reduce inconsistencies in reporting of fiduciary activities. Implementation of this standard required the evaluation of various activities and application of specific criteria to determine the fiduciary activities that required reporting. As a result of this standard you will note the following changes in your financial statements from prior years:

- Reclassification of agency activities as custodial funds
- Recognition of a liability to the beneficiaries in each fiduciary fund only when and event has occurred that compels the government to disburse fiduciary resources
- Presentation of additions and deductions on the statement of changes in fiduciary net position for all fiduciary funds, including custodial funds
- Additional footnote disclosures

Key areas of focus and significant findings

Significant risks of material misstatement

A significant risk is an identified and assessed risk of material misstatement that, in the auditor's professional judgment, requires special audit consideration. Within our audit, we focused on the following areas below.

Significant risk areas	Testing approach	Conclusion
Management override of controls	Incorporate unpredictability into audit procedures, emphasize professional skepticism and utilize audit team with industry expertise	Procedures identified provided sufficient evidence for our audit opinion
Improper revenue recognition due to fraud	Confirmation or validation of certain revenues supplemented with detailed predictive analytics based on non-financial data and substantive testing of related receivables	Procedures identified provided sufficient evidence for our audit opinion

Other key areas of emphasis

We also focused on other areas that did not meet the definition of a significant risk, but were determined to require specific awareness and a unique audit response.

Other key areas of emphasis		
Cash and investments	Revenues and receivables	General disbursements
Payroll	Pension liabilities	OPEB liabilities
Other long-term liabilities	Risk claims	Long-term debt
Capital assets including infrastructure	Net position calculations	Financial reporting and required disclosures

Internal control matters

We considered the County's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing an opinion on the financial statements. We are not expressing an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis.

A material weakness is a deficiency or combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A separate report dated July 27, 2021 was issued to the board of supervisors and management that contained other observations and recommendations noted during the audit. The information contained in that report is not included with this report.

Required communications

Qualitative aspect of accounting practices

- Accounting policies: Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we have advised management about the appropriateness of accounting policies and their application. The significant accounting policies used by County are described in Note 1 to the financial statements. As described in Note 1, the County changed accounting policies related to reporting for fiduciary activities by adopting GASB Statement No. 84 – *Fiduciary Activities* in 2020. We noted no transactions entered into by the County during the year for which accounting policies are controversial or for which there is a lack of authoritative guidance or consensus or diversity in practice.
- Accounting estimates: Accounting estimates, including fair value estimates, are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements, the degree of subjectivity involved in their development and because of the possibility that future events affecting them may differ significantly from those expected. The following estimates are of most significance to the financial statements:

Estimate	Management's process to determine	Baker Tilly's conclusions regarding reasonableness
Accrued compensated absences	Evaluation of hours earned and accumulated in accordance with employment policies and average wage per hour rates	Reasonable in relation to the financial statements as a whole.
Net pension liability and related deferrals	Evaluation of information provided by the Employees' Retirement System and Milwaukee Transport Services Transport Employees' Pension Plan's actuarial valuations.	Reasonable in relation to the financial statements as a whole.
Allowance for doubtful accounts	Evaluation of historical revenues and loss levels with the analysis on collectability of individual amounts	Reasonable in relation to the financial statements as a whole.
Net/Total OPEB liability and related deferrals	Key assumptions set by management with the assistance of a third party actuary for the Milwaukee County Other Post Employment Benefit Plan and the Milwaukee Transport Services Other Post Employment Benefit Plan.	Reasonable in relation to the financial statements as a whole.
Depreciation	Evaluation estimated useful life of the asset and original acquisition value.	Reasonable in relation to the financial statements as a whole.

Estimate	Management's process to determine	Baker Tilly's conclusions regarding reasonableness
Incurring but not reported (IBNR) claims	Based on historical expenses, historical claims, and estimates provided by the third party claims administrator.	Reasonable in relation to the financial statements as a whole.
Risk Claims	Based on historical expenses, historical claims, and estimates provided by third parties and judgements made by management as to probability of ultimate payment of these liabilities.	Reasonable in relation to the financial statements as a whole.
Landfill post-closure costs and pollution remediation costs	Based on historical expenses, historical claims, and estimates provided by third parties and judgements made by management as to probability of ultimate payment of these liabilities.	Reasonable in relation to the financial statements as a whole.

There have been no significant changes made by management to either the processes used to develop the particularly sensitive accounting estimates, or to the significant assumptions used to develop the estimates, noted above.

- Financial statement disclosures: The disclosures in the financial statements are neutral, consistent and clear.

Significant difficulties encountered during the audit

We encountered no significant difficulties in dealing with management and completing our audit.

Other audit findings or issues

We encountered no other audit findings or issues that require communication at this time.

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Disagreements with management

Professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Uncorrected misstatements and corrected misstatements

Professional standards require us to accumulate misstatements identified during the audit, other than those that are clearly trivial and to communicate accumulated misstatements to management. The schedule within the Appendix summarizes the uncorrected misstatements that we presented to management, other than those that are clearly trivial, that in our judgment, may not have been detected except through our auditing procedures. In our judgment, none of the uncorrected misstatements, either individually or in the aggregate, indicate matters that could have had a significant effect on the County's financial reporting process.

