How Well We Do It: Performance Measures			
Performance Measure	2012 Actual	2013 Budget	2014 Budget
Operation Cost per 1,000/CF of Water Service	\$44.30	\$42.00	\$46.50
Operation Cost per 1,000/CF of Sewer Service	\$16.40	\$18.00	\$21.00
Operation Cost per 1,000/CF of Storm Water Service	\$1.90	\$2.90	\$3.20

Strategic Implementation:

The systems provide water, sewer, storm and fire services to County and non-County entities located on the grounds. The expenses of the Water Utility are fully funded by revenue from users, which are assessed based on each entity's share of total consumption. Consumption is metered for water usage and sewer, storm and fire are functions of that water consumption.

The 2014 Budget includes a total expenditure increase of \$560,819. Operating costs rise \$253,690 largely due to utility increases of about \$181,821 charged to the Water Utility,² while Debt & Depreciation costs rise \$69,754. Interdepartmental Charges increase due primarily to the DAS-Facilities Management Director's Office management/oversight increase of approximately \$146,751 and an interest allocation cost increase of \$119,797. This is partially offset by a decrease of \$29,173 in other Interdepartmental Charges. All Expenditures are offset by fees paid by users of the water system.

¹ Any year-end balance is applied to the Water Utility reserve account.

² Utilities include water, sewer, electricity, and stormwater charges. These specific utility services are supplied and charged to Milwaukee County's Water Utility system as follows: The City of Wauwatosa charges for sewer and stormwater services; the City of Milwaukee provides water services; WE Energies provides the electrical services.

The fire protection charge will continue to be budgeted in the Water Utility and charged out to all County Grounds users of the water system.³ Payment from some non-County users of the water system has been challenging. The County will continue to pursue payment for these charges.⁴ In light of this, approximately \$1.3 million is included in the Appropriations for Contingences Budget (Org Unit 1945) to account for potential non-payment from non-County water system users.

³ As part of the 2012 Adopted Budget, fire protection charges were transferred from the DAS-Facilities Management Division to the Water Utility in order to more accurately allocate the this charge to all user-tenants located on the County Grounds. Fire protection charges for 2014 are estimated at \$1.33 million. Approximately \$1.27 million of this cost is charged to non-County water system users with the balance (\$66,820) charged to County users.

⁴ Prior to the transfer of the fire protection charge to the Water Utility in 2012, DAS-Facilities Management, DAS-Fiscal Affairs, and Corporation Counsel staff reviewed the existing fire protection agreement(s) as well as any applicable state statutes, county ordinance, and/or existing agreements between the non-County water system users and the County.
