INTRODUCTION

Quorum Architects, Inc. was a co-author of the Milwaukee County Administrative Space Strategic Facility Plan. Quorum was responsible for developing preliminary space square footage needs for the departments involved in the study. These preliminary space needs square footages were compared to the useable square footage of the Courthouse Building to determine which Milwaukee County departments could be located in the building, as well as how much excess space would be available.

Milwaukee County DAS FMD – Planning and Development (FMD-PD) requested Quorum Architects, Inc. to develop additional documentation to support the initial findings of the study. FMD-PD directed Quorum to develop fit plans for Child Support Services and Human Resources within their existing locations within the Milwaukee County Courthouse based on the recommendations Quorum made in the study. The following summarizes the efforts and results of this fit plan exercise.

1. PLANNING CONSIDERATIONS FOR PREPARING DRAFT FIT PLANS

- During the initial Administrative Space Strategic
 Facility Plan, preliminary space needs programs were
 developed for all departments. The preliminary space
 needs programs for Human Resources and Child
 Support Services were used to develop the initial fit
 plans. The space needs programs were developed
 based on the approved Milwaukee County FMD-PD
 space standards.
- The Mezzanine levels in the Courthouse are not favorable to be occupied by employees for long periods. The 1st Floor Mezzanine was not considered as occupiable space for this project and prioritized to be used as storage only.

Milwaukee County Space Standards

REV 10/2/20

CODE	Position Type or Category	Constructed Office or Open Office	Office -SqFt	Cubicle-SqFt	Other Space - SqFt /Area	Comments	Column1

F	Architect/Engineer	0	0	64-72	0	Professional w/ plan review space	
G	Professional General	0	0	48-64	0	Professionals, Accountants, Administrative 1, Social Workers, Purchasing Agents, Specialists	
Н	General Office	0	0	36-48	0	Computer Work, Clerical, Data Entry, Auditors, Interns, Contractors, Hoteling Spaces	
J	Hoteling	0	0	24-30	0	Temporary Workspace Unassigned First come basis or sign up 30% -100%daily ocupancy only	

2. PRELIMINARY SPACE NEEDS PROGRAM RECOMMENDATIONS

- The Preliminary Space Needs Programs were based on preliminary and limited space needs program information received by the Departments. Detailed programming, including confirmation of head count and workflow, must be completed during future phases for development of the project.
- Best practices suggest incorporating more workstations than offices. Size and type of workspaces were selected based on staff titles and FMD-PD standards. The size of workspaces must be confirmed with the Departments.

3. EXISTING CONDITIONS OVERVIEW

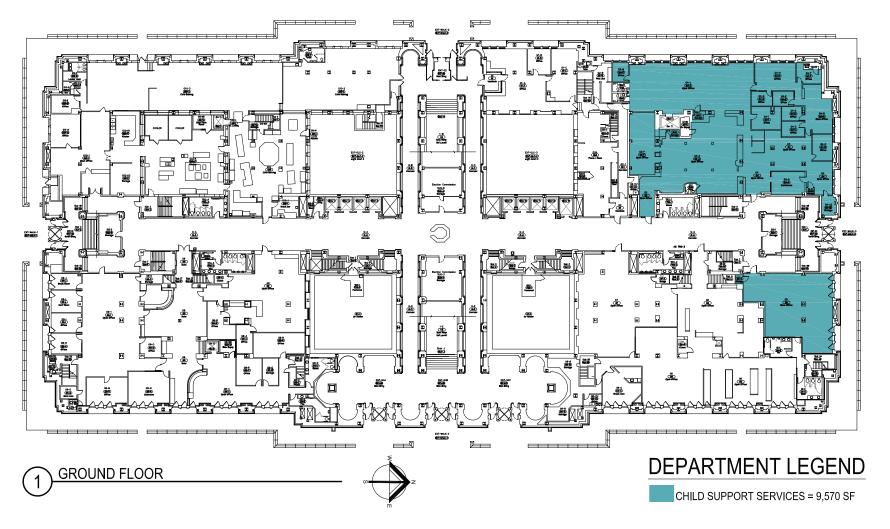

- Non-structural interior partitions were removed to allow for more efficient fit plan options.
- Elevators, stairwells, main toilet rooms and major building infrastructure remain in the existing space as applicable.
- The main, open circulation corridor in the middle of each floor remain.
- Quorum did not perform a detailed code review of the fit plans.
- Child Support Services currently occupies 25,219 SF and Human Resources occupies 20,059 SF of the Courthouse Building.

4. CHALLENGES

- The Milwaukee County Courthouse building is a unique, historic building
 designed at a time when working environments were very different. This
 creates a different set of challenges than found when planning workspaces
 in a more contemporary building which has improved space efficiencies.
- There are limitations to planning within existing boundaries. The study limited reconfiguration of department workspace within their current department boundaries. Overall Courthouse space efficiency would be maximized if the entire building were renovated.

5. FIT PLAN OPTIONS CHILD SUPPORT SERVICES

- Only Traditional Office Model plans were developed, as the Department is not interested in a Hybrid Office Model
- Square footage recovered on 1st Floor Mezzanine only
- Fit plan options reflect standard workstation sizes and comfortable circulation widths
- Option 1 includes 48 sf workstations; Option 2 includes 36 sf workstations

6. FIT PLAN OPTIONS HUMAN RESOURCES

- Traditional and Hybrid Office Model Fit Plan options were developed
- Storage reduced due to plans for digitizing files and/or relocating storage to 1st Floor Mezzanine
- · Square footage recovered in both options
- Number and type of workspaces must be confirmed in Hybrid Office Model
- Option 2 Hybrid Office Model includes opportunity to share some common meeting room spaces
