Noise from this facility is a public nuisance. It is a persistent noise intrusion into residential homes for miles. I could hear word for word the national anthem at 6:37pm INSIDE MY HOME and the announce is incredibly loud throughout the games. This goes on for hours every game. It is so inconsiderate of the hundreds of families surrounding this facility that had quiet enjoyment for decades prior to this facility being funded and a partnership with the City.

This development creates noise intrusion / annoyance into surrounding neighborhoods. Per Mayor Olson letter to BPC Sept 2020. "Dear Mike. As a follow up from our MANY recent conversations, the noise intrusion into the lives of the neighbors MUST BE REDUCED. The number of complaints this baseball season has risen and has included new complaints and the watch parties have made the problem even worse. The neighbors can no longer be forced to participate in the events at the development whether they want to or not. Solitude may not be achieved but improvement must be made. We're all tired of the problem so let's get it fixed, at least in terms of the stadium We still need to deal with the Umbrella bar which was a big issue tonight." Mayor Olson has proclaimed at numerous public meetings that he is an expert in sound so how could this development not have been properly engineered to keep the noise on the property? Why is this problem allowed to be ignored for 100s of annual events?

The Rock 7900 Ci The Milwaukee M	rystal Ridge Rd. Franklin, WI Iilkman game started and you can				nt to or not from 2		

The fireworks that were shot off from the Rock Sports Complex were excessive and extremely loud. They woke up my children and my husband & I. We had jobs are are not just Monday - Friday. We should be able to sleep in our house undisturbed. There were a handful of fireworks that came way too close to our house. They shook the windows and we were expecting our windows to break from the vibrations. We have a noise meter and we took readings inside our home with the windows closed. The noise readings were in excess of 80dB in our home from these fireworks. This is completely unacceptable. We work too hard and pay too much in taxes to be disturbed in our home constantly by the Rock. They are horrible neighbors. The homes and people were here first. They chose to build in the middle of residential neighborhoods. They need to be respectful of the people who live here. We want peace & quiet. We do not want to be awaken by explosions from fireworks. Very rude.

public nuisance that destroys quality of life, quiet enjoyment, property values & health of Franklin citizens. The City enables this development to do ANYTHING it wants without penalty & has for YEARS. No permits for events, NO fines, Procedures Not followed. NO steps to minimize adverse impact or reduce harm. Where are approvals for: umbrella bar fireworks 7/4? movies & live band in the stadium? umbrella bar DJ blasting 7 to 11 pm Friday 9/2? (Facebook ad said 7-10 pm NOT correct), Sunday live band 9/4? Or the "event" today? Where are the public meetings / approvals? City is negligent and culpable.

9/17/2022: 7:32pm - The PA system/announcer for the Milkman game was way too loud and could be clearly heard from 1.5 miles away at my home. Why do the games need to be broadcast so loudly that they are heard from miles away? I know there are speakers at the stadium pointed out into the surrounding neighborhoods. Why is that necessary? Additionally, there is a sound abatement boundary surrounding this property. Why is the planning department choosing to do nothing about mitigating the sound?

9/18/2022 - There was a bike race at the ski hill today and the races were being broadcast over a PA system starting at 9am. The races could be heard at my home 1.5 miles away. Why were bike races being broadcast so early in the morning? The speakers at this event were even pointed north into our subdivision. This event had no consideration of the surrounding neighborhoods and should not have been allowed to broadcast so loudly in the morning. Did the developer or The Rock even ask the City of Franklin for a permit for this event, or is this just another example of the City of Franklin letting the developer and The Rock do whatever they want that is disruptive for surrounding neighborhoods, like the fireworks throughout the summer.

	744 1007 000				

9/18/2022 - Does the City even bother to require permits for disruptive events at the Rock broadcasting noise? Are there any fines for this place not following the required process? There was a firework violation 7/30/21 and certainly again 7/4/22 so what penalties have been followed? The DJ, fireworks, the live bands, the bike race today with speakers broadcasting noise – where are the permits? The City needs hold this place accountable. WHY not restrict permits until the noise is turned down and speakers TURNED IN? The City acts like they are powerless, why is that? THEY are the governing body to which the developer has not followed the process & deliberately is a nuisance. Where is the permit for today & July 4th fireworks & DJ Aug 5? 4 events this month disruptive on school night past 10 pm. NOISE started today 9am w/ announcer & music for bike race & noise continued to 4:50 pm with a Milkman LONG MOOO. The 7 fireworks at this place is disruptive to neighbors.

8/19/2022 & 8/20/2022 - Overuse of fireworks (7) at this location. District Intent met WITHOUT UNDUE DISTURBANCE of natural resources AND ADJACENT USES, the ENTIRE Sports Complex Area, the existing ballfields and proposed stadium in particular, SHALL EMPLOY SUPERIOR LIGHTING AND SOUND SYSTEMS so as to MINIMIZE POTENTIAL ADVERSE IMPACTS UPON ADJACENT PROPERTIES. The speakers directed at residential homes is NOT minimizing any adverse impact. It is a deliberate nuisance. There is no action to contain the disruptive noise from any activity: Fireworks, Music, Games. This development is intentionally disruptive. Dec 2020 City Report indicated 50 dbA at receiving property line is the correct decibel level. Table 15-3.1107 "Maximum permitted Sound Levels in ALL zoning Districts. At no point of the zoning district shall the sound level use exceed the decibel level" in that chart. This requirement has not been followed for 5 years for hundreds of events.

9/17/2022 - Chronic animal noises during every Milkman game. This is a public nuisance. I can hear this in my home throughout game: I wrote down just some animal noises 7:30 moo, 7:35 moo, 7:37 moo, then the claw game & talking to youngster, then countdown 54321 who has most items. Mooing at 7:42, 7:50, 7:54 then now batting for Milwaukee Milkman. . then moo 7;55, then jeopardy music, then talking about Bovine, 8:15 player from Florida, then chat with spectator named Melissa...This goes on for the entire game. Disruptive noise for hours. The speakers pointed at this neighborhood are an atrocity. It is disruptive and annoying. It is negligent to allow these speakers to be pointed at this neighborhood. The COUNTY documents indicate ALL SPEAKERS are to be aligned AWAY from residential districts to avoid spillover of noise. I should not hear every word and noise amplified over the sound system at my home. This is a public nuisance.

At 11:15pm loud music from the DJ, people screaming, and sound effects from the Hills Have Eyes event could be clearly heard from my home 2 miles away. The sound effect of a person screaming played on a loop until just after 1 am in the morning. The application on file in Franklin for this event says that it ends at 11:00pm. This is a violation of the permit. Will there be a citation issued by the City of Franklin, or is the City going to ignore this as well? Please update me with the resolution.
