DESCRIPTION OF FISCAL EFFECT

In the space below, you must provide the following information. Attach additional pages if necessary.

- A. Briefly describe the nature of the action that is being requested or proposed, and the new or changed conditions that would occur if the request or proposal were adopted.
- B. State the direct costs, savings or anticipated revenues associated with the requested or proposed action in the current budget year and how those were calculated.¹ If annualized or subsequent year fiscal impacts are substantially different from current year impacts, then those shall be stated as well. In addition, cite any one-time costs associated with the action, the source of any new or additional revenues (e.g. State, Federal, user fee or private donation), the use of contingent funds, and/or the use of budgeted appropriations due to surpluses or change in purpose required to fund the requested action.
- C. Discuss the budgetary impacts associated with the proposed action in the current year. A statement that sufficient funds are budgeted should be justified with information regarding the amount of budgeted appropriations in the relevant account and whether that amount is sufficient to offset the cost of the requested action. If relevant, discussion of budgetary impacts in subsequent years also shall be discussed. Subsequent year fiscal impacts shall be noted for the entire period in which the requested or proposed action would be implemented when it is reasonable to do so (i.e. a five-year lease agreement shall specify the costs/savings for each of the five years in question). Otherwise, impacts associated with the existing and subsequent budget years should be cited.
- D. Describe any assumptions or interpretations that were utilized to provide the information on this form.

- A. Implementation of 2013 Wisconsin Act 14 with regard to purchase of professional service agreements (under the Milwaukee General Ordinance Chapter 56) for Capital projects requires County Board passive review for award the initial agreement, or fee extension(s) to the original agreement, when the total contractual fee exceeds \$100,000 but is less than \$300,000.
- B. A fee increase to an existing professional service agreement with Miller Engineering Information Technologies Group Inc. to provide professional design services for the adopted 2014 Capital Project WP203 – Kosciuszko Community Center HVAC Renovations is being requested that would add \$20,258.50 to the current agreement resulting in a total agreement value of \$142,658.50.
- C. There are sufficient funds in the current WP203 capital budget to award the requested fee increase for Miller Engineering Information Technologies Group Inc. to perform an additional scope of work including further design work for unforeseen site conditions. The construction will start in 2017 pending approval of the 2017 capital request.
- D. None.

¹ If it is assumed that there is no fiscal impact associated with the requested action, then an explanatory statement that justifies that conclusion shall be provided. If precise impacts cannot be calculated, then an estimate or range should be provided.