Management has determined that the effects of the uncorrected misstatements are immaterial, both individually and in the aggregate, to the financial statements as a whole. The uncorrected misstatements or the matters underlying them could potentially cause future period financial statements to be materially misstated, even though, in our judgment, such uncorrected misstatements are immaterial to the financial statements under audit.

Significant unusual transactions

There have been no significant transactions that are outside the normal course of business for the County or that otherwise appear to be unusual due to their timing, size or nature.

Other information in documents containing audited financial statements

Official statements (or other equivalent document)

The County's audited financial statements are "general purpose" financial statements. General purpose financial statements consist of the basic financial statements that can be used by a broad group of people for a broad range of activities. Once we have issued our audit report, we have no further obligation to update our report for events occurring subsequent to the date of our report. The County can use the audited financial statements in other client prepared documents, such as official statements related to the issuance of debt, without our acknowledgement. Unless we have been engaged to perform services in connection with any subsequent transaction requiring the inclusion of our audit report, as well as to issue an auditor's acknowledgment letter, we have neither read the document nor performed subsequent event procedures in order to determine whether or not our report remains appropriate.

Management's consultations with other accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing or accounting matters.

Written communications between management and Baker Tilly

The Appendix includes copies of other material written communications, including a copy of the management representation letters.

Compliance with laws and regulations

We did not identify any non-compliance with laws and regulations during our audit.

Other auditors will issue a separate document which contains the results of their audit procedures to comply with the Uniform Guidance and *State Single Audit Guidelines*.

Fraud

We and other auditors did not identify any known or suspected fraud during our audit.

Going concern

Pursuant to professional standards, we are required to communicate to you, when applicable, certain matters relating to our evaluation of the County's ability to continue as a going concern for a reasonable period of time but no less than 12 months from the date the financial statements are issued or available to be issued, including the effects on the financial statements and the adequacy of the related disclosures, and the effects on the auditor's report. No such matters or conditions have come to our attention during our engagement.

Group audits

The County's financial statements include information that was audited by other auditors as follows:

The financial statements of the Milwaukee County War Memorial Inc. and the Marcus Center for the Performing Arts, component units of the County of Milwaukee, as of December 31, 2020 and June 30, 2020 and for the period then ended were completed by the component auditors Wipfli, LLP and CliftonLarsenAllen, LLP, respectively. All necessary conditions have been met to allow us to make reference to the component auditors.

In addition, if we had any concerns about the quality of work of the other auditors, if there were any limitations related to the group audit or if there was any fraud or suspected from involving group management, component management, employees who have significant roles in group-wide controls or others in which material misstatement of the group financial statements has or may have resulted from fraud we would be required to report those to you. We have not identified any circumstances that are required to be reported.

Independence

We are not aware of any relationships between Baker Tilly and the County that, in our professional judgment, may reasonably be thought to bear on our independence.

Related parties

We did not have any significant findings or issues arise during the audit in connection with the County's related parties.

Other matters

We applied certain limited procedures to the required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the supplementary information which accompanies the financial statements but is not RSI. With respect to the supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on the other information, which accompanies the financial statements but is not RSI. We did not audit or perform other procedures on this other information and we do not express an opinion or provide any assurance on it.

Nonattest services

The following nonattest services were provided by Baker Tilly and / or other auditors:

- Annual Comprehensive Financial Report preparation assistance
- Review of bond offering documents
- Compiled regulatory report assistance
- Preparation of auditee section of the data collection form

None of these nonattest services constitute an audit under generally accepted auditing standards, including *Government Auditing Standards*.

Preparing for the new lease standard

GASB's new single model for lease accounting will be effective soon. This standard will require governments to identify and evaluate contracts that convey control of the right to use another entity's nonfinancial asset as specified in the contract for a period of time in an exchange or exchange-like transaction. Contracts meeting the criteria for control, term and other items within the standard will result in recognizing a right to use asset and lease liability or a receivable and deferred inflow of resources.

We recommend the County review this standard and start planning now as to how this will affect your financial reporting. We recommend that you begin by completing an inventory of all contracts that might meet the definition of a lease. The contract listing should include key terms of the contracts such as:

- Description of contract
- Underlying asset

- Contract term
- Options for extensions and terminations
- Service components, if any
- Dollar amount of lease

In addition, the County should begin to establish a lease policy to address the treatment of common lease types, including a dollar threshold for each lease. We are available to discuss this further and help you develop an action plan.

Recruiting and hiring

Challenge

Public sector entities in need of key workforce personnel, such as city or county managers and administrators, city or county attorneys, fire chiefs, police chiefs and other departmental directors, may find themselves in an unenviable position during a pandemic.

Organizations need the talent, but a pandemic can disrupt essential business processes and cause apprehension about access to desirable candidates.

Information technology and cybersecurity

Challenge

While return-to-work scenarios are being developed, it is likely that remote workforces will remain a reality for many organizations in the short- to mid-term. Though many organizations have been able to adapt on a short-term basis, some will not be prepared for long-term operation on a remote and virtual basis. Organizations should increase monitoring of invasive cyber events, given the likely increase in hackers sending out fake emails, website links and ransomware attacks – and also consider:

- Adequacy of IT controls and security
- Performance of remote infrastructure supporting operations
- Improvements to remote applications for communication, collaboration and workflow
- Alternatives for data entry, work and information flow
