DESCRIPTION OF FISCAL EFFECT

In the space below, you must provide the following information. Attach additional pages if necessary.

- A. Briefly describe the nature of the action that is being requested or proposed, and the new or changed conditions that would occur if the request or proposal were adopted.
 - B. State the direct costs, savings or anticipated revenues associated with the requested or proposed action in the current budget year and how those were calculated. ¹ If annualized or subsequent year fiscal impacts are substantially different from current year impacts, then those shall be stated as well. In addition, cite any one-time costs associated with the action, the source of any new or additional revenues (e.g. State, Federal, user fee or private donation), the use of contingent funds, and/or the use of budgeted appropriations due to surpluses or change in purpose required to fund the requested action.
 - C. Discuss the budgetary impacts associated with the proposed action in the current year. A statement that sufficient funds are budgeted should be justified with information regarding the amount of budgeted appropriations in the relevant account and whether that amount is sufficient to offset the cost of the requested action. If relevant, discussion of budgetary impacts in subsequent years also shall be discussed. Subsequent year fiscal impacts shall be noted for the entire period in which the requested or proposed action would be implemented when it is reasonable to do so (i.e. a five-year lease agreement shall specify the costs/savings for each of the five years in question). Otherwise, impacts associated with the existing and subsequent budget years should be cited.
 - D. Describe any assumptions or interpretations that were utilized to provide the information on this form.
-
- A. The Office of the Comptroller is requesting approval of the attached parameters resolutions for the issuance of a not-to-exceed amount of \$31,350,000 of general obligation bonds and a not-to-exceed amount of \$22,230,000 of general obligation notes to finance various capital projects that have already been approved by the County Board and County Executive. The resolutions also delegate the bid opening and approval of the winning bidder for the sales of the Obligations to the Comptroller. The Comptroller's approval is limited to sale results that fall within the parameters outlined in the resolutions.
 - B. The estimated combined debt service costs for the not to exceed amount of \$31,350,000 of Corporate Purpose Bonds and \$22,230,000 of general obligation notes is \$68,703,000, including \$15,123,000 in interest.
 - C. There is no current year budgetary impact since the debt payments will not begin until 2019 and the bond/note revenues are already budgeted for the individual projects. The 2019 Budget will need to include principal and interest expenses for the 2018 debt that is being issued.
 - D. The costs of issuance will not exceed the federally allowable 2% of the par value of the bonds. The estimated total debt service is based on one long term financing with a 12-year term and four note financings with terms shorter than 5 years. A 5 percent coupon is assumed for the bonds and a 4 percent coupon is assumed for each of the notes series.

¹ If it is assumed that there is no fiscal impact associated with the requested action, then an explanatory statement that justifies that conclusion shall be provided. If precise impacts cannot be calculated, then an estimate or range should be provided.
