DESCRIPTION OF FISCAL EFFECT

In the space below, you must provide the following information. Attach additional pages if necessary.

- A. Briefly describe the nature of the action that is being requested or proposed, and the new or changed conditions that would occur if the request or proposal were adopted.
- B. State the direct costs, savings or anticipated revenues associated with the requested or proposed action in the current budget year and how those were calculated. ¹ If annualized or subsequent year fiscal impacts are substantially different from current year impacts, then those shall be stated as well. In addition, cite any one-time costs associated with the action, the source of any new or additional revenues (e.g. State, Federal, user fee or private donation), the use of contingent funds, and/or the use of budgeted appropriations due to surpluses or change in purpose required to fund the requested action.
- C. Discuss the budgetary impacts associated with the proposed action in the current year. A statement that sufficient funds are budgeted should be justified with information regarding the amount of budgeted appropriations in the relevant account and whether that amount is sufficient to offset the cost of the requested action. If relevant, discussion of budgetary impacts in subsequent years also shall be discussed. Subsequent year fiscal impacts shall be noted for the entire period in which the requested or proposed action would be implemented when it is reasonable to do so (i.e. a five-year lease agreement shall specify the costs/savings for each of the five years in question). Otherwise, impacts associated with the existing and subsequent budget years should be cited.
- D. Describe any assumptions or interpretations that were utilized to provide the information on this form.

¹ If it is assumed that there is no fiscal impact associated with the requested action, then an explanatory statement that justifies that conclusion shall be provided. If precise impacts cannot be calculated, then an estimate or range should be provided.

- A. Approval of this request would enable the Division of Employee Benefits to contract with UnitedHealthCare for the administration of Milwaukee County's medical benefit plan coverage.
- B. There is no direct cost impact to the 2011 budget.
- C. There is no budgetary impact to the current year, aside from the time of existing staff. Based on current enrollment, the annual administrative fees paid to UnitedHealthCare would increase by \$282,500 in 2012. There will be no further increases in 2013 and 2014.

The increase in administrative fees is expected to be more than offset by improvements to provider discounts. Based on current enrollment and historical utilization, provider discounts are expected to improve by 2%, yielding savings of approximately \$2,000,000 per year compared to current provider discounts. However, inflationary health care trend will still apply to the County's medical costs during contract period, offsetting any projected savings directly attributable to this contract. Consequently, the savings due to improved provider discounts are not reflected as a reduction in overall costs in this fiscal note.

D. The estimated impact to administrative cost is based on current enrollment. The estimated impact of the improved provider discounts referenced above assumes enrollment and health care utilization will remain similar in 2012 and beyond. Changes to enrollment, provider mix, or utilization could positively or negatively impact the estimates in this fiscal note.

EXHIBIT B

PERFORMANCE STANDARDS FOR HEALTH BENEFITS

The Standard Medical Service Fees (excluding Optional and Non-Standard Fees), (hereinafter referred to as "Fees") payable by You under this Agreement will be adjusted through a credit to your Service Fees in accordance with the performance guarantees set forth below unless otherwise defined in the guarantee. Unless otherwise specified, these guarantees apply to medical benefits and are effective for the period beginning January 1, 2012 and ending on January 1, 2013 ("Guarantee Period"). With respect to the aspects of our performance addressed in this exhibit, these fee adjustments are your exclusive financial remedies.

We reserve the right from time to time to replace any report or change the format of any report referenced in these guarantees. In such event, the guarantees will be modified to the degree necessary to carry out the intent of the parties. We shall not be required to meet any of the guarantees provided for in this Agreement or amendments thereto to the extent Our failure is due to Your actions or inactions or if We fail to meet these standards due to fire, embargo, strike, war, accident, act of God, acts of terrorism or Our required compliance with any law, regulation, or governmental agency mandate or anything beyond Our reasonable control.

Prior to the end of the Guarantee Period, and provided that this Agreement remains in force, We may specify to You in writing new performance guarantees for the subsequent Guarantee Period. If We specify new performance guarantees, We will also provide you with a new Exhibit that will replace this Exhibit for that subsequent Guarantee Period.

Claim is defined as an initial and complete written request for payment of a Plan benefit made by an enrollee, physician, or other healthcare provider on an accepted format. Unless stated otherwise, the claims are limited to medical claims processed through the UNET claims systems. Claims processed and products administered through any other system, including claims for other products such as vision, dental, flexible spending accounts, health reimbursement accounts, health savings accounts, or pharmacy coverage, are not included in the calculation of the performance measurements. Also, services provided under capitated arrangements are not processed as a typical claim; therefore capitated payments are not included in the performance measurements.

Assumptions

- Target in-Network Provider Choice Discount Percentage 51.3%.
- The target discount percentage is based on the current distribution percentage of in-network employees by market. The
 current distribution for the larger markets is illustrated below. The distribution of smaller markets is combined into the
 All Other market.
- Savings are defined as the sum of the difference between the covered billed charges (excluding ineligible and not covered
 charges) submitted by the Network Provider and the amount based on the negotiated rate with that provider. This may
 also include specially negotiated discounts with Network Providers in outlier claim situations.
- We reserve the right to exclude claims billed utilizing billing software, showing billed charges (excluding ineligible and not covered charges) equal to the negotiated rate from this guarantee.
- Claims where We are the secondary payor are excluded from the Network Savings and Network Savings Factor determination.
- Mental Health/Substance Abuse claims are excluded.
- Medicare and Out of Area subscribers are excluded.
- We reserve the right to revise the target discount percentage should there be a significant change in this Employee distribution (+ or 10% change in any of the markets identified below). The figures above are based upon the following markets and Employee counts:
