This item only came to our attention this morning, not in time for us to be present. We can't understand why the County Supervisors continue to contract with a company that has consistently provided such terrible service. The Board of Supervisors should go to the facility and eat just one meal there – then you would never contract with Aramark again! You also realize that their prices are far above what is just and you seem happy not to put out a competitive bid so other companies can offer better meals at lower prices. Why won't the Committee on Finance do its job for a change and fully investigate this problem and contract before simply rubber-stamping it continuing?

Given the amount of complaints by those in the care of the County about the quality of the food they are served, this contract should not be renewed for FY24. The County MUST plan the transition to bringing food service in-house, during this coming year.

This is another item where the Finance Committee needs to do more work. "Kicking the can down the road" is an unacceptable approach to governing or managing, and not doing anything about the unconscionable price gouging that's goes on with Aramark is simply that. Issue a three month 'continuance' if necessary to maintain 'continuity', but do something now to fix the problem.

There is absolutely no reason why the County should be profiting off of those in its care. That we continue this practice is appalling. Going forward the County must plan to bring all aspects of food service in-house for FY24.

Milwaukee County is the state’s largest county by population, in addition to being its main economic engine. The County is also a main driver of public policy when it comes to this State.

Because of this fact, it is vital to relay the demands of the people, as to whether or not to repeal the State’s ban on abortion. This referendum is a crucial first step in showing the rest of the State where Milwaukee County stands on this issue.
