#### Detailed Explanations:

A-1 The Director of the Department of Health and Human Services requests an appropriation transfer of \$2,114,755 to realign the 2023 budget with anticipated actual expenses. These services are contracted with providers through fee-for-service agreements and are budgeted within Children, Youth and Family Services (CYFS) for youth placed in out of home care as well as those receiving AODA treatment and targeted monitoring.

B-1 The Director of the Department of Health and Human Services requests an appropriation transfer of \$328,000 to recognize additional revenue and expenditures in the Children's Long-Term Support (CLTS) Program within Children and Family Services. This program provides supportive services to children with developmental, physical, and cognitive disabilities so that they can remain in their homes or community. The CLTS program is fully funded program, and all programmatic expenses are covered by administrative and case management revenues. This program has seen a steep growth in enrollments over the last few years. An additional \$328,000 expense for Netsmart Services is requested to purchase 820 data programming hours to migrate current Excel based data platform to MyAvatarNX. This transition will improve data quality, speed up service reviews, and minimize processing errors thereby expediting services to this target population.
