

# WITSEC Case Statistics 2009-2014\* (\*projected)

**2014-** At this point our referrals and arrests project to almost identical numbers that we posted in 2013, despite a very slow start early in the year (severe winters reduce crime). We are currently at a saturation point as far as having enough investigators to handle the requests that are coming in. We now often refer requests for service back to the original investigating agency due to our inability to handle a larger case load.

**2013** – 365 referrals – (233 of these were DV cases) – 125 arrests

**2012** - 274 referrals – (138 of these were DV cases) – 93 arrests

**2011** – 226 referrals – (113 of these were DV cases) – 59 arrests

**2010** – 173 referrals – (67 of these were DV cases) - 44 arrests

**2009** – 147 referrals – (61 of these were DV cases) – 26 arrests
