

# **HOME Investment Partnerships Program**

## **Multi-Family Underwriting Template**

U.S. Department of Housing and Urban Development  
Office of Community Planning and Development

<b>Project Information</b>	
Project Name:	Beaver Creek Apartments
Address	60th Street 1 block north of Brown Deer Road
Developer:	General Capital Group
Date of Analysis:	8/15/2012
City:	Milwaukee
State:	Wisconsin
Development Type:	New Construction

### **INSTRUCTIONS FOR USE**

This template is intended to be used in tandem with web-based training materials available on HUD's HOME Front Web page, <http://www.hud.gov/offices/cpd/affordablehousing/training/index.cfm>. Failure to consult the online training may result in inaccurate results.

The template is intended to assist in planning multifamily, not single-family, affordable housing.

**Link to HUD's HOME Front - Interactive Technical Support for the HOME Program.**

The U.S. Department of Housing and Urban Development and ICF Consulting assume no liability for the use, functionality, or content of this template. This template is for draft calculations only. All inputs, outcomes, and calculations should be independently verified.

Cells for data entry are flagged with Excel's comments feature and colored green. Do not change formulas within the template, as many of them track to other formulas.

Users must determine and enter into the template the minimum required number of HOME units given the level of HOME investment and the per unit HOME investment caps. The template does not automatically assume or calculate a specific number of HOME units.

This template does not automatically cap rents at HOME levels. Each user must do this, as applicable.

This template does not automatically cap the level of HOME investment using the investment limits. PJ's must ensure that they do not invest more than the per unit investment limits would allow or more than is required by the project. PJ's are encouraged to review Notice 98-02 for guidance on allocating costs and determining maximum investment and minimum HOME units.

**Participating jurisdictions (PJ's) must conduct a subsidy layering analysis for investment of HOME funds.**

Upon completing this tab, proceed to the *Requirements* tab.
